Note 1 - Plan Description

The following description of Fort Dearborn Company 401(k) Plan for Collectively Bargained Employees (the "Plan") provides only general information. Participants should refer to the plan agreement and related union agreements, if applicable, for a more complete description of the Plan's provisions.

General - The Fort Dearborn Company 401(k) Plan for Collectively Bargained Employees is a 401(k) savings plan covering all eligible employees of Fort Dearborn Company (the "Company").

All employees subject to collective bargaining and not members of certain excluded collective bargaining groups, who have completed 30 days of service and have attained the age of 21, are eligible to participate in the Plan. Employees can enroll in the Plan on the first day of the month coinciding with or next following the date that the eligibility requirements are met.

Plan participants are eligible for employer matching contributions after completing 1,000 hours and one year of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Company is the sponsor of the Plan. The administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. Wells Fargo functions as custodian and investment manager. Investment management fees and trustee fees are paid by the Plan in accordance with the plan agreement.

Contributions - Eligible employees may elect to make 401(k) deferral contributions up to 50 percent of their total earnings. Participants who have attained age 50 may make catch-up contributions in addition to their regular deferral contributions. All deferral contributions are made out of pretax earnings through salary reductions and are subject to certain Internal Revenue Service (IRS) limitations.

Participants may also make rollover contributions, which represent amounts distributed from other qualified defined benefit or defined contribution plans.

For each eligible participant, the Company may make a discretionary matching contribution as defined by the plan document and applicable collective bargaining agreement.

Vesting - Participants are immediately vested in all contributions plus actual earnings thereon.

Note 1 - Plan Description (Continued)

Participant Notes Receivable - Participants may borrow from their accounts a minimum of $1,000 up to a maximum of 50 percent of their account balance, not to exceed $50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. Principal and interest are paid ratably through periodic payroll deductions.

Participant Accounts - Each participant's account is credited with the participant contributions, and allocations of the Company's contributions, plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Benefit Payments - Upon termination of service, a participant can request a withdrawal of the vested portion of the amount credited to his or her account. Vested benefits may be distributed in a lump-sum payment or in substantially equal installments.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Wells Fargo Bank, N.A. or its affiliates. Wells Fargo Bank, N.A. is the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Additionally, certain administrative expenses of the Plan are paid by the Company which qualify as party-in-interest transactions.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for the Wells Fargo Stable Return Fund, a common collective trust fund, which is stated at fair value with an adjustment to contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is determined by the issuer based on the fair value of the underlying net assets of the fund at the measurement date. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The Wells Fargo Stable Return Fund primarily invests in guaranteed investment contracts and synthetic investment contracts. The issuer determines the fair value of the guaranteed investment contracts based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The issuer determines the fair value of the synthetic investment contracts using market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by a security-backed contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The underlying investments of the synthetic investment contracts are primarily fixed-income securities that are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models.

All other investments are valued based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible. Delinquent loans are reclassified as distributions based on the terms of the plan document.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 3, 2013, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Wells Fargo (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Investments that exceed 5 percent of end of year net assets are as follows:

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2012 and 2011.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(1) The investment objective of the common collective trust is to preserve principal and provide a stable return over the life of the investment by investing in guaranteed investment contracts, synthetic investment contracts which primarily hold fixed-income investments.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period.

Participants may transfer in and out of any of the investments on a daily basis without prohibitive restrictions. There were no unfunded commitments or redemption restrictions in the common collective trust fund.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2009.
