Dial Global Non-Contributory Savings Plan
Notes to Financial Statements
December 31, 2012 and 2011

1. Description of the Plan

The following description of the Dial Global Non-Contributory Savings Plan (the "Plan"), formerly the Westwood One, Inc. Non-Contributory Savings Plan, is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was restated effective August 1, 2012 with Dial Global, Inc. being the Plan Sponsor. This restatement changed the plan name from the Westwood One, Inc., Non-Contributory Savings Plan to the Dial Global Non-Contributory Savings Plan.

General

The Plan is a defined contribution plan covering all employees of Dial Global, Inc. and formerly Westwood One, Inc. and subsidiaries who are covered by the collective bargaining unit for AFTRA, American Federation of Television and Radio Artists, Washington-Baltimore Local, and Local 1200 of the International Brotherhood of Electrical Workers and have completed three consecutive months of service and are age 18 or older. The Plan is subject to the provisions of ERISA.

The Compensation Committee (the "plan administrator"), which is appointed by the Company, has responsibility for the investment activities of the Plan. Reliance Trust Company and SunTrust Bank (the "trustees") held Plan investment assets at December 31, 2012 and 2011. The trustees executed investment transactions for the Plan for the years ended December 31, 2012 and 2011.

Effective August 29, 2012, the Company has contracted with Insperity to maintain the Plan's individual participant account balances. Prior to August 29, 2012, the Company had contracted with SunTrust Retirement Services to maintain the Plan's individual participant account balances. Each participant's account is credited with the participant's contributions as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Employee Contributions

The Plan allows participants to contribute between 1% and 80% of their eligible compensation, subject to limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Description of the Plan (continued)

Vesting
Participants are fully vested in their voluntary contributions and the related earnings at all times.

Notes Receivable From Participants
Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate at the time of the loan plus one percent. Principal and interest are repaid ratably through monthly payroll deductions.

Distributions
When participants reach their normal retirement date (age 65) and separate from service, die, or become totally disabled, they are entitled to retirement income or death benefits based upon their individual account balances. If a participant's employment is terminated prior to retirement, the vested portion of their individual account balances can be distributed in equal monthly or annual cash installments, or a lump sum cash payment. Under certain conditions, terminated participants may elect to allow the vested balance of their accounts to remain in the Plan until a later date.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Partial Plan Termination
On April 29, 2011 Clear Channel Acquisition LLC acquired 100% of the common stock of Metro Networks, Inc., Smartroute Systems, Inc., and TLAC, Inc., all Participating Employers in the Plan. As a result, these Employers, as well as Metro Networks Communications, Inc., Metro Networks Communications, Limited Partnership, and Metro Networks Services, Inc. ceased to be Participating Employers in the Plan. This constituted a partial plan termination, and therefore, all employees of these organizations became 100% vested in all contributions in the Plan and were treated as terminated Employees. During July 2011, $856,114 in Plan assets were transferred from the Plan to the Clear Channel Communications, Inc. 401(k) Savings Plan For Union Employees.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid.

3. Tax Status of the Plan

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the form of the Plan is qualified under Section 401 of the Internal Revenue Code (IRC), and, therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2005-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

4. Summary of Financial Data Certified by the Trustees

Reliance Trust Company has certified that the Plan's investment balances and transactions as of December 31, 2012, and for the period from January 1, 2012 to December 31, 2012, are complete and accurate. Sun Trust Bank has certified that the Plan's investment balances and transactions as of August 29, 2012 and December 31, 2011, and for the period from January 1, 2011 to August 29, 2012, are complete and accurate.

5. Investments

The following investments represent 5 percent or more of the Plan's net assets as of December 31,

	2012	2011	
JPMorgan SmartRetirement 2010 Select	$ 416,818	$ -	
JPMorgan SmartRetirement 2020 Select	361,093	-	
JPMorgan SmartRetirement 2030 Select	145,779	-	
Goldman Sachs Small Cap Value Fund A	79,451	-	
American Trust R3	79,041	-	
Oppenheimer Rising Dividends Fund A	-	310,929	
MFS Research Bond Fund - A	-	287,517	
SunTrust Retirement Stable Asset Fund	-	261,108	*
American Funds EuroPacific Growth Fd R5	-	194,661	
BlackRock Mid Cap Value Opportunity Fund A	-	172,326	
T. Rowe Price Retirement 2030 Fund	-	84,189	
T. Rowe Price Retirement 2020 Fund	-	75,553	

* The amount represents contract value for the investment.

For the years ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2012	2011
Mutual funds	$ 88,833	$ 8,869
Collective income trust funds	9,322	9,273
	$ 98,155	$ 18,142

The net appreciation in value of investments is presented at fair value with the exception of the fully benefit-responsive investment contract, which is presented at contract value.

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fair Value Measurements (continued)

Collective income trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

7. Plan Termination

Although it has not expressed any intent to do so, the Company's Board of Directors has the right under the Plan at any time to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all Plan assets will be held by the trustee for distribution to the participants. See Note 1 for discussion of partial plan termination.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 to Form 5500:

Net assets available for benefits per the financial statements	$ 1,492,276
Adjustment from contract value to fair value for fully benefit-responsive investments contracts	5,864
Net assets available for benefits per the Form 5500	$ 1,498,140

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements for the year ended December 31, 2012 to Form 5500:

Net decrease in net assets available for benefits per the financial statements	$ (150,508)
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	(5,864)
Net decrease in net assets available for benefits per the Form 5500	$ (156,372)

10. Related-Party Transactions and Party In Interest Transactions

Certain plan investments are shares of mutual funds managed by Reliance Trust Company and SunTrust Bank. Reliance Trust Company and SunTrust Bank are the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

11. Subsequent Events

The Plan has evaluated subsequent events through October 7, 2013 the date which the financial statements were available to be issued.
