401(K) PROFIT SHARING PLAN
GALENA, ILLINOIS

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

Note 1 - Description of the Plan:

The following brief description of the Signcraft Screenprint, Inc. ("Company") 401(K) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering substantially all, full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to 15% of annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions (rollovers) from other qualified benefit or contribution plans. For 2012 and 2011, the Company contributed 50% of the first 4% of compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. For the Plan years ended 2012 and 2011, no additional contributions were authorized by the Company's board of directors.

Participant Accounts. Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their individual plan accumulations into various options offered by the Plan.

Vesting. Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Notes Receivable. Participants may borrow from their employee deferral fund accounts in the minimum of $1,000 and up to a maximum of 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 2%. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts. At December 31, 2012 and 2011 forfeited nonvested accounts totaled $24 and $385, respectively. These accounts will be used to reduce future employer contributions.

Note 1 - Description of the Plan: (Continued)

Payment of Benefits. On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting. The financial statements of the Plan are prepared under the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a common trust fund. The statement of net assets available for benefits includes an adjustment in the common trust fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable. Loans to participants are reported at their unpaid principal balances.

Payment of Benefits. Benefits are recorded when paid.

Note 3 - Information Certified by American Trust & Savings Bank:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustee to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of investments in this plan that were certified by American Trust & Savings Bank as of December 31, 2012 and 2011.

Note 4 - Fair Value Measurements:

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consists of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011.

	2012	2011
Level 1 Assets:		
Mutual Funds	$ 2,924,569	$ 2,499,942
Level 2 Assets:		
Common Trust Funds	$ 2,627,377	$ 2,361,879
Level 3 Assets:		
None	$ ---	$ ---

Level 1 Fair Value Measurements

The fair values of mutual funds are based on the closing price reported in the active market where the funds are traded.

Level 2 Fair Value Measurements

Common trust funds are valued at net asset per share as provided by the Plan's trustee. Net asset value is based on fair market value of the underlying assets of the common trust funds using quoted market prices.

Note 5 - Fair Value of Investment in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent):

The following table sets forth additional disclosures of Plan investments whose fair value is estimated using net asset value per share (or its equivalent) as of December 31, 2012 and 2011:

(a) This category includes large cap core equity funds. The stock selection process relies heavily on fundamental analysis with emphasis on relative value and return on invested capital. The portfolio seeks growth expectations greater than the broad large cap universe at valuations that are lower than the broad market. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

Note 5 - Fair Value of Investment in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent): (Continued)

(b) This category includes common stocks with portfolio designed to have a weighted average market cap between $3 - $8 billion. It seeks to create a portfolio with growth expectations greater than the S&P 400 Index at valuations lower than the mid cap core. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(c) This category includes U.S. government, U.S. agencies and investment grade corporate bonds with portfolio designed to maintain an average quality rating of at least AA while maintaining a dollar weighted average maturity of two to six years. Investments in this category can be redeemed immediately at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the investments.

(d) This category includes a stable value collective fund whose objective is to protect principal while providing a higher rate of return than short-term investments, such as money market funds. The fund invests in a stable value trust fund and money market funds. Investments in this category can be redeemed daily at the current net asset value per share based on the fair value of the underlying assets. The fair value of investments in this category has been estimated using the net asset value per share of the underlying investments. The fund could be limited in its ability to transact at contract value with the issuer if the fund raises its risk profile or is subjected to an extended period of significant cash outflow. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7 - Tax Status:

The Company Plan is a prototype nonstandardized profit sharing plan adopted January 15, 1999, and last amended December 29, 2006. The prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan's administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

The Plan's 2009 through 2011 tax return filings are open for IRS examination.

Note 8 - Related Party Transactions:

Certain plan investments are shares of mutual funds managed by American Trust & Savings Bank. American Trust & Savings Bank also provides all servicing functions for the Plan and, therefore, those transactions qualify as related party transactions. The amounts invested with American Trust & Savings Bank at December 31, 2012 and 2011, are listed on the attached Schedule 1. Fees paid by the Plan for investment management services amounted to $55,622 for 2012 and $53,176 for 2011.

Note 9 - Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 - Subsequent Events:

Subsequent events have been evaluated by management through October 8, 2013, which is the date the financial statements were available to be issued.
