NOTE A - DESCRIPTION OF THE PLAN

The following description of the Gold Star Foods 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

Effective December 1, 1995, the Plan was established for the benefit of all eligible employees of Gold Star Foods, Inc. and Gold Star Food Service, Inc. (collectively, the "Employer"). The Plan is a contributory profit sharing plan under Section 401(a) and 401(k) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In 2012, the Plan entered into a new agreement with State Street Bank and Trust Company ("State Street") to change investment platforms from the ADP direct platform, with no financial advisor, to the Morgan Stanley platform, with a financial advisor. As a result, assets totaling $4,149,074 were converted to the new platform in April 2012.

2. Eligibility

An employee is eligible to participate in the Plan on the first day of the month following completion of three months of service and attainment of age 18. Employees covered under a collective bargaining agreement and non-resident aliens are not eligible to participate in the Plan.

3. Contributions

Participants may elect to contribute, on a tax-deferred basis, from 1% to 65% of their compensation up to the maximum deferral limit per Section 402(g)(1) of the IRC. In addition, the Employer makes matching contributions equal to 25% on the first 65% of the participant's deferred compensation. Participants who attained age 50 before the end of the plan year were eligible to make catch-up contributions. The maximum catch-up contribution was $5,500 for the year ended December 31, 2012. Employer matching contributions for the year ended December 31, 2012 were $57,035 (net of $23,038 of applied forfeitures).

Effective June 1, 2012, the Plan was amended to allow for auto-enrollment, which automatically enrolls newly eligible employees into the plan at a 3% deferral rate, unless a different amount is elected by the participant.

Employer non-elective contributions, qualified non-elective contributions, and qualified matching contributions are discretionary (subject to determination on an annual basis by the Board of Directors of the Employer). There were no Employer non-elective, qualified non-elective, or qualified matching contributions for the year ended December 31, 2012.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

4. Investment Options

Upon enrollment in the Plan, a participant may direct employee and Employer contributions as desired, in any of a variety of options held by State Street, as chosen by the Employer. Participants may change their investment options daily.

5. Participant Accounts

Each participant's account is credited with the participant's contribution, Employer contributions, and Plan earnings. Employer non-elective contributions are allocated based on the same ratio each participant's compensation bears to the compensation for all participants. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

6. Notes Receivable from Participants

Participants may borrow a minimum of $500 up to a maximum of 50% of their vested account balance not to exceed $50,000 less any outstanding loan balances. The loans shall bear reasonable rates of interest and must be repaid within five years of the date of issuance in accordance with terms established by the plan administrator. Loans for the purchase of a principal residence may be paid back over a reasonable period of time, not to exceed 30 years. Up to three loans may be outstanding at any time with certain restrictions.

7. Benefit Payments

Upon termination of service, participants are entitled to receive their vested account balances. Upon normal retirement age, permanent disability, or in the event of death a participant or a participant's beneficiary is entitled to the total value of the participant's account balance.

8. Forfeitures

Forfeitures of terminated participants' non-vested accounts may be used to reduce Employer contributions, or to pay plan expenses. The unallocated forfeiture balances at December 31, 2012 and 2011 were $1,621 and $22,841, respectively.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

9. Vesting

Participant contributions, Employer qualified non-elective contributions, and Employer qualified matching contributions and actual earnings on all such contributions are fully vested at all times. However, vesting of the Employer matching and Employer non-elective contribution portions of participant accounts, plus actual earnings thereon, is based upon the participant's years of service with the Employer as follows:

Years of Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

10. Plan Termination

While the Employer has not expressed any intent to do so, the Employer reserves the right to terminate the Plan at any time. Upon termination, all interests of participants become fully vested, and the assets are distributed among the participants of the Plan in accordance with the provisions of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (IFRS). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, to converge the fair value measurement guidance in GAAP and IFRS. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management adopted the provisions of ASU 2011-04 effective January 1, 2012, see Note D.

3. Plan Administration

The Employer is the plan sponsor and plan administrator. The plan administrator is responsible for carrying out the duties imposed under ERISA.

4. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

5. Payment of Benefits

Benefits are recorded when paid.

6. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

7. Administrative Expenses

Administrative expenses incurred by the trustee in the performance of its duties are paid from the assets of the Plan. Investment related expenses are included in net appreciation of fair value of investments. All other out-of-pocket administrative expenses of the Plan are paid by the plan sponsor.

8. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

9. Subsequent Events

Plan management has evaluated subsequent events through October 11, 2013, the date the financial statements were available to be issued.

NOTE C - INVESTMENTS AND CERTIFICATION BY TRUSTEE

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by State Street, the trustee, as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

Total investments and notes receivable from participants held and certified by State Street in the accompanying statements of net assets available for benefits were $4,064,173 and $3,835,910 as of December 31, 2012 and 2011, respectively. Net investment income and interest income on notes receivable certified by State Street in the accompanying Statement of Changes in Net Assets Available for Benefits were $438,089 for the year ended December 31, 2012.

NOTE D - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Common collective trusts: The trustee receives the NAV for the common/collective trusts (CCTs) directly from the trustee of the CCTs. The fair value of the Plan's interest in the CCT is based on the underlying unit value reported by the CCTs. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments, or significant restrictions on redemptions (see Note E).

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

[(2)] Growth oriented portfolios that generally seek a balance of growth of capital and income and long term growth.

[(3)] Growth oriented portfolio that seeks to provide returns that correspond to the total return of U.S. common stocks as represented by the S & P 400 and 500 Index.

[(4)] Aggressive oriented portfolio that seeks a superior return with income as a secondary objective.

NOTE E - STABLE VALUE FUND

The Invesco Stable Asset Fund ("Invesco") is a fully benefit-responsive investment contract which is reported at fair value and adjusted to contract value. Invesco's primary investment objectives are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

Invesco holds synthetic guaranteed investment contracts ("synthetic GICs"), which are portfolios of debt securities or units of collective trusts with wrap contracts associated with the portfolios. Short-term securities are stated at amortized cost (which approximates market value) if maturity is 60 days or less at the time of purchase, or at market value if maturity is greater than 60 days. Investments in units of affiliated and unaffiliated collective trusts are valued at the respective net asset values as reported by such trusts. Debt securities are valued on the basis of valuations provided by an independent pricing service approved by the Invesco National Trust Company. If valuations are not available from such pricing services, valuations are obtained from dealers making a market for such securities.

The fair value of the wrap contracts is determined by Invesco National Trust Company based on the change in the present value of the contract's replacement cost. Investment contracts have elements of risk due to lack of a secondary market and resale restrictions resulting in the inability of Invesco National Trust Company to sell a contract. In addition, investment contracts may be subject to credit risk based on the ability of the wrapper providers to meet their obligations under the terms of the contract.

Participant units are issued and redeemed only at the end of each day and at the net unit value at contract value.

At December 31, 2012 and 2011, Invesco's average yield based on actual income was .91% and 1.29%, respectively, and the average yield based on interest rates credited to participants was 1.62% and 1.72%, respectively.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

State Street is the trustee of the Plan. All investments are held with the trustee. These transactions qualify as party-in-interest transactions. Notes receivable from participants of the Plan and the related interest income are also considered party-in-interest transactions.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE H - TAX STATUS

The Employer adopted a Prototype Non-Standardized 401(k) and Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC. Administration errors, if any, that are insignificant or operational in nature are handled by the plan administrator in accordance with applicable IRS correction policies. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2009.
