KEYSTONE FOODS LLC SALARIED 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Keystone Foods LLC Salaried 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

[1] General:

The Plan is a defined-contribution plan established by Keystone Foods LLC. The Plan benefits all eligible salaried employees of the Participating Employers (see below). Such employees who have completed at least 90 days of service are eligible to participate in and enter the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan provides that the following entities shall be known as Participating Employers (together with Keystone Foods LLC, the "Company"):

- Keystone Foods LLC
- Keystone Management, Inc.
- Equity Group – Georgia Division LLC
- Equity Group – Eufaula Division LLC
- LD Foods LLC
- CS Grain LLC
- Equity Group - Kentucky Division LLC, formerly Cagle's - Keystone Foods LLC
- M&M Restaurant Supply (MI/OH) LLC – through April 30, 2012

Effective April 30, 2012, M&M Restaurant Supply (MI/OH) LLC ("M&M") was sold to a third party. Any M&M participant who transferred employment in connection with the sale became immediately 100% vested in his or her account as of April 30, 2012.

Vanguard Fiduciary Trust Company is one of the trustees and the recordkeeper of the Plan.

The Plan is administered by the Retirement Plan Committee (the "Committee"). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

[2] Employee contributions:

The Plan provides for participant elective deferral contributions which are equal to a portion of compensation, up to 75%, as specified in the written elective deferral agreement. The elective deferral agreement may be effective at any date following a participant's entry date. Elective deferral contributions shall be limited as needed to meet nondiscrimination tests. Prior to May 1, 2012, in lieu of the 75% limit of compensation for participant elective deferral contributions, participants who are members of certain classes of executives employed by Keystone Management, Inc., and as defined in the Plan document, may only defer up to \$1,000 of compensation.

Any participant who does not make an affirmative election to the contrary is deemed to have elected participation in the Plan's automatic deferral program under which each eligible employee who has not made an elective deferral or who has an elective deferral in place at a rate of less than 2% of compensation is deemed to have elected to make an elective deferral of 2% of compensation continuing through the end of the first Plan year. The automatic deferral increases to 3% of compensation for the second Plan year of a participant's eligibility, 4% of compensation for the third Plan year of a participant's eligibility, 5% of

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[2] Employee contributions (continued):

compensation for the fourth Plan year of a participant's eligibility, and 6% of compensation for the fifth Plan year of a participant's eligibility and continuing each year thereafter, up to 10% of compensation for the ninth plan year of a participants eligibility, subject to each participant's right to make an affirmative election.

[3] Employer contributions:

The Plan provides for a nonelective contribution that is payable at the discretion of the Participating Employer. Each Participating Employer shall designate the amount of any nonelective contribution to be allocated to each employee classification. The allocation among members of any such classification designated to receive a contribution is defined by the Plan document.

Only participants who have completed a year of service during the Plan year and are employed on the last day of the Plan year are eligible to share in the discretionary contribution with the exception of those participants affected by the reductions in force October 24, November 9 and December 9, 2012.

Effective May 1, 2012, the Plan provides that certain Participating Employers, as described in the Plan document, will make a matching contribution of 50% of the participant's elective deferral contribution up to 6% of the participant's eligible compensation for the Plan year. Prior to this amendment, the matching contribution, for a smaller group of certain Participating Employers, as described in the Plan document, was calculated as 50% of the participant's elective deferral contribution up to 4% of the participant's eligible compensation for the Plan year.

[4] Plan transfers:

Plan transfers represent transfers to or from the Keystone Foods LLC Hourly 401(k) Profit Sharing Plan.

[5] Participant accounts:

Participants are provided with a selection of mutual funds and a common/collective trust held by Vanguard Fiduciary Trust Company ("Vanguard") in which to invest contributions. Earnings are credited to each participant's account based upon the performance of the respective funds selected by the participant. Each investment account is revalued daily on the basis of fair market value and accounts are adjusted accordingly.

When the Plan was first created, it was initially intended to be a nonparticipant-directed Plan. At such time, the Plan invested a portion of its annual employer contributions in whole life insurance policies on behalf of each of the participants of the Plan. The Plan was amended in succeeding years to become participant-directed. For a period of time, participants had the option to invest in these whole life insurance policies. No such option was available for either of the Plan years ended December 31, 2012 or 2011. Participants who had policies funded in prior years have the option, on an annual basis, to either hold their policies or cash out the surrender values and deposit the funds into their accounts. If they opt to hold their policies, then the amount of the annual policy premium is paid from the respective participant's account.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance plus the cash surrender value of any whole life insurance policies held by the trust on his or her behalf. Participants may change their investment options at any time.

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[6] Vesting:

Participants are vested immediately in their contributions and rollovers and earnings thereon.

Participants become fully vested in the employer nonelective contributions and the earnings or losses thereon once they have completed five years of service with the Company. Termination of employment with the Company prior to five years of service results in no benefits available to the participant from employer nonelective contributions and earnings or losses thereon, with the exception of those participants affected by the reduction in force described in note A[3].

