Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, and for the year ended December 31, 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

COLORADO ALLERGY & ASTHMA CENTERS, P.C.
PROFIT SHARING 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2012

1. Description of the Plan:

The following description of the Colorado Allergy & Asthma Centers, P.C. (the "Company" or the "Employer") Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a qualified defined contribution plan. All eligible employees who have completed one year of service, as defined by the Plan agreement, and are age twenty-one or older, are eligible to make salary deferrals to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA").

Contributions:

Each year, eligible participants may elect to have a portion of their salary deferred and contributed to the Plan, up to a maximum amount, adjusted annually by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and, subject to certain limitations as defined by the Plan, voluntary after-tax contributions, including after-tax Roth contributions.

The Employer may make a discretionary matching contribution as well as a discretionary profit sharing contribution to the Plan. Participants are eligible for discretionary matching contributions and annual discretionary profit sharing contributions once they complete two years of service, as defined by the Plan.

For the year ended December 31, 2012, the Employer contributed to each eligible participant's account, an amount equal to up to 5% of eligible compensation. In addition, for the year ended December 31, 2012, the Employer contributed a profit sharing contribution on behalf of each eligible participant equal to a ratio of the percentage of the participant's compensation to total participants' compensation. Contributions are subject to certain limitations.

Investment options:

Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan. Currently, the Plan offers mutual funds, a stable return fund and self-directed accounts as investment options. A self-directed account allows a participant to direct the investment of his or her contributions among individual stocks, bonds, shares of various mutual funds, and money market accounts through a self-directed brokerage account.

1. **Description of the Plan (continued):**

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary contributions and Plan earnings. Participant accounts are charged with an allocation of certain administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, compensation, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

With the exception of the self-directed accounts, investment income is allocated to each participant's account based on the participant's account balance in each Plan option. Transaction fees for the purchase and sale of securities for the self-directed account of a participant are charged in accordance with a schedule of rates disclosed in the self-directed account agreement.

Vesting:

All participants are immediately vested in their voluntary contributions and Employer contributions, plus actual earnings thereon.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at current market rates, as defined by the Plan, determined at the date of the loan. All loans must be repaid to the Plan within a period specified by the Plan agreement, generally not exceeding five years. The Employer establishes the specific terms and conditions of each loan. Loans outstanding at December 31, 2012, bear interest at rates that range from 3.25% to 7.50%. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits:

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account or an annuity, as defined by the Plan. A participant may also elect to receive his or her benefit as a direct rollover to an IRA or another qualified plan.

2. **Summary of accounting policies:**

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution Plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a stable return fund. Contract value for this stable return fund is based on the net asset value of the fund as reported by the investment advisor. The statements of assets available for benefits present the fair value, as well as, the adjustment from fair value to contract value relating to the stable return fund. The statement of changes in assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

2. **Summary of accounting policies (continued):**

Administrative expenses:

The Plan's administrative expenses are paid by either the Plan or the Company, as provided in the Plan document. Certain expenses of maintaining the Plan are paid directly by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Recently issued and adopted accounting pronouncements:

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and IFRSs,* which requires disclosure of valuation techniques for Level 2 and Level 3 measurements, and for Level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. In addition, ASU 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between Level 1 and Level 2 of the fair value hierarchy. For the Plan, this ASU was effective prospectively beginning January 1, 2012, and has been adopted. In February 2013, the FASB issued ASU No. 2013-03, *Financial Instruments: Clarifying the Scope and Applicability of a Particular Disclosure to Nonpublic Entities* to provide clarification that the requirement to disclose the level of the fair value hierarchy within which the fair value measurements are categorized in their entirety (Level 1, 2, or 3) does not apply to nonpublic entities for items that are not measured at fair value in the statement of financial position but for which fair value is disclosed. This ASU was effective upon issuance. The adoption of these disclosure requirements had no impact on the Plan's statement of assets available for benefits or statement of changes in assets available for benefits.

