(1) Description of Plan

The following description of Butter Krust Baking Company, Inc. Employees Profit Sharing and 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document, including plan amendments, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain employees of Butter Krust Baking Company, Inc. who meet the eligibility requirements of the Plan.

Pursuant to the purchase agreement of the Sara Lee Corporation, sponsorship of the Plan changed to BBU, Inc. (the Company) effective November 6, 2011.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Bimbo Bakeries USA Benefits Committee (the Committee) is responsible for oversight of the Plan. The Bimbo Bakeries USA Benefits Investment Subcommittee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Committee.

Plan Amendments

Effective January 1, 2005, the Plan was amended to allow employer matching contributions. The maximum employer match shall equal 100 percent of the employee's contribution ranging from 1 percent to 4 percent of eligible compensation with a minimum match ranging from $0 to $2,500. The exact employer match is based on the employee's age plus years of service, as defined in the table below.

Age and Service	Percent	Minimum
30 or less	1	$ -
31 to 55	1	$ 500
56 to 65	2	$ 1,000
66 to 75	3	$ 1,500
76 or more	4	$ 2,000

In addition, for employees with age plus years of service on January 1, 2005 of 85 or more, an additional matching contribution of $500 will be made, if the employee has elected to defer at least the applicable percentage of compensation as outlined in the table above. However, no additional employees have been or will be added to this group after January 1, 2005 even if their age plus years of service exceed 85.

(1) Description of Plan, Continued

Plan Amendments, Continued

The Company may make an additional discretionary contribution to be allocated in proportion to each participant's share of the compensation paid to all eligible participants during the year.

Effective January 1, 2005, all new hires are automatically enrolled in the Plan with a 1 percent contribution percentage until the participant elects to change his/her deferral percentage, or elects out of the Plan.

Contributions

Participants may contribute up to 20 percent of pretax annual compensation, as defined in the plan agreement. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participant contributions are subject to certain limitation.

Company profit sharing contributions are made from current or accumulated profits and are determined annually by the Board of Directors. No profit sharing contribution was authorized for the year ended December 31, 2012.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their account balances.

(1) Description of Plan, Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The Plan permits a minimum loan of $500 in the event of a financial hardship. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing market rates at the date of loan origination. Principal and interest is paid ratably through payroll deductions over a term of up to five years, or fifteen years, if the loan was used to purchase a primary residence. Loan interest rates range from 4.25 percent to 7.75 percent at December 31, 2012.

Payment of Benefits

On termination of service due to death, disability, or retirement, the benefit payments are paid to such beneficiaries, as elected, either in lump sum or in annual installments over a period not in excess of 15 years except for benefits of $5,000 or less which are paid in a lump sum. In-service withdrawals are permitted for reasons of financial hardship or upon the employee reaching age 59½. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

(2) Summary of Significant Accounting Policies, Continued

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Bimbo Bakeries USA Benefits Investment Subcommittee determines the Plan's valuation policies utilizing information provided by the investment advisers and plan trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recognized on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are paid directly by the participant and are not paid out of plan assets. No allowance for credit losses has been recorded as of December 31, 2012 and 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant and are excluded from administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

The Plan has evaluated subsequent events through October 11, 2013, the date the financial statements were available to be issued. See Note 10.

Registered investment companies	$ 1,847,940
Common collective trusts	123,868
	$ 1,971,808

(4) Investments Certified by the Trustees (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by MG Trust Company, LLC (MG) and Susquehanna Trust & Investment Company (Susquehanna) as complete and accurate, except for comparing such information certified by MG and Susquehanna to information included in the Plan's financial statements and supplemental schedule.

- Investments at fair value at December 31, 2012 and 2011.
- Notes receivable from participants at December 31, 2012 and 2011.
- Interest and dividend income for the year ended December 31, 2012.
- Net appreciation in fair value of investments for the year ended December 31, 2012.
- Interest income on notes receivable from participants for the year ended December 31, 2012.
- Schedule H, Line 4 - Schedule of Assets (Held at End of Year).

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

Continued...

(5) Fair Value Measurements, Continued

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end registered investment companies that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Common collective trust: Invests in conventional and synthetic guaranteed investment contracts (GICs) issued by insurance companies and banks with excess cash invested in cash equivalents. The common collective fund allows for earnings stability regardless of the volatility of the financial markets. Contract value for the common collective trust fund is based on the net asset value of the fund as reported by the trustee. The underlying investments in investment contracts is valued at the fair market value of the underlying investments and then adjusted by the issuer to contract value. The fund is traded in a market with no readily available quoted prices; however, the unit price is based on underlying investments which are traded on an active market. The common collective trust fund is classified as a level 2 investment.

Continued...

(5) Fair Value Measurements, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ 18,475,399	$ 1,424,075	$ -	$ 19,899,474

There were no significant transfers among investment levels during the years ended December 31, 2012 and 2011.

(6) Related Party Transactions and Party-in-Interest Transactions

Certain plan investments were shares of registered investment companies managed by Susquehanna. Susquehanna was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment. Certain other administrative expenses were paid by the Company.

(7) Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would remain 100 percent vested in their account balances. See Note 10 for Plan merger.

(8) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a determination letter dated October 14, 2010, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(10) Subsequent Events

On January 1, 2013, participant account balances and the net assets of the Plan were merged with and into the Bimbo Bakeries USA Savings Plan. Each employee who, as of December 31, 2012, was a participant in the Plan became a participant in the Bimbo Bakeries USA Savings Plan as of January 1, 2013.
