Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pension Plan for Employees of Butter Krust Baking Company, Inc. (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 5 and 7, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. and The Northern Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that The Bank of New York Mellon/BNY Mellon, N.A. held the Plan's investment assets and executed investment transactions as of and for the years ended December 31, 2012 and 2011 and that The Northern Trust Company held the Plan's investment assets and executed investment transactions as of and for the year ended December 31, 2011.

The plan administrator has obtained certifications from the trustees as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The actuarial value of asset is the average of the market value of assets on the valuation date and one calendar month prior, adjusted for contributions, benefits, administrative expense and expected earnings. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Mercer Outsourcing provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: January 1, 1969 Restated plan: January 1, 2010 Plan year: Calendar Year
Status of the plan	Effective December 31, 2004, the plan is closed to new participants. Benefit accruals are also frozen as of December 31, 2004.
Significant events that occurred during the year	None

Definitions

• Participation	An employee enters the plan on the January 1 immediately before the date he completes 1,000 hours of service. The plan was closed to new participants after December 31, 2004.
• Year of participation	A participant earns one year of participation for each plan year during which a participant has 1,000 hours of service as a participant. Years of participation were frozen December 31, 2004.
• Compensation	Amount paid by the Employer to a participant in the form of wages or salary, including overtime payments. Also includes any amounts that were excluded from a participant's taxable income by reason of elective deferrals under Internal Revenue Code Section 401(k). Compensation shall not exceed the limit on Compensation defined in Internal Revenue Code Section 401(a)(17).

Normal retirement

• Eligibility	A participant is eligible for normal retirement on or after the attainment of age 65
• Benefit	The monthly accrued benefit is the greater of: <ul style="list-style-type: none"> – 1/12 of 0.65% of compensation for each year of participation; or – \$25.00 multiplied by years of participation.

Early retirement

• Eligibility	A participant is eligible for early retirement on or after the attainment of age 55 and 15 years of vesting service
• Benefit	The monthly accrued benefit calculated with years of participation at early retirement date, actuarially reduced for commencement prior to normal retirement date. If the participant has attained age 62 and 30 years of vesting service, no reduction is made.

Deferred retirement

• Eligibility	The monthly accrued benefit calculated with current years of service and compensation in effect at late retirement.
---------------	---

Vested pension

• Eligibility	A participant is eligible for a vested pension after completion of five years of vesting service.
• Benefit	The monthly accrued benefit calculated with years of participation at termination date, payable beginning at normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

Disability retirement	
• Eligibility	A participant is eligible for disability retirement if he, in the judgment of the committee, incurs a physical injury that will render the participant incapable of continuing to perform the normal activities of employment and that is likely to continue for the participant's lifetime or indefinitely.
• Benefit	The monthly accrued benefit calculated with years of participation at disability retirement date payable immediately without reduction for early commencement.
Pre-retirement spouse's pension	
• Eligibility	A participant's spouse is eligible for pension benefits if the participant had attained the right to a vested pension and died before any payments commenced.
• Benefit	The greater of: <ul style="list-style-type: none"> – A 10-year certain annuity equal to the accrued benefit reduced for early commencement or – The amount that would be payable if the participant terminated on the date of death, elected payment at the earliest eligibility for early retirement in the form of a 50% contingent annuity, and died prior to the first payment.
Form of benefits	
• Automatic form for unmarried participants	Single life annuity
• Automatic form for married participants	50% contingent annuity
• Optional forms	Optional forms of payment may be taken on an actuarially reduced basis if the participant elects out of the normal form. This includes: <ul style="list-style-type: none"> • 50% contingent annuity • 75% contingent annuity • 100% contingent annuity • 10 year certain and life annuity • Single life annuity (for married participants)

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #9, are included in this valuation.

- **Most recent plan amendments included:** Amendment #9 as of October 21, 2010 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None

Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:**
 - *Active participants:* Benefits are frozen and no late retirement adjustments are made. Suspension of benefit notices are sent to all participants. Not increase for participants over 70 since this is a very small population.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase. The benefit is valued from the later of age 65 or date of termination.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2011 to 2012.

