INDEPENDENT AUDITORS' REPORT

To the Trustees of the Keller Crescent Defined Benefit
Pension Plan For Non-Union Employees
2000 Market Street - Suite 2810
Philadelphia, PA 19103

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Keller Crescent Defined Benefit Pension Plan for Non-Union Employees, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years ended December 31, 2012 and 2011, the statements of accumulated plan benefits as of January 1, 2012 and 2011 and the related statements of changes in accumulated plan benefits for the years then ended and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Principal Financial Group, the trustee of the plan, except for comparing such information with the related information included in the financial statements.

We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of, and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule of Assets (Held at End of Year) as of December 31, 2012 and Supplemental Schedule of Reportable Transactions for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

KELLER CRESCENT DEFINED BENEFIT PENSION PLAN FOR NON-UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS

Note 1: DESCRIPTION OF PLAN

The following brief description of the Keller Crescent Defined Benefit Plan for Non-Union Employees ("Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

Effective since January 1, 1987, Clondalkin Pharma & Healthcare (formerly Keller Crescent Co., Inc.) ("Company") has maintained a qualified defined benefit pension plan to provide retirement benefits for its eligible non-union employees ("Employees"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements

Employees become participants of the plan on their Employment Commencement Date, which is defined by the plan as the date on which an employee first performs an hour of service for the employer. Employees receive credit for a year of service for a year in which they complete at least 1,000 hours.

Pension Benefits

Employees with 5 or more years of credited service are 100% vested and entitled to annual pension benefits beginning at normal retirement age (65) or at the employees' early retirement date. The standard retirement benefit is a monthly pension equal to a defined percent of the sum of the highest five consecutive annual compensation amounts of the last ten annual compensation amounts. Alternatively, participants may elect to receive a lump-sum distribution calculation in accordance with the Plan provisions.

Death Before Commencement of Benefits

If a participant dies before his benefit commencement date, the accrued benefit will be forfeited, except for a participant with a vested interest who dies before his benefit commencement date leaving a surviving spouse, in which case the surviving spouse shall receive a survivor's benefit.

Death Benefit After Retirement

If a participant dies after his benefit commencement date, his beneficiary, subject to plan specifications, shall be entitled to receive any amount payable under the elected form of benefit that is in effect for such participant.

Disability Benefits

Active employees who become totally disabled receive annual disability benefits at the date of disability using service projected to normal retirement age.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting, except for distributions paid to participants which are prepared on the cash basis of accounting.

KELLER CRESCENT DEFINED BENEFIT PENSION PLAN FOR NON-UNION EMPLOYEES
NOTES TO FINANCIAL STATEMENTS

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by its investment advisors, custodians, and insurance company. See Note 10 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The standard retirement benefit is a monthly pension amount payable equal to a defined percent of the sum of the highest five consecutive annual compensation amounts of the last ten annual compensation amounts. The accumulated plan benefits for active employees are based on their compensation of the highest 5 consecutive years and credited years of service ended on the date as of which the benefit information is presented, January 1, 2012. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered as of the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Financial Group and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2012, which reflects an actuarial change, were (a) life expectancy of participants from 2012 IRS Prescribed Mortality-Optional Combined Table for Small Plans, male and female (b) retirement age assumptions (the assumed average retirement age was 65 for 2012 and 2011), and (c) investment return. The 2012 and 2011 valuation included assumed average rates of return of 5.75% and 5.75%, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.

Note 3: FUNDING POLICY

The Company's funding policy is to make annual contributions to the Plan in amounts that are determined by actuarial valuations, such that all employees' benefits will be fully provided for by the time they retire. The Company's contributions for 2012 and 2011 met or exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4: PLAN TERMINATION

In the event the Plan terminates, after payment of any expenses of termination and liquidation, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provision in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c. All other vested benefits not guaranteed by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2012 that ceiling is \$4,653 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits when the Plan terminates will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. In the event assets are insufficient to provide full allocations in any given class, the allocations of all participants in that class shall be reduced pro rata.

In the event that all accrued benefits described above have been fully funded, any remaining funds will revert to the Company.

Note 5: INVESTMENTS WITH INSURANCE COMPANY

The Plan has an investment contract, the common collective trust, with the Principal Financial Group. The funds are maintained by the insurance company in a general account. The account is credited with earnings on the underlying investments and charged for withdrawals and administrative expenses. The contract is included in the financial statements at the fair value reported by the insurance company. At December 31, 2012 and 2011, the contract value was at \$2,484,680 and \$2,508,298, respectively.

The common collective trust are funds with underlying investments in guaranteed investment contracts that are valued based upon the underlying investments adjusted by the issuers to contract values. The funds may invest in fixed interest insurance contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds, and other fixed income securities. Contract values represent contributions made to the fund, plus earnings, less withdrawals.

Investment contracts held by a defined benefit plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined benefit plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Note 6: INVESTMENTS

Investments were held by a financial institution, Principal Financial Group (the trustee) for the years ended December 31, 2012 and 2011 and are certified to as complete and accurate by the trustee. The following table presents the fair value of investments. Investments that represent five (5) percent or more of the Plan's net assets are separately identified.

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$451,593 and (\$67,393), respectively, as follows:

	<u>\$ 451,593</u>	<u>\$ (67,393)</u>

Note 7: RELATED PARTY TRANSACTIONS

The Plan invests in investments managed by Principal Financial Group who acts as the trustee for those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

Principal Financial Group provides administrative and actuarial services for the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the services amounted to \$32,150 and \$26,650 for the years 2012 and 2011, respectively.

Note 8: TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 14, 2009, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The Plan administrator has reviewed and evaluated its tax positions taken in its previously filed annual reports and returns with the Internal Revenue Service and or Department of Labor, and those expected to be filed in the future, and has concluded that in the event of an examination by regulatory authorities, the Plan's positions would prevail based upon the technical merit of such positions. Therefore the Plan has concluded that no further benefits or liabilities are required to be recognized or disclosed in the financial statements.

The Plan is generally subject to routine audits by the Internal Revenue Service and or Department of Labor, for three years, including 2009, 2010 and 2011. There are currently no audits for any periods in progress.

Note 9: RISKS AND UNCERTANITIES

The Plan invests in various investment instruments. Investment instruments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment instruments, it is at least reasonably possible that changes in the values of investment instruments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates; inflation rates; and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 - If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts – Valued at the net asset value (NAV) of the respective underlying fund based upon the closing net asset value quoted by that fund.

Common Collective Trust: Value is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year end.

Note 10: FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012

EIN 35-1691753 Plan No. 002

Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods Selected by Plan Sponsor	
Asset Method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment Rates	24 month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding segment rates used for the plan year without the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method was elected with the 01/01/2009 plan year and must continue for five years before a change can be made.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
