Senox Corporation 401(k) Profit Sharing Plan and Trust

Summary of Significant Accounting Policies

Description of Plan

The following brief description of the Senox Corporation 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and effective on January 1, 1998. All employees of Senox Corporation (the "Company") are eligible to participate in the Plan. The Plan provides for a qualified cash or deferred arrangement described in Section 401(k) of the Internal Revenue Code (the "Code"). Principal Financial Group is the administrator and custodian of the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Investments and Investment Options

The Company selects and makes available as investment options various pooled separate accounts and guaranteed investment contracts. The contributions related to these accounts are invested in accordance with directives from the individual participants in shares in these investment options available through the administrator as approved by the trustee.

The Plan provides for investments in numerous investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

Contributions

Participants may contribute a percentage of their annual compensation, up to 100%, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. Participants may also rollover amounts representing distributions from other qualified plans.

The Company may make a matching contribution to all employees as a percentage of the employee's deferral compensation, as defined, subject to the limits provided by the Code. The Company may also elect to make a profit sharing contribution with allocation based on the participant's compensation, as defined.

Senox Corporation 401(k) Profit Sharing Plan and Trust

Summary of Significant Accounting Policies

For the years ended December 31, 2012 and 2011, the Company elected to contribute a matching contribution to all employees at an amount equal to 50% of the participant's elective deferral not to exceed 4% of the participant's compensation. The Plan will determine the Employer Profit Sharing Contribution, if any, according to a discretionary formula in an amount determined each year by the managing body of the Employer and will be allocated to each Qualifying Participant's Individual Account. The Company did not declare any profit-sharing contributions during the years ended December 31, 2012 and 2011.

Participant Accounts
Each participant's account is credited with the participant's deferral contribution, the Company's matching and profit sharing contributions, and earnings of the participant's individual account. The benefit to which each participant is entitled is the benefit that can be provided from the participant's account.

Employees become eligible to participate in the contribution portion of the Plan, receive matching contributions, and profit sharing contributions after attainment of age 21 and on the first day of the month following the completion of three months of service. One thousand hours of service shall be required to constitute a year of eligibility service. Employees may stop their plan contributions at any time.

Vesting
Participants are immediately 100% vested in their deferral contributions. The Company's matching and profit sharing contribution becomes vested based on the participant's number of years of service with the Company according to the following schedule: 2 years – 20% vested; 3 years – 40% vested; 4 years – 60% vested; 5 years – 80% vested, and 6 years or more – 100% vested. One thousand hours of service must be completed to be credited with a year of vesting.

Forfeitures
Forfeitures are used to offset the next employer contribution made and are not held for discretionary contributions or plan expenses.

Senox Corporation 401(k) Profit Sharing Plan and Trust

Summary of Significant Accounting Policies

Notes Receivable from Participants
Participants may borrow from their deferral contributions fund account from a minimum of $1,000 to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loans must be repaid within five years unless used for the purchase of a primary residence. Loans are secured by the vested balance of the participant's account and bear interest at U.S. Government Prime Rate plus 1% that is in effect on the date of the loan application and set for the life of the loan. Interest rates were 5.25% as of December 31, 2012. Principal and interest are paid rateably through bi-weekly payroll deductions.

Benefit Payments
The Plan provides for distributions to participants upon termination of employment before the normal retirement age, disability, or upon reaching the normal retirement age but continue to work. Participants can request a distribution from the Plan of their vested interest in the Plan upon attainment of age 59 ½, even if they continue to work. Participant's will receive their benefits as either a lump-sum amount, installment payments, or annuity contracts under various options equal to the value of the participant's vested interest.

Administrative Expenses
Administrative costs and expenses, including trustee, legal, loan administration, and accounting fees are paid out of the Plan unless paid directly by the Company.

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,		**2012**		2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

2. Investments

The following investments represent 5% or more of net assets available for benefits:

December 31,		**2012**		2011
Principal Financial Group:				
Lifetime Strategic Income	**$**	**267,682**	$	260,401

Bond and Mortgage		**122,664**		94,251
Small Cap S&P 600		*****		70,422

* Less than 5%

3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

4. Fair Value Measurements

The Plan follows the provisions of FASB ASC 820, *Fair Value Measurements*, which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements), and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed Investment contract: Contract value adjusted for current market rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value:

December 31, 2012	**Level 1**	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	**$ -**	**$ 1,604,155**	**$ -**	**$ 1,604,155**
Guaranteed investment contract	**-**	**-**	**32,617**	**32,617**
	$ -	**$ 1,604,155**	**$ 32,617**	**$ 1,636,772**

December 31, 2011	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 1,312,086	$ -	$ 1,312,086
Guaranteed investment contract	-	-	51,866	51,866
	$ -	$ 1,312,086	$ 51,866	$ 1,363,952

The following table sets forth a summary of changes in the fair value of the plan's level 3 assets:

Year ended December 31, 2012		**Guaranteed Investment Contract**
Balance, beginning of year	**$**	**51,866**

5. Tax Status

The underlying standardized prototype profit sharing plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2005-6, the Company has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

6. Benefit Payments

As of December 31, 2012, there were no benefit payment requests that were not processed at the end of the period and were distributed in the subsequent period.

7. Forfeitures

There were $6,983 and $4,045 in employer matching forfeitures during 2012 and 2011, respectively. These forfeitures were used to reduce employer contributions.

8. Related Party Transactions

Certain plan investments are shares of pooled separate accounts managed by Principal Financial Group. Principal Financial Group is the custodian and financial advisor of the plan and therefore these transactions qualify as party-in-interest.

