401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

A. DESCRIPTION OF THE PLAN

The following description of the Huge, LLC ("Company") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all employees of the Company (except any employee whose employment is governed by the terms of a collective bargaining agreement and any employee who is a non-resident alien) who have reached the age of 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The benefits under this plan are not insured by the Pension Benefit Guaranty Corporation.

2. Contributions

a. Each employee may contribute through payroll deferral in whole percentage of compensation or in specific dollar amounts subject to the Internal Revenue Code Rules and Regulations.

b. The Company may elect to make matching and non-elective contributions as defined under this Plan. The matching and non-elective contributions will be allocated to all employees who have completed a year of service. A year of service is a 12-month computation period during which an employee completes 1,000 hours of service. An hour of service is any hour for which an employee is paid or is entitled to payment. Currently, the matching contribution to the Plan is an amount equal to 50% on the first 6% of the participant's salary subject to the limitations of the Internal Revenue Code Rules and Regulations. The Company reserves the right to suspend the contributions at any time or from time to time, or to discontinue them altogether.

c. Eligible employees may transfer funds from other qualified plans and the transfer is 100% vested as defined in the Plan. The transferred amount shall be invested and administered as a part of the trust fund.

d. The eligible participants who are projected to reach age fifty (50) during a Plan year will be eligible to make a catch-up contribution at any time during that Plan year. Catch-up contributions are contributions that exceed either the statutory limit as defined by the Internal Revenue Code Rules and Regulations, or the limit as defined by the Plan or any restrictions on contributions for certain highly paid employees. The limit on catch-up contributions for the year 2012 was \$5,500 per individual.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

A. DESCRIPTION OF THE PLAN (CONT.)

3. Participant Accounts

Each participant's account is credited with his/her contribution during the plan year. Each participant will have full responsibility for the investment results of his/her investment choices as offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account, taking into consideration the participant's vesting in the employer's contribution as provided in the Plan. Significant costs of plan administration are being absorbed by the participants.

4. Vesting

The participant shall be vested in his or her matching and non-elective contribution accounts as determined under the schedule set forth below and defined in the Plan.

<u>Years of service</u>	<u>Vested percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

The participant is always 100% vested in his or her own contribution account. Also, the participant will always be automatically 100% vested in his or her matching and non-elective contribution accounts upon reaching retirement age (65 or the fifth anniversary of the date an employee became a participant), at death or disability, or upon termination of the Plan. For the purpose of vesting, all years of service are credited from date of hire to determine a participant's vesting service.

5. Payment of benefits

All distributions of benefits under this plan shall be made by the company holding the investments in accordance with the terms and conditions set forth in the Plan. Benefits less than \$5,000 can be distributed either by one lump sum payment or direct rollover. Benefits over \$5,000 can be distributed (in addition to one lump sum payment or direct rollover) or can be deferred until the participant reaches age 70½.

In the event of the death of the participant, the surviving spouse, an alternate payee, or another beneficiary may be able to treat the payment as a lump sum distribution.

6. Participant loans

A participant may elect to receive a loan from his or her account by demonstrating an immediate and heavy financial hardship and that the money can not be obtained from any other source. Immediate and heavy financial hardships are: post-secondary tuition payments for the education of the participant and immediate family members; the purchase of a principal residence; non-elective medical expenses; and payments to prevent the eviction of the participant from a principal residence. The loan may not exceed the lesser of \$50,000 or one-half of the participant's vested amount. The interest is the prime rate as published by representative commercial banks at the time of loan application. Currently, the interest charged on loans is prime plus 1%. Each loan amount (principal and interest) must be completely paid within five (5) years with the exception of loans used for the purchase of a principal residence which can be repaid over 30 years. Loan and interest repayments are deducted ratably from the participant's compensation each payroll period. Only loan requests for over \$1,000 are accepted and a participant can only have one loan outstanding at any time.