Schedule SB, line 24 — Change in Actuarial Assumptions

- We updated the inflation assumption from 3.00% per year to 2.75% per year.
- The expense component of normal cost increased to \$64,000 to reflect our expectations for the current plan year.
- The disability incidence table was updated – the sample rates are shown below:

Schedule SB, line 25 — Change in method**Method Changes Since Prior Valuation**

This is the first year that Mercer has performed the actuarial valuation for this plan. Last year's valuation was done by Towers Watson. This change qualifies for automatic IRS approval. This plan was converted from the Towers Watson valuation system to the Mercer valuation system for the 2012 plan year, resulting in a change in funding method for 2012. This change in valuation software satisfies the requirements of Announcement 2010-3 for automatic IRS approval for changes in funding method.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding*****Asset Methods***

The actuarial value of asset is the average of the market value of assets on the valuation date and one calendar month prior, adjusted for contributions, benefits, administrative expense and expected earnings. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Mercer Outsourcing provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

- We updated the inflation assumption from 3.00% per year to 2.75% per year.
- The expense component of normal cost increased to \$64,000 to reflect our expectations for the current plan year.
- The disability incidence table was updated – the sample rates are shown below:

Schedule SB, line 25 — Change in method**Method Changes Since Prior Valuation**

This is the first year that Mercer has performed the actuarial valuation for this plan. Last year's valuation was done by Towers Watson. This change qualifies for automatic IRS approval. This plan was converted from the Towers Watson valuation system to the Mercer valuation system for the 2012 plan year, resulting in a change in funding method for 2012. This change in valuation software satisfies the requirements of Announcement 2010-3 for automatic IRS approval for changes in funding method.

Schedule SB, Part V — Summary of Plan Provisions**Summary of Major Plan Provisions**

Effective date and plan year	Original plan: January 1, 1969 Restated plan: January 1, 2010 Plan year: Calendar Year
Status of the plan	Effective December 31, 2004, the plan is closed to new participants. Benefit accruals are also frozen as of December 31, 2004.
Significant events that occurred during the year	None

Definitions

• Participation	An employee enters the plan on the January 1 immediately before the date he completes 1,000 hours of service. The plan was closed to new participants after December 31, 2004.
• Year of participation	A participant earns one year of participation for each plan year during which a participant has 1,000 hours of service as a participant. Years of participation were frozen December 31, 2004.
• Compensation	Amount paid by the Employer to a participant in the form of wages or salary, including overtime payments. Also includes any amounts that were excluded from a participant's taxable income by reason of elective deferrals under Internal Revenue Code Section 401(k). Compensation shall not exceed the limit on Compensation defined in Internal Revenue Code Section 401(a)(17).

Normal retirement

• Eligibility	A participant is eligible for normal retirement on or after the attainment of age 65
• Benefit	The monthly accrued benefit is the greater of: <ul style="list-style-type: none"> – 1/12 of 0.65% of compensation for each year of participation; or – \$25.00 multiplied by years of participation.

Early retirement

• Eligibility	A participant is eligible for early retirement on or after the attainment of age 55 and 15 years of vesting service
• Benefit	The monthly accrued benefit calculated with years of participation at early retirement date, actuarially reduced for commencement prior to normal retirement date. If the participant has attained age 62 and 30 years of vesting service, no reduction is made.

Deferred retirement

• Eligibility	The monthly accrued benefit calculated with current years of service and compensation in effect at late retirement.
---------------	---

Vested pension

• Eligibility	A participant is eligible for a vested pension after completion of five years of vesting service.
• Benefit	The monthly accrued benefit calculated with years of participation at termination date, payable beginning at normal retirement date.

Schedule SB, Part V — Summary of Plan Provisions

Disability retirement	
• Eligibility	A participant is eligible for disability retirement if he, in the judgment of the committee, incurs a physical injury that will render the participant incapable of continuing to perform the normal activities of employment and that is likely to continue for the participant's lifetime or indefinitely.
• Benefit	The monthly accrued benefit calculated with years of participation at disability retirement date payable immediately without reduction for early commencement.
Pre-retirement spouse's pension	
• Eligibility	A participant's spouse is eligible for pension benefits if the participant had attained the right to a vested pension and died before any payments commenced.
• Benefit	The greater of: <ul style="list-style-type: none"> – A 10-year certain annuity equal to the accrued benefit reduced for early commencement or – The amount that would be payable if the participant terminated on the date of death, elected payment at the earliest eligibility for early retirement in the form of a 50% contingent annuity, and died prior to the first payment.
Form of benefits	
• Automatic form for unmarried participants	Single life annuity
• Automatic form for married participants	50% contingent annuity
• Optional forms	Optional forms of payment may be taken on an actuarially reduced basis if the participant elects out of the normal form. This includes: <ul style="list-style-type: none"> • 50% contingent annuity • 75% contingent annuity • 100% contingent annuity • 10 year certain and life annuity • Single life annuity (for married participants)

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #9, are included in this valuation.

