NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan

The following brief description of the SummaCare, Inc. Employees 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan is a defined contribution plan established on March 20, 1994. The Plan covers all employees of SummaCare, Inc. (the Employer), see Note I, with the exception of union employees whose employment is governed by a collective bargaining agreement and certain nonresident aliens who have no earned income from sources within the United States. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees are eligible to make salary reduction contributions on their date of hire, and to receive matching contributions after one year of service. Employees are eligible to receive discretionary matching contributions if they are actively employed and receiving compensation on the last day of the Plan year as well as actively employed and receiving compensation on the date of contribution.

Contributions

Each year, a participant may voluntarily contribute a percentage of his or her compensation by means of salary deferral up to the maximum amount allowed by the Internal Revenue Service (IRS). The Employer matches 50% of the participant's contributions to the Plan, up to 6% of the respective participant's compensation. Effective January 1, 2010, the Plan was amended for all participants hired as of January 1, 2010 and on to receive an employer match equal to 100% of the participant's contributions up to 1%, and 50% of the participant's contributions up to the next 5%. In addition, these employer matching contributions are 100% vested after 3 years. Participants may also contribute amounts representing rollovers from qualified plans.

Effective July 1, 2011, the Plan was amended as follows:

- a) Participants are designated as either "Frozen Pension Plan Participants" (Frozen Participants) or "Non-frozen Pension Plan Participants" (Non-frozen Participants). A Frozen Participant is precluded from participating in or no longer accrues benefits under the terms of the Summa Health System Retirement Income Plan (RIP) on or after July 1, 2011. The RIP is another employee benefit plan which is sponsored by the parent organization of the Employer. A Non-frozen Participant is a participant who is not a Frozen Participant.
- b) The Employer shall make matching contributions on behalf of Non-frozen Participants meeting the requirements specified in the Plan document equal to 50% of each Non-frozen Participant's elective contributions and catch-up contributions for the Plan year not to exceed 3% of the Non-frozen Participant's compensation. The employer shall make matching

contributions for Frozen Participants equal to 100% of each Frozen Participant's elective deferrals and catch-up contributions up to 1% of the Frozen Participants' compensation plus 50% of each Frozen Participant's elective deferrals and catch-up contributions not to exceed the next 5% of the Frozen Participant's compensation.

c) The Employer shall make a non-discretionary contribution (Pension) for the benefit of Frozen Participants meeting the requirements specified in the Plan document equal to 1% of compensation.

d) Certain Plan participants are eligible to participate in the Performance Plus Plan (PPP) sponsored by the Employer. The first 1% of compensation benefit earned under the PPP shall be contributed to the account of the participant in this Plan.

Discretionary contributions (PPP)

Each participant who is an employee on or before October 1 of the Plan year and is still an active employee on the date the allocation of any additional Employer's discretionary contribution for such Plan year is made (even though such allocation may take place after the close of the Plan year) shall be entitled to an allocation of any additional discretionary contribution in accordance with the Plan document. Discretionary contributions of \$128,548 were approved for the 2011 plan year and contributed in April 2012. There were no discretionary PPP contributions for the 2012 plan year.

Non-Discretionary Contributions (Pension)

The Employer shall contribute a non-discretionary Employer contribution equal to 1% of compensation for all Frozen Participants who have earned 1,000 hours of service during the Plan year and have been employed by the Employer on both January 1 and December 31 of the Plan year. Non-frozen Participants are not eligible for this non-discretionary contribution. Non-discretionary contributions of \$282,456 were approved for the 2012 plan year and contributed in April 2013.

Participant accounts

Each participant's account is credited with the participant's contributions, the Employer's contribution and an allocation of the Plan's earnings. Allocations of earnings are based on the participant's account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account. During the years ended December 31, 2012 and 2011, participants could direct the investments of their respective accounts into various investment options offered by the Plan.

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan, continued

Vesting

Participants are immediately vested in their contributions, plus earnings thereon. Vesting in the contributions of the Employer is based on the Hour of Service Method, as defined in the Plan document. Credit will be given for each hour worked for which compensation is paid to include paid-time-off and leave of absence. Once a participant reaches 1,000 hours of service in any given calendar year, the participant is then credited with a year of vesting. Vesting in the contributions of the Employer is based on years of continuous service.

