NOTE A - DESCRIPTION OF PLAN

The following description of the Friendly Chevrolet Co., 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1995 to provide retirement benefits for employees of Friendly Chevrolet, LLP (the "Company"). Employees who are age 21 or older are eligible to become participants in the Plan following 6 months of service, as defined in the plan document. Sentry Life Insurance Company ("Sentry") serves as custodian of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute compensation, as defined in the plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company may, at its discretion, contribute a varying amount, on behalf of all employees that qualify as Plan participants (discretionary contributions). For the year ended December 31, 2012, the Company made a discretionary contribution of $18,098. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, an allocation of the Plan's earnings (losses) and charged with allocations of benefit payments, transaction fees related to notes receivable from participants, distributions, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

As of December 31, 2012, forfeited non-vested accounts totaled $901. These accounts will be used to reduce employer contributions or pay Plan expenses. As of December 31, 2011, there were no forfeited non-vested accounts. During 2012, no forfeitures were used to pay Plan expenses.

NOTE A - DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their elective deferrals plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after 6 years of service.

Investment Options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a guaranteed interest account as investment options for participants.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. Hardships distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59 1/2 years.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2012, outstanding loans bore interest rates ranging from 4.25% to 9.25%. Principal and interest is paid ratably through payroll deductions.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussion of fair value measurements.

In accordance with GAAP, guaranteed interest accounts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits generally present the fair value of guaranteed interest accounts as well as the adjustment from fair value to contract value when there is a material adjustment between the two. At December 31, 2012 and 2011, there was no material difference between fair value and contract value; therefore, no adjustment is reflected in the statements of net assets available for benefits.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded upon distribution.

NOTE B - SUMMARY OF ACCOUNTING POLICIES (Continued)

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Company has evaluated the effects subsequent events would have on the financial statements through October 11, 2013, which is the date the financial statements were available to be issued.

NOTE C - TAX STATUS

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the Internal Revenue Code ("IRC"). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the custodian by a letter dated March 31, 2008 that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE D - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE E - UNAUDITED INVESTMENT INFORMATION CERTIFIED BY CUSTODIAN

The accompanying financial statements include the following unaudited information as of December 31, 2012 and 2011 and for the year ended December 31, 2012 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian.

	2012	2011
Investments	$ 1,380,614	$ 1,138,657
Notes receivable from participants	$ 55,193	$ 32,794
Net appreciation in fair value of investments	$ 137,550	
Interest income	$ 2,529	
Interest income on notes receivable from participants	$ 2,464	

The certification mentioned above includes all investment information discussed in Notes F and J.

NOTE F - INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets:

	2012	2011
Pooled Separate Accounts:		
2015 Target Retirement Account	$ 436,521	$ 432,784
2025 Target Retirement Account	481,475	385,444
2035 Target Retirement Account	128,244	105,006
2045 Target Retirement Account	89,215	*
Guaranteed Interest Account	*	67,538

* Less than 5% of Plan assets

During 2012, the Plan's investments appreciated in value by $137,550.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H - EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held during 2012 are shares of pooled separate accounts and a guaranteed interest account managed by Sentry. Sentry is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return on each fund. Fees in the amount of $4,106 were paid to Sentry by the Plan for administrative services during 2012.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2012	2011
Net assets available for benefits per financial statement	$ 1,455,624	$ 1,206,728
Employer contribution receivable	(18,098)	(27,598)
Employee contribution receivable	(1,719)	(7,679)
Net assets available for benefits per Form 5500	$ 1,435,807	$ 1,171,451

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2012:

Net increase in assets available for benefits per financial statement	$ 248,896
Employer contribution receivable, prior year	27,598
Employer contribution receivable, current year	(18,098)
Employee contribution receivable, prior year	7,679
Employee contribution receivable, current year	(1,719)
Net increase in assets available for benefits per Form 5500	$ 264,356

NOTE J - FAIR VALUE MEASUREMENTS

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts

These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the accounts. The NAV is based on the value of the underlying assets owned by the account, minus its liabilities, and then divided by the number of units outstanding. Certain pooled separate accounts are classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Guaranteed Interest Account

The guaranteed interest account is reported at contract value, which approximates fair value. The value represents contributions to the account plus interest less any withdrawals for benefit payments and expenses. The value is based on unobservable inputs, such as interest rates and the expected maturity date of the accounts; therefore, the contract is classified within level 3 of the valuation hierarchy. Disclosure of unobservable inputs to fair value measurements has not been included for this account because quantitative unobservable inputs are not developed by the Plan when measuring fair value and have not been made available to the Plan by the insurance company.

NOTE J - FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts				
Fixed Income (a)	$ -	$ 10,119	$ -	$ 10,119
Growth (b)	-	115,400	-	115,400
Index (c)	-	36,922	-	36,922
Target Retirement (d)	-	1,155,759	-	1,155,759
Guaranteed interest account (Note K)	-	-	62,414	62,414
	$ -	$ 1,318,200	$ 62,414	$ 1,380,614

	Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts				
Fixed Income (a)	$ -	$ 7,606	$ -	$ 7,606
Growth (b)	-	66,185	-	66,185
Index (c)	-	25,313	-	25,313
Target Retirement (d)	-	972,015	-	972,015
Guaranteed interest account (Note K)	-	-	67,538	67,538
	$ -	1,071,119	$ 67,538	$ 1,138,657

(a) These investments are invested in a mix of fixed income securities to reflect the broad fixed income market. Pooled separate accounts can be redeemed on a daily basis. No redemption notice period is required. There are no unfunded commitments.

(b) Growth fund strategies seek to invest in instruments that have strong long-term growth potential. Pooled separate accounts can be redeemed on a daily basis. No redemption notice period is required. There are no unfunded commitments.

NOTE J - FAIR VALUE MEASUREMENTS (Continued)

(c) Index fund strategies seek to replicate the movement of an index of a specific financial market, such as the Standard & Poor's (S&P) 500 Index, regardless of market conditions. Pooled separate accounts can be redeemed on a daily basis. No redemption notice period is required. There are no unfunded commitments.

(d) This category includes investments in diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances and contain a mix of common stocks, bonds and cash. Pooled separate accounts can be redeemed on a daily basis. No redemption notice period is required. There are no unfunded commitments.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

	Guaranteed Interest Account
Balance, beginning of year	$ 67,538
Interest credited	2,529
Purchases	108,836
Sales	(116,489)
Balance, end of year	$ 62,414

Unrealized gains from the guaranteed interest account are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

NOTE K - GUARANTEED INTEREST ACCOUNT

The Plan has a fully benefit-responsive guaranteed interest account with Sentry. This account is backed by assets held in the general account of Sentry. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note B, because the guaranteed interest account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the account. Contract value, as reported to the Plan by Sentry, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. At December 31, 2012 and 2011, contract value approximates fair value.

NOTE K - GUARANTEED INTEREST ACCOUNT (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed interest account does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed at least annually for resetting. The average yields earned by the guaranteed interest account are as follows:

	2012	2011
Average yields:		
Based on actual earnings	3.35%	3.50%
Based on interest rate credited to participants	3.35%	3.50%

NOTE L - NON-EXEMPT PARTY-IN-INTEREST TRANSACTIONS

During the 2012 and 2011 Plan years, there were unintentional delays by the Company in submitting participant contributions in the amount of $14,264 and $16,764, respectively, to the Plan. These delinquent contributions constitute prohibited transactions. The late deposits were remitted to the Plan during the 2012 and 2011 Plan years and in January 2013. No interest has been remitted to the Plan.