Participants are vested in the Company matching contributions and the earnings or losses thereon in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	None
2 but fewer than 3	20%
3 but fewer than 4	40%
4 but fewer than 5	60%
5 or more	100%

[7] Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. A participant may borrow from his or her fund account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested account balance. Loan terms range from 1 to 5 years (10 years if the loan is used to acquire a principal residence). Each loan is secured by the balance in the participant's account. Interest is charged at a rate established by the Company, on a nondiscriminatory basis, taking into consideration the interest rates being charged on similar loans by independent parties, ranging from 3.25% to 8%. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

[8] Benefit payments:

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account, except for those benefits attributable to a participant's Pension Transfer Account, as a lump-sum distribution.

A participant may receive the value of the vested interest in his or her Pension Transfer Account as a joint and survivor annuity, a single life annuity or as a lump-sum distribution.

The normal retirement age is a participant's 65th birthday; 60th birthday, if he or she has at least 10 years of service; or 55th birthday, if he or she has at least 15 years of service.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[9] Forfeitures:

If a participant permanently terminates his or her employment for reasons other than death, disability, or retirement, and the participant is not fully vested, the nonvested balance in his or her account is forfeited as of the earlier of (1) the last day of the Plan year in which the fifth consecutive break in service occurs, or (2) the distribution of the entire vested portion of the participant's account. Forfeitures of terminated participants' nonvested employer contributions are used to reduce future employer contributions to the Plan.

As of December 31, 2012 and 2011, forfeited nonvested accounts available to reduce employer contributions were approximately \$151,000 and \$123,000, respectively. For the Plan year ended December 31, 2012, approximately \$129,000 of forfeited nonvested accounts was used to reduce employer contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The accompanying financial statements are prepared under the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements and the changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

KEYSTONE FOODS LLC SALARIED 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[3] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains or losses on investments bought and sold as well as held during the year.

Income was recognized on the whole life insurance policies based upon the change in the total cash surrender value of all policies held by the Plan as of December 31, 2012 as compared to their value as of December 31, 2011.

[4] Payment of benefits:

Benefits are recorded when paid.

[5] Plan expenses:

Certain expenses incurred in connection with the administration of the Plan, with the exception of fees related to notes receivable from participants and investment advisory fees, are paid by the Company.

[6] Accounting changes:

In 2012, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"), effective for Plan years beginning after December 15, 2011. ASU 2011-04 amends Accounting Standards Codification ("ASC") 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards ("IFRSs"). Adoption of ASU 2011-04 did not have a material effect on the financial statements.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard Fiduciary Trust Company, one of the trustees of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2012 and 2011, the statement of changes in net assets available for benefits for the year ended December 31, 2012 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2012.

KEYSTONE FOODS LLC SALARIED 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE D - INVESTMENTS

The Plan currently provides for participant-directed investment programs among a selection of investment options.

Single investments representing more than 5% of the Plan's net assets as of December 31, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
Registered investment companies:		
PIMCO Total Return Fund	\$ 5,076,919	\$ **
Vanguard Target Retirement 2025	25,001,887	26,815,060
Vanguard Total Bond Market Index Fund	5,333,693	**
Vanguard Windsor II Fund Investor Shares	5,384,961	**
Interest in common/collective trust:		
Vanguard Retirement Savings Trust	8,530,187 *	9,256,425 *

* This amount represents contract value for this investment. Fair value was \$8,982,382 in 2012 and \$9,705,869 in 2011.

** Single investment did not represent more than 5% of the Plan's net assets.

During 2012, the Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$8,927,221.

NOTE E - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

KEYSTONE FOODS LLC SALARIED 401(k) PROFIT SHARING PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2012 and 2011.

Registered investment companies - Shares of registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust – The Plan invests in the Vanguard Retirement Savings Plan Trust ("VRST"), which is a common/collective trust. The VRST seeks stability of principal and a high level of current income consistent with a 2-3 year average maturity. The trust is a tax-exempt collective trust invested primarily in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The VRST invests solely in the Vanguard Retirement Master Trust (the "Trust"). The VRST's value in the Trust is valued at the NAV of the units in the trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. As of December 31, 2012 and 2011, the Trust investments are comprised of alternative investment contracts, traditional insurance contracts as well as cash equivalents of approximately 91%, 3% and 6%, and 93%, 3% and 4%, respectively. There are no unfunded commitments related to the VRST. If the Plan were to make a full accumulated book value withdrawal from the VRST, a written request must be made twelve months prior to the designation valuation date.

Whole life insurance policies - Investments in whole life insurance policies are valued at fair value, which represents the surrender value of the policies at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Valuation processes used in Level 3 measurements:

The Plan administrator discusses and assesses fair value measurements, with internally responsible personnel as well as with the Plan trustee and independent investment advisor, including pricing models, broker quotes, and the methodology used to develop and substantiate unobservable inputs used in Level 3 fair value measurement.

Changes in fair value levels:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers into or out of Levels 1, 2 or 3.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Whole life insurance policies	\$840,348	Cash surrender value	n/a	n/a	n/a

NOTE F - TAX STATUS

The Plan obtained its latest determination letter on August 14, 2010, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Notes to Financial Statements December 31, 2012 and 2011

NOTE G - RELATED PARTY TRANSACTIONS

Certain of the Plan's investments are shares of registered investment companies (mutual funds) and units of a common/collective trust managed by Vanguard. Vanguard is a trustee as defined by the Plan and, therefore, transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan were approximately \$35,000 for the year ended December 31, 2012.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE I - REGISTERED INVESTMENT COMPANIES FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.