For Non-frozen Participants vesting shall be determined according to the following table:

<u>Years of service</u>	<u>Vested percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

For Frozen Participants vesting shall be determined according to the following table:

<u>Years of service</u>	<u>Vested percentage</u>
0 - 2 years	0%
3 or more years	100%

Notes receivable from participants

Participants may borrow from their accounts 50% of their vested account balance, from a minimum of \$1,000 up to a maximum of \$50,000, reduced by the highest outstanding loan balance over the last year. Loan terms range from 1 to 5 years or up to fifteen years for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account. The interest rate is fixed for the life of the loan and is 1% over the prime rate published in the *Wall Street Journal* on the first business day of the month the loan is originated. Principal and interest are repaid ratably through payroll deductions.

Distributions to participants or beneficiaries

On termination of service due to death, disability, discharge or retirement, a participant may elect to receive a lump-sum amount equal to the value of the vested interest in his or her account.

Vested account balances of less than \$5,000 may be distributed at the discretion of the Plan in a single lump sum.

Forfeitures

Forfeitures resulting from terminated participants are accumulated in the forfeiture account and used to reduce future Employer contributions. During 2012, \$22,620 of forfeitures were used to offset Employer contributions. At December 31, 2012 and 2011, forfeited non vested accounts totaled \$5,571 and \$18,326, respectively.

NOTES TO FINANCIAL STATEMENTS

NOTE A - Description of the Plan, continued

Administrative expenses

Certain professional and administrative fees are paid by the Employer. All other administrative fees are paid by the Plan.

Plan termination

Although the Employer has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B - Summary of significant accounting policies

Basis of accounting

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Accounting Standards Codification (ASC) Topic on Defined Contribution Pension Plans requires that investment contracts held by a defined contribution plan be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the common/collective trust as well as the adjustment from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of benefits

Benefits are recorded when paid.

Subsequent events

The Plan's management has evaluated events and transactions that occurred between December 31, 2012 and October 14, 2013, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

NOTE C - Investments / information certified by trustee

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2012 and 2011, net appreciation (depreciation) in fair value of shares of registered investment companies, and interest and dividend income for the years ended December 31, 2012 and 2011, was obtained or derived from information supplied to the Employer and certified as complete and accurate by Fidelity Management Trust Company, the trustee at December 31, 2012 and 2011. As elected by the Employer, no auditing procedures have been performed on this information except to compare such information to the information included in the accompanying financial statements.

Investments that represent 5% or more of the fair value of the Plan's net assets are as follows at December 31:

	<u>2012</u>	<u>2011</u>
Fidelity Managed Inc Portfolio	\$ 4,859,878 *	\$ 3,868,517 *
Fidelity International Discovery	1,030,383	860,981
Morgan Stanley Institutional Trust Mid Cap	1,667,330	1,828,628
Rainier Large Cap	1,191,373	1,439,955
Spartan 500 Index Advantage	1,117,737	< 5%
Fidelity Freedom 2030	1,002,919	< 5%

* Amount represents contract value for this investment.

During 2012 and 2011, the Plan's shares of registered investment companies (including investments purchased, sold, and held during the year) appreciated in value by \$1,427,410 and depreciated in value by \$1,285,594, respectively.

NOTE D - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of

SUMMACARE, INC. EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE D - Risks and uncertainties, continued

investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE E - Tax status

The Employer adopted a non-standardized prototype profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on August 7, 2001, stating that the Plan and related trust, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE F - Party-in-interest transactions

Plan investments consist of certain shares of registered investment companies and units of a common/collective trust offered by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions.

NOTE G - Fair value measurements

Accounting Standards Codification (ASC) 820 Topic on *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobserved inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

SUMMACARE, INC. EMPLOYEES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE G - Fair value measurements, continued

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Shares of registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Common/collective trust – Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The fund invests in conventional and synthetic investment contracts issued by various companies and institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. There are no redemption restrictions upon which the participant may redeem investments in the fund. However, the Plan is required to provide a one-year redemption notice to liquidate its entire investment in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
