1. DESCRIPTION OF THE PLAN

The following description of the Romano Auto Network 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees who are twenty-one years of age or older and have completed one year of service with at least 1,000 hours worked. The Plan covers all employees of Romano Chrysler-Jeep, Inc., Romano Ford of Fayetteville, Inc., Romano Volkswagen of Fayetteville, Ltd., Romano Motors Ltd., Romano Subaru, Inc., Romano Toyota Ltd. and Romano Imports, Inc. (collectively the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 75% of pre-tax annual compensation, as defined by the Plan. In addition, participants who have attained the age of 50 before the close of the Plan year may contribute an additional catch-up contribution as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and Plan allocation of earnings and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

(Continued)

1. DESCRIPTION OF PLAN (CONT'D)

Investment Options

Investments are held within various investment funds maintained by Hand Benefits & Trust Company. Contributions are invested, at the discretion of the participant, in one or a combination of available investment options.

The Plan also allows participants to invest in a self-directed brokerage account. In this account, participants are provided a wider range of investments including stocks and mutual funds that allow participants to select investments without the oversight from the Plan administrator.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of the participant's vested account balance, subject to certain conditions as defined in the Plan agreement. The loan and interest thereon shall be repaid over a period not to exceed five years (except for certain residential loans which can extend up to twenty-five years). The loans are secured by the balance in the participant's account and bear interest at the prime rate plus one percent, as determined on the first day of each calendar quarter in which the loan was issued. Interest rates on outstanding loans range from 4.25% to 6% at December 31, 2012. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of their account. Upon death, disability, or retirement a participant may elect to receive a series of payments over a period not to exceed the life expectancy of the participant or the joint life expectancy of the participant and their beneficiary.

For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution. Under certain circumstances, the Plan allows participants to withdraw funds from their account due to financial hardship.

Forfeited Accounts

Forfeited non-vested accounts will be used to pay certain administrative expenses of the Plan. No forfeitures were used during 2012 or 2011.

(Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchase and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid by the Company but reimbursed by the Plan and allocated to participant accounts based upon account balances. All other expenses related to participant transactions are deducted from those participant accounts as transactions occur.

Subsequent Events

Subsequent events have been evaluated through October 10, 2013, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

- *Money market account*: valued at cost plus accrued interest.
- *Mutual funds*: valued at the net asset value of shares held by the plan at year end.
- *Self-directed brokerage accounts*: valued at the aggregate value of the investments held. Money market account valued at cost plus accrued interest. Common stocks are valued at closing price reported on the active market on which the individual securities are traded. Mutual funds are valued at the net asset value of shares held by the plan at year end. Cash is valued at the amount on hand at year end.

(Continued)

3. FAIR VALUE MEASUREMENTS (CONT'D)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's fair value measurement at December 31, 2012 and 2011:

5. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan administrator has received a certification from Hand Benefits & Trust Company, the trustee of the Plan, which states that the following information is complete and accurate as of December 31, 2012 and 2011, and for the year ended December 31, 2012:

- Statements of Net Assets Available for Benefits - Investments, at fair value and notes receivable from participants
- Statement of Changes in Net Assets Available for Benefits - Interest and dividend income, net appreciation in fair value of investments and interest income on notes receivable from participants
- Note 4 - Investment balances
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) - All items and amounts

6. RELATED PARTY TRANSACTIONS

Administrative costs, including maintaining participant accounts, legal, and accounting costs are paid by the Plan; however, the Company may pay for such expenses or reimburse the Plan for any payment of these expenses. Costs of managing the investments are paid directly out of Plan assets. The total administrative costs paid by the Plan amounted to $15,275 in 2012.

Plan investments include shares of mutual funds managed by Hand Benefits & Trust Company, the trustee of the Plan. Hand Benefits & Trust Company is owned by a holding company that owns Benefit Plans Administrative Services, LLC, the third-party administrator of the Plan. Transactions with these companies qualify as party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since the letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC, and therefore, believes that the Plan, as amended, is qualified and the related plan is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