- **Most recent plan amendments included:** Amendment #9 as of October 21, 2010 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None

Schedule SB, Part V — Summary of Plan Provisions

- **Late retirement increases:**
 - *Active participants:* Benefits are frozen and no late retirement adjustments are made. Suspension of benefit notices are sent to all participants. Not increase for participants over 70 since this is a very small population.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase. The benefit is valued from the later of age 65 or date of termination.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pension Plan for Employees of Butter Krust Baking Company, Inc. (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 5 and 7, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. and The Northern Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that The Bank of New York Mellon/BNY Mellon, N.A. held the Plan's investment assets and executed investment transactions as of and for the years ended December 31, 2012 and 2011 and that The Northern Trust Company held the Plan's investment assets and executed investment transactions as of and for the year ended December 31, 2011.

The plan administrator has obtained certifications from the trustees as of December 31, 2012 and 2011 and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

PENSION PLAN FOR EMPLOYEES OF BUTTER KRUST BAKING COMPANY, INC.

Notes to Financial Statements
December 31, 2012 and 2011

(1) Description of Plan

The following brief description of the Pension Plan for Employees of Butter Krust Baking Company, Inc. (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

Butter Krust Baking Company, Inc. is a wholly-owned subsidiary of Sara Lee Corporation. Pursuant to the purchase agreement of Sara Lee Corporation, sponsorship of the Plan changed to BBU, Inc. (the Company) effective November 6, 2011.

General

The Plan is a defined benefit pension plan covering substantially all employees of Butter Krust Baking Company, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan participated in the Sara Lee Corporation Master Investment Trust for Defined Benefit Plans (the SLC Investment Trust) in 2011. Assets of the SLC Investment Trust were held by The Northern Trust Company (Northern Trust). Pursuant to the sale of Sara Lee Corporation to BBU, Inc. in 2011, 95 percent of the Plan's assets were transferred to the Bimbo Bakeries USA Defined Benefit Plan Trust (BBU Master Trust) on December 2, 2011. The remaining 5 percent of the Plan's assets were subject to holdback provisions and were transferred to the BBU Master Trust in 2012. Assets of the BBU Master Trust are held by The Bank of New York Mellon/BNY Mellon, N.A.

The administration of the Plan is overseen by the Bimbo Bakeries USA Benefits Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors. The Bank of New York Mellon/BNY Mellon, N.A. (the Trustee) is responsible to safe keep and account for the trust funds and makes payments to eligible participants in accordance with the Plan.

(1) Description of Plan, Continued

Eligibility and Pension Benefits

Employees who have completed one year of eligible service are entitled to be participants in the Plan. Effective January 1, 2005, the Plan was frozen to new participants. In addition, participants will not earn any additional years of service credit after December 31, 2004.

The normal monthly retirement benefit for eligible service before January 1, 1996, is the greater of:

- The sum of (a) \$4.00 for compensation not in excess of \$6,499.99 plus an additional \$0.25 for every \$500 of compensation in excess of \$6,000 for each year from January 1, 1976 to December 31, 1995, in which the participant worked at least 1,000 hours, plus (b) \$4.00 for compensation not in excess of \$6,499.99 plus an additional \$0.25 for every \$500 of compensation in excess of \$6,000 for each year from January 1, 1969 to December 31, 1975, in which the employee was a participant, plus (c) for each year ending on or before December 31, 1968, in which no contribution was made on behalf of the participant to the Butter Krust Baking Company, Inc. Profit Sharing Trust, \$4.00 for compensation not in excess of \$6,499.99 plus \$0.25 for every \$500 of compensation in excess of \$6,000, as if compensation for such years was equal to 80 percent of compensation for the calendar year ended on December 31, 1968, or
- \$25.00 per month multiplied by years of service before January 1, 1996; offset by a monthly amount equal to a single life annuity that is the actuarial equivalent of the participant's balance in the Butter Krust Baking Company, Inc. Employees Profit Sharing Plan as of December 31, 1995.