9. Risks and Uncertainties

The Plan provides for investments in numerous investment securities, which in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

There were no differences noted between the financial statements and the Form 5500 at December 31, 2012.

11. Subsequent Events

The Plan has evaluated subsequent events occurring after December 31, 2012, the date of the most recent statement of net assets available for benefits date, through October 11, 2013, the date the financial statements were issued. The Plan does not believe any subsequent events have occurred that would require further disclosure or adjustment to the financial statements.

Independence Communication 10

Status of Our Audit

We have substantially completed our audit of the financial statements, including procedures applied to the supplemental schedule of the Plan as of and for the year ended December 31, 2012. Our audit was conducted in accordance with auditing standards generally accepted in the United States of America. This audit of the financial statements does not relieve Plan management or those charged with governance of their responsibilities. The term "those charged with governance" encompasses the term Board of Directors or Audit Committee or other formally designated body that has financial oversight responsibilities.

- The scope of the work performed was substantially the same as that described to you in our earlier Audit Planning communications.
- As permitted by Regulation 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and as instructed by you, we have not performed auditing procedures with respect to information prepared and certified to by Principal Life Insurance Company, the custodian of the Plan, other than comparing that information with the related information included in the financial statements and supplemental schedule. Because of the significance of the information that we did not audit, we did not express an opinion on the financial statements and supplemental schedule taken as a whole. As such, the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified to by Principal Life Insurance Company, was audited by us in accordance with auditing standards generally accepted in the United States of America, and was subjected to tests of your accounting records and other procedures as we considered necessary to enable us to express an opinion as to whether they are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- Our responsibility for other information in documents containing the Plan's audited financial statements (e.g., Form 5500 filed with the DOL) does not extend beyond the financial information identified in the audit report, and we are not required to perform procedures to corroborate such other information. However, in accordance with professional standards, we have read the information included by the Plan in the Form 5500 and considered whether such information, or the manner of its presentation, was materially consistent with its presentation in the Plan financial statements. Our responsibility also includes calling to Plan management's attention any information that we believe is a material misstatement of fact. We have not identified any material inconsistencies or concluded there are any material misstatements of facts in the other information that Plan management has chosen not to correct.
- All records and information requested by Calhoun, Thomson + Matza, LLP ("CTM") were freely available for our inspection.
- Plan management's cooperation was excellent. We received full access to all information that we requested while performing our audit, and we acknowledge the full cooperation extended to us by all levels of Plan personnel throughout the course of our work.

Results of Our Audit

ACCOUNTING PRACTICES, POLICIES, ESTIMATES

The following summarizes the more significant required communications related to our audit concerning the Plan's accounting practices, policies, and estimates:

The Plan's significant accounting practices and policies are those included in the Summary of Significant Accounting Policies in the financial statements. These accounting practices and policies are appropriate, comply with generally accepted accounting principles and industry practice, were consistently applied, and are adequately described within the Summary of significant Accounting Policies in the financial statements.

Significant estimates are those that require Plan management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. The Plan's significant accounting estimates, including a description of management's processes and significant assumptions used in development of the estimates, are disclosed in the notes to the financial statements.

Results of Our Audit

CORRECTED AND UNCORRECTED MISSTATEMENTS

There were no corrected misstatements, other than those that were clearly trivial, related to accounts and/or disclosures that we brought to the attention of Plan management that might not have been detected except through the audit procedures performed.

There were no uncorrected misstatements, other than those that were clearly trivial, related to accounts and/or disclosures that we presented to Plan management.

QUALITY OF THE PLAN'S FINANCIAL REPORTING

A discussion was held regarding the quality of the Plan's financial reporting, which included the following:

- Qualitative aspects of significant accounting policies and practices
- Our conclusions regarding significant accounting estimates
- Significant unusual transactions
- Financial statement presentation
- New accounting pronouncements
- Alternative accounting treatments

Internal Control Over Financial Reporting

In planning and performing our audit procedures on the information included in the financial statements, including procedures applied to the supplemental schedules, other than that derived from the information certified to by Principal Life Insurance Company, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described above and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses.

We are required to communicate, in writing, to those charged with governance all material weaknesses and significant deficiencies that have been identified in the Plan's internal controls over financial reporting. The definitions of control deficiency, significant deficiency and material weakness follow:

Category	Definition
Deficiency in Internal Control	A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.
Significant Deficiency	A deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.
Material Weakness	A deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis.

Internal Control Over Financial Reporting

In conjunction with our audit of the Plan financial statements, we noted no material weaknesses.

- We have communicated to Plan management control deficiencies and provided suggestions for improvement of those deficiencies that were identified as a result of our audit that we did not consider to be material weaknesses or significant deficiencies.

Control Deficiency	Comments
Fidelity Bond Coverage	**CTM noted the Plan's fidelity bond coverage as of January 1, 2013 was below DOL regulations.** **According to DOL regulation 2580.412-11, "the fidelity bond shall not be less than 10 percent of the amount of funds handled and must be fixed at the beginning of each year which constitutes the reporting year of the plan. For purposes of fixing the amount of such bond, the amount of funds handled shall be determined by the funds handled…during the preceding reporting year."** **The current bond was purchased in 2011 for coverage through August 2014. As of January 1, 2012, the fixed $150K limit of liability was sufficient to cover the $1.37M in plan assets as of the end of plan year 2011. However, as of December 31, 2012, the Plan's net assets increased to approximately $1.7M.** **Therefore, beginning on January 1, 2013, the bond coverage fell below regulation guidelines. CTM recommends that management contact their insurance broker to increase the amount of the coverage of the fidelity bond up to 10% of plan assets.**