Plan management has evaluated other recently issued accounting pronouncements and does not believe that any of these pronouncements will have an impact on the Plan's statement of assets available for benefits or statement of changes in assets available for benefits.

3. **Certified information (unaudited):**

The financial information related to investments, notes receivable from participants, investment income, interest income on notes receivable from participants, and net appreciation in fair value of investments, included in the Plan's financial statements, the supplemental schedule of assets (held at end of year), the information included in Note 4, and the investment values included in Note 5, has been obtained or derived from information supplied to the Company and certified as complete and accurate by Wells Fargo Bank, N.A., the trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

3. Certified information (unaudited) (continued):

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,563,430 as follows:

Self-directed accounts:	
Common stocks	$ 12,636
Mutual funds	43,399
	56,035
Mutual funds	1,476,169
Stable return fund	31,226
	$ 1,563,430

4. Investment contract with financial institution (unaudited):

The Plan offers an investment vehicle, the Wells Fargo Stable Return Fund (the "Fund"). The Fund is considered to be fully benefit-responsive, which means withdrawals from these investment contracts may be made at contract value for qualifying benefit payments, including participant-directed transfers. The Fund invests in investment contracts and security-backed contracts through a collective trust fund sponsored by Wells Fargo Bank, N.A. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contract issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest rate risk is also present because rates may be fixed with these products.

Investment contracts generally do not permit termination of the agreements prior to the scheduled maturity date except to allow for benefit responsive withdrawals. Security-backed contracts generally are evergreen contracts that contain termination provisions, allowing for termination with notice, at any time, at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero.

Investment and security-backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of operations. These withdrawals are paid with a market value adjustment applied to the withdrawal, as defined in the contract. Each contract issuer specifies the events which may trigger a market value adjustment. Such events may include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The yield earned by the Fund at December 31, 2012 and 2011 was 0.94% and 1.56%, respectively. This represents the annualized earnings of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the Fund at December 31, 2012 and 2011, respectively.

4. Investment contract with financial institution (unaudited) (continued):

The yield earned by the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund at December 31, 2012 and 2011 was 1.95% and 2.33%, respectively. This represents the annualized earnings credited to participants in the Fund, divided by the fair value of all investments in the Fund at December 31, 2012 and 2011, respectively.

There are no unfunded commitments or significant restrictions on redemptions related to the Fund.

5. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; and • inputs that are derived principally from or corroborated by observable market data by correlations or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used at December 31, 2012 and 2011. There have been no changes in the methodologies used at December 31, 2012 and 2011.

5. Fair value measurements (continued):

Money market accounts: Valued at amortized cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable return fund: Valued based on financial statements provided by the Plan's investment trustee, which are audited annually by independent accountants. The value for this fund is stated at estimated fair value, which is net asset value, exclusive of the adjustment to contract value. The use of net asset value as fair value is deemed appropriate as the fund does not have a finite life, unfunded commitments, or significant restrictions on redemptions.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Level	2012	2011
Mutual funds:			
International	1	$ 2,017,354	$ 1,843,388

6. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan by resolution of its Board of Directors and subject to the provisions of ERISA.

7. Tax status:

The Company adopted a prototype non-standardized 401(k) plan that received a favorable determination letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Management assesses the likelihood of the financial statement effect of a tax position that should be recognized when it is more likely than not that the position will be sustained upon examination by a taxing authority based on the technical merits of the tax position, circumstances, and information available as of the reporting date. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations for years prior to 2009.

8. Related party transactions:

Certain Plan investments are units of a stable return fund and shares of various mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee, as defined by the Plan, and therefore these transactions qualify as party-in interest transactions.

Fees paid by the Employer for legal, accounting and other professional services provided to the Plan and rendered by parties-in-interest on behalf of the Plan were approximately $14,500 during the year ended December 31, 2012.

Notes receivable from participants also qualify as party-in-interest transactions.

9. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of assets available for benefits.

10. Subsequent events:

The Employer has evaluated subsequent events through October 9, 2013, the date the financial statements were available to be issued.