For service after December 31, 1995, the monthly benefit is equal to the greater of \$25.00 multiplied by years of service or one-twelfth of 0.65 percent of the participant's compensation for each year of service.

Plan benefits are normally distributed in the following manner:

Married Participant - Actuarial equivalent of the life annuity paid in the form of a 50 percent joint and survivor annuity. This form provides a reduced monthly benefit for the participant's lifetime and 50 percent of such monthly benefit to participant's spouse upon participant's death.

(1) Description of Plan, Continued

Eligibility and Pension Benefits, Continued

Single Participant - Payable on the life annuity basis, which provides a monthly income for the life of the participant or a joint and survivor annuity similar to married participants.

The Plan permits early retirement at age 62 with 30 years of service, resulting in no reduced benefit payments, or at age 55 with 15 years of service, resulting in reduced benefit payments. In the case of a participant who has attained age 55 and completed 15 years of service before his or her normal retirement age, the participant's accrued benefit shall be 100 percent vested and non-forfeitable. Such participant may retire before his or her normal retirement age and receive early retirement benefits from the Plan. The early retirement benefit shall be equal to the actuarial equivalent of the vested benefit accrued as of his or her early retirement date.

In the case of a participant who has completed five years of service before his or her normal retirement age, the participant's accrued benefit shall be 100 percent vested and be non-forfeitable. Such benefit shall be payable at the participant's normal retirement age.

If a participant separates from service before satisfying the age requirement for early retirement, but has satisfied the service requirement, the participant shall be entitled to elect an early retirement benefit upon satisfaction of such age requirements.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition

The Plan's investments are in funds administered by the Trustees.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and plan trustees. See Note 6 for discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits, as determined by an actuary from Mercer for 2012 and Towers Watson for 2011, is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant assumptions underlying the actuarial computations for 2012 and 2011 are as follows:

	2012	2011
Interest rate	6.75% compounded annually	6.46% compounded annually

Actuarial Present Value of Accumulated Plan Benefits, Continued

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2012 and 2011. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated benefits is as follows at January 1:

	2012	2011
Vested benefits:		
Participants and beneficiaries currently receiving benefits	\$ 7,498,507	\$ 7,162,557
Other participants	6,937,748	7,608,457
Total actuarial present value of accumulated plan benefits	<u>\$ 14,436,255</u>	<u>\$ 14,771,014</u>

The changes in the actuarial present value of accumulated plan benefits were as follows for the years ended January 1:

	2012	2011
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 14,771,014</u>	<u>\$ 13,027,420</u>
Increase (decrease) attributable to:		
Benefits accumulated	220,457	156,494
Benefits paid	(789,687)	(750,439)
Increase for interest due to decrease in discount period	928,701	925,360
Actuarial assumptions - change in interest rate	(694,230)	1,412,179
Net change	<u>(334,759)</u>	<u>1,743,594</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 14,436,255</u>	<u>\$ 14,771,014</u>

(2) Summary of Significant Accounting Policies, Continued

Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. During 2012 and 2011, administrative expenses of \$86,825 and \$150,158, respectively, include fees paid to service providers as well as premiums paid to Pension Benefit Guarantee Corporation (PBGC).

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2013, the date the financial statements were available to be issued.

(3) Funding Policy

The funding policy of the Plan is to make the necessary contributions to meet minimum funding requirements, as determined by the Plan's independent actuary. No voluntary employee contributions are permitted. The Plan was in compliance with applicable ERISA minimum funding requirements for the years ended December 31, 2012 and 2011.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(4) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally, to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period, would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect any time during the five years preceding plan termination.
- Other vested benefits insured by PBGC (U.S. government agency) up to the applicable limitations (discussed below).
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2013, that ceiling is \$4,790 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

(5) Investments (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustees, as complete and accurate, except for comparing such information certified by the Trustees to information included in the Plan's financial statements.

