NOTES TO FINANCIAL STATEMENTS

December 31, 2012 (Audited) and 2011 (Complied)

NOTE 1 - DESCRIPTION OF THE PLAN - CONTINUED

The following description of the Urology Health Specialists, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Urology Health Specialists, LLC that have completed one year (at least 1,000 hours) of service. Entry dates are the first day of the plan year or the first day of the seventh month of the plan year following the date on which the eligibility requirements are satisfied. The Plan is subject to the provisions of ERISA.

Contributions

Each year, participants may contribute up to 100 percent of annual compensation on a pre-tax basis or after-tax basis in accordance with the Roth provision, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants are also provided the option to direct the investment of their contributions into a personal brokerage account, as long as those investments meet the qualifications of the Plan. Under the safe-harbor provision, the Company makes a nonelective contribution equal to three percent of compensation. Safe-harbor contributions were made in the amount of \$323,484 and \$279,735 for Plan years ended December 31, 2012 and 2011, respectively. The Company's safe harbor contribution is fully vested at all times and cannot be forfeited. Additional employer matching or profit sharing amounts may be contributed at the option of the Company's management, and are invested as each participant directs. Discretionary profit-sharing contributions were made in the amount of \$647,554 and \$603,884 for Plan years ended December 31, 2012 and 2011, respectively. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's safe harbor and profit sharing contributions, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon and the Company's safe harbor contributions. Vesting in the Company's discretionary employer matching and profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

NOTE 1 - DESCRIPTION OF THE PLAN - CONTINUED

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. In-service withdrawals are permitted for financial hardship.

Forfeited Accounts

At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$11,568 and \$5,050, respectively. These accounts can be used to pay plan administrative expenses or to reduce Company contributions into the Plan. During 2012, forfeitures were used to reduce employer contributions by \$897.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the prices that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of benefit payments are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 14, 2013, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

Urology Health Specialists, LLC is the plan administrator. Urology Health Specialists, LLC have entered into a custodial agreement with John Hancock Life Insurance Company (participant-directed investments) to provide custody of Plan investments and maintain Plan activity for the employer contributions to the Plan.

Mutual Funds	24,741
Stable Value Fund	<u>2,352</u>
Net Appreciation	<u>\$ 1,853,634</u>

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets and liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS - CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: The unit values of the separate accounts are calculated by dividing the total value of the assets of the separate accounts by the number of units in the separate accounts. For separate accounts that invest in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share of the underlying mutual funds. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares (Level 2). There are currently no redemption restrictions on these investments.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

Stable value fund: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

December 31, 2012 (Audited) and 2011 (Complied)

NOTE 5 - STABLE VALUE FUND

During the 2012 plan year, the Company acquired interest in the John Hancock Stable Value Fund Collective Investment Trust, a trust established in order to provide for the collective investment of assets of certain tax-exempt employee benefit plans. It seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. The fund invests in benefit responsive stabilizing agreements with one or more third party providers ("Stability Providers"). The stability providers issue stabilizing agreements that provide that participant transactions are executed at contract value.

Because the stable value fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by John Hancock, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: the Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; the establishment of a defined contribution plan that competes with the Plan for employee contributions; any substantive modification of the fund or the administration of the fund that is not consented to by the wrap issuer; any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on a fund's cash flow; any communication given to unit holders by the plan sponsor; any other plan fiduciary or John Hancock that is designed to induce or influence unit holders not to invest in the fund or to transfer assets out of the fund; and any transfer of assets from the fund directly to a competing investment option. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The fair value of the stable value fund at December 31, 2012 was \$141,358. The average yield earned by the Plan for the stable value fund for the year ended December 31, 2012 is 2.62 percent. The actual interest rate credited to participants for the year ended December 31, 2012 is 1.65 percent for Class one units, and 1.80 percent for Class two units.

NOTE 6 - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company (U.S.A.). John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. All other transactions which may be considered parties-in-interest transactions relate to normal Plan management and administrative services, and the related payment of fees.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in the employer contribution portion of their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in any manner permitted by the Plan, as soon as practicable.

NOTE 8 - INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated May 11, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2012. Accordingly, John Hancock Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of the following investment information reported in the accompanying statements of net assets available for benefits as of December 31, 2012 and the supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2012, and the related investment activity reported in the statement of changes in net assets available for benefits for the year ended December 31, 2012:

Investments held and certified by John Hancock Life Insurance Company:

John Hancock Pooled Separate Accounts	\$ 16,829,491
John Hancock Stable Value Fund at Contract Vaule	136,304

Investment income certified by John Hancock Life Insurance Company:

John Hancock Pooled Separate Accounts	\$ 1,828,893
---------------------------------------	--------------

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