7. Forfeited accounts

Forfeited credits as defined in the Plan, will be applied to reduce subsequent employer's contributions. During the year ended December 31, 2012, the forfeited non-vested account balance totaled \$6,937 and was used to reduce the employer's contributions. At December 31, 2012 and 2011, the forfeited non-vested account balance totaled \$0.

B. SUMMARY OF ACCOUNTING POLICIES

Date of management's review

Subsequent events were evaluated through September 30, 2013, which is the date the financial statements were available to be issued.

401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

B. SUMMARY OF ACCOUNTING POLICIES (CONT.)

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment to the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for a discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Loans to participants are reported at their unpaid principal balances plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

HUGE, LLC
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

C. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset either directly or indirectly, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 and Level 2 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of pooled separate accounts are valued at the net asset value (NAV) of the shares held by the plan at year end.

These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offer its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts.

The custodian transacts in these funds on a daily basis as part of the separate account trading activity. The calculation of the NAV for funds composed of other funds (e.g., retirement target date funds) is essentially the same as the calculation of the NAV for any other fund: the total market value of assets across all underlying funds less any liabilities is divided by the outstanding shares. Again, this resulting NAV is published and/or the fund managers are ready to transact at the quoted prices.

C. FAIR VALUE MEASUREMENTS (CONT.)

Level 3 Fair Value Measurements

The investments in deposit administration contracts with the custodian is not actively traded and significant other observable inputs are not available. Thus, the fair value of deposit administration contracts is determined as the present value of future guaranteed account values and participant benefit withdrawals, assuming an annual benefit withdrawal rate of 9%. Benefit withdrawals are assumed to occur on the contract anniversary date. Present values are derived by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates. Market interest rates are deemed to be the same rates to be credited to new issues of the same contract with like guarantees issued as of the date of the fair value determination. The market interest rates used have interest guarantee periods that match the guarantee periods remaining as of the valuation date for the contract. Due to the nature of these contracts, specific underlying assets are not assigned and there is no market (quoted prices or observable inputs) and as such the valuation includes significant inputs based on assumptions about market participant assumptions.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

		<u>Fair value measurements at reporting date</u>	
		<u>using:</u>

NOTES TO FINANCIAL STATEMENTS

E. INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2007, the Plan entered into a benefit-responsive investment contract with the custodian. The contract value of funds held in the custodian's guaranteed account generally represents principal plus accrued interest. The fair value of these funds reflects the relationship between credited rates earned by funds held in the guaranteed account and current market rates. Higher credited rates will produce a higher fair value than lower credited rates under similar market interest rate environments. Fair value for the custodian's guaranteed account is determined as the present value of future guaranteed account values and participant benefit withdrawals, assuming an annual benefit withdrawal rate of 9%. Benefit withdrawals are assumed to occur on the contract anniversary date. Present values are derived by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates. Market interest rates are deemed to be the same rates to be credited to new issues of the same contract with like guarantees issued as of the date of the fair value determination.

The weighted average interest crediting rate is the weighted average of all new and renewal rates of the contract for each calendar quarter. These rates are guaranteed for the entire duration of the guaranteed period and do not vary with the subsequent performance of assets of the custodian's general account which back these guarantees.

Certain events limit the Plan's ability to transact at contract value with the custodian. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan; or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The deposit administration contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date or to settle at an amount different from contract value. The fair value of the investment contract at December 31, 2012 and 2011 was \$68,506 and \$39,651, respectively. The contract value of the investment contract at December 31, 2012 and 2011 was \$39,537 and \$68,307, respectively.

G. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 11, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and related trust is tax-exempt.

H. RELATED - PARTY TRANSACTIONS

All of the Plan investments are investment contracts managed by The Union Central Life Insurance Company (Central). Central is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$9,133 for the year ended December 31, 2012.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net asset available for benefits.

J. SUBSEQUENT EVENTS

Effective June 10, 2013, the Plan merged into the plan of The Interpublic Group of Companies, Inc., ("IPG") the parent company, and has conformed with the notices required of such terminations; accordingly, the Plan's assets were transferred to the IPG plan on June 10, 2013.