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	2012	2011
Plan interest in the BBU Master Trust	\$ 19,355,533	\$ 16,613,150
Plan interest in the SLC Investment Trust	\$ -	\$ 1,525,824

The Plan's share of investment income was as follows for the years ended December 31:

	2012	2011
Plan's interest in the BBU Master Trust income	\$ 2,092,731	\$ 288,773
Plan's interest in the SLC Investment Trust income	\$ -	\$ 3,424,824

(6) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(6) Fair Value Measurements, Continued

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Plan's interest in the BBU Master Trust: See Note 7

Plan's interest in the SLC Investment Trust: See Note 7

The methods described in Note 7 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(7) Interest in the Master Trusts (Unaudited)

As described in Note 1, the Plan's investments were held in the SLC Investment Trust and the BBU Master Trust in 2011. At December 31, 2011, the Plan's interest in the SLC Investment Trust represented the holdback provision resulting from the change in plan sponsorship. The Plan's assets were transferred to the BBU Master Trust in 2012, and as of December 31, 2012, the Plan's investments were held solely by the BBU Master Trust.

The SLC Investment Trust was established for the investment of assets of the Plan and several other defined benefit plans sponsored by Sara Lee Corporation. Each participating plan has an undivided interest in the SLC Investment Trust. At December 31, 2011, the Plan's interest in the net assets of the SLC Investment Trust was less than one percent. Investment income relating to the SLC Investment Trust was allocated to the individual plans based on average balances invested by each respective plan in 2011.

The BBU Master Trust was established for the investment of assets of various defined benefit plans sponsored by BBU, Inc. Each participating plan has an undivided interest in the BBU Master Trust. Pursuant to the purchase agreement of Sara Lee Corporation, the sponsorship of multiple defined benefit pension plans of Sara Lee Corporation was transferred to BBU, Inc. effective November 6, 2011. On December 2, 2011, assets of four such defined benefit plans, amounting to approximately \$354,000,000, were transferred into the BBU Master Trust.

The value of the Plan's interest in the BBU Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2012 and 2011, the Plan's interest in the net assets of the BBU Master Trust was approximately 2 percent. Investment income and administrative expenses relating to the BBU Master Trust are allocated to the individual plans based upon average monthly balances invested in each respective plan.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustees as complete and accurate, except for comparing such information certified by the Trustees to information included in the Plan's financial statements.

Interest and dividends	10,747,087	7,172,731	48,924,091
Net investment income	\$ 95,971,098	\$ 53,201,958	\$ 330,899,621

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trusts.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate debt instruments and municipal bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Corporate stocks and registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Master Trusts are open-ended registered investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The shares of registered investment companies held by the Master Trusts are deemed to be actively traded.

(7) Interest in the Master Fund (Unaudited), Continued

Common collective trusts: Valued by the fund sponsor based on quoted market prices of the underlying investments.

Hedge fund: Valued based upon the BBU Master Trust's pro rata share of the net asset value of the underlying investments at year end. The hedge fund principally invests in private and affiliated investment funds. Redemptions of all or any portion of capital accounts are permitted quarterly with 95 days prior notice.

Partnerships: Valued based upon the BBU Master Trust's pro rata share of the estimated fair values of the underlying investment funds at year end. The partnerships invest primarily in international common stocks. Redemptions are permitted at the end of any month upon 15 days prior notice.

Real estate fund: Valued based upon the BBU Master Trust's pro rata share of JPMCB Strategic Property Fund's (JPMCB) net assets at year end. JPMCB is a commingled pension trust fund that invests primarily in real estate investments owned directly or through partnership interest and mortgage loans on income-producing real estate. Redemptions are to be paid quarterly, subject to available cash, and upon 45 day's prior written notice. Subsequent to year end, the BBU Master Trust entered into a commitment to invest an additional \$25,000,000 to JPMCB.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

In estimating fair value of the investments in level 3, the Investment Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Investment Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

(8) Tax Status

The Internal Revenue Service has determined and informed Sara Lee Corporation by a letter dated October 14, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

(8) Tax Status, Continued

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

(9) Risks and Uncertainties

The Plan, through its interests in the Master Trusts, invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(10) Related Party and Party-In-Interest Transactions

Certain assets of the Master Trusts are invested in investments managed by the Trustees. Therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transactions rules. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.
