PORTER BANCORP, INC. 401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Porter Bancorp, Inc. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a participant directed defined contribution plan (401(k) Plan) covering substantially all eligible employees. The Plan was established to provide and administer retirement benefits for employees of Porter Bancorp, Inc. and subsidiaries, J.C. Porter & Associates and Peoples Bank of Taylorsville (the Company) that elect to participate in the Plan. The custodian of the Plan is Principal Financial Group (PFG). PFG is the parent company of Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, who are the custodians for the Plan. The Plan is subject to certain provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 1, 2002, participants in the Bullitt County Bank Profit Sharing Plan, the Peoples Bank of Taylorsville Profit Sharing Plan, and the Brownsville Deposit Bank Profit Sharing Plan transferred their assets into the Porter Bancorp, Inc. Plan. Bullitt County Bank and Brownsville Deposit Bank are subsidiaries of Porter Bancorp, Inc. and the Peoples Bank of Taylorsville is a related entity. On November 12, 2005, participants in the United Community Bank Profit Sharing Plan transferred their assets into the Porter Bancorp, Inc. Plan. On February 1, 2008, participants in the Kentucky Trust Bank 401(k) Plan transferred their assets into the Porter Bancorp, Inc. Plan.

Contributions: Any participant may elect to make voluntary contributions, through payroll deductions, to the Plan as deferred compensation contributions. Participants may contribute an annual maximum of the lesser of 15% of eligible compensation or the maximum allowed by statute. The Plan provides for a matching contribution to be determined by each employer equal to a percentage of each participant's deferred compensation of the Plan year. For 2012 and 2011, with the exception of Porter & Associates, each employer made matching contributions equal to 50% of the first 4% of the participant's contributions. Porter & Associates matched 25% of the first 4% of participant's contributions for 2012 and 2011.

The Plan also provides for discretionary contributions determined by each participating employer of the Company and allocated to the participants who are employees of the adopting employer. Allocations are made to the participants based on their ratio of annual compensation as of the last day of the Plan year to the total of such compensation for all eligible participants of the adopting employer. The discretionary contribution was \$40,000 for the years ended December 31, 2012 and 2011. Only Peoples Bank of Taylorsville participated in the discretionary contribution.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions and Plan earnings, and is charged with his or her withdrawals. Allocation of discretionary contribution is based on the participant's compensation. Company matching contributions are allocated based on a participant's voluntary contributions. A participant must be employed by the Company on December 31 of the plan year or have retired in the respective plan year to be eligible to receive an allocation of Company discretionary contributions.

Vesting: Vesting of a participant's interest is 100% in cases of normal retirement at age 65, death or total disability. If a participant's employment ceases for any other reason, the full value of his account is payable to him if he has completed six or more years of service. A participant who has completed less than six years of service is entitled to the full value of his interest less the value of the non-vested employer contributions. Participants are 20% vested after two years of service and vesting increases 20% per year of service until reaching 100% after six years of service. Employer contributions forfeited as a result of termination of employment may be used to reduce plan administrative expenses and fund future employer contributions.

NOTES TO FINANCIAL STATEMENTS
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Eligibility: Effective January 1, 2001, the Plan's definition of eligibility was amended. An employee shall first become an active participant on the earliest monthly date on or after January 1, 2000 on the completion of 90 days of eligibility service before their entry date. Eligibility service means an employee's period of service.

Payment of Benefits: Benefits are distributed to the participant or his beneficiary in an annuity or lump sum payment. If a participant's account balance exceeds \$5,000, no portion of the account balance will be distributed as a lump sum without the participant's consent.

Administrative Expenses: During 2012 and 2011, plan administrative expenses were paid from Plan assets. Audit and legal fees are paid by the Company.

Forfeited Accounts: Total forfeitures for December 31, 2012 and 2011 were \$30,960 and \$46,761, respectively. In 2012, forfeitures were used to reduce employer contributions. In 2011, plan administrative expenses were reduced by \$1,296 as a result of forfeited non-vested accounts. The remaining portions of the 2011 forfeitures were used to reduce employer contributions. The balance of forfeitures available to offset future matching contributions as of December 31, 2012 and 2011 were \$2,457 and \$6,822, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures and actual results may differ from these estimates.

Investment Contract with Insurance Company: In 2002, the Plan entered into a non-fully benefit-responsive investment contract with Principal Life Insurance Company ("PLIC"). The contributions are maintained in Principal Life Insurance Company's general account. The contract is included in the financial statements at fair value, which approximates contract value as no adjustment was required for credit quality considerations.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Registered Investment Companies: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). Each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account and provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Investment Contracts: The fair values of the Plan's investment contracts have been determined to approximate contract values (level 3 inputs), as the terms of the contracts prohibit transfer or assignment of rights under the contracts and provide for all distributions prior to contract termination at contract value, frequent re-setting of contractual interest rates based upon market conditions, no significant liquidity restrictions and no defined maturities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The table below presents a reconciliation of all investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, including the reporting classifications for the applicable gains and losses included in the statement of changes in net assets available for benefits:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) <u>Guaranteed Investment Contract</u> <u>2012</u>
Beginning balance, January 1	\$ 536,102
Total realized and unrealized gains or losses Included in change in net assets available for benefits:	
Interest income/Dividends	6,943
Purchases	139,609
Sales	<u>(169,419)</u>
Ending balance, December 31	<u>\$ 513,235</u>

Payment of Benefits: Benefits are recorded when paid.

Excess Contributions: Refunds of excess participant deferral contributions may be required to satisfy the relevant nondiscrimination provisions of the Plan. Such refunds are accrued as a liability and reduction in contributions in the Plan year in which the excess deferrals were made to the Plan.

Risks and Uncertainties: The Plan provides for various investment options in mutual funds, pooled separate accounts and a guaranteed investment contract. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks.

Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.
