Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Retirement Plan Committee and Participants
of the M & M Restaurant Supply - Pennsylvania Defined Benefit Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the M & M Restaurant Supply - Pennsylvania Defined Benefit Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements, in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to on the previous page present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2012, and changes therein for the year then ended, and its financial status as of December 31, 2011, and changes therein for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012 and the supplemental schedule of reportable transactions for the year ended December 31, 2012, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplemental information required by the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"). Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

M & M RESTAURANT SUPPLY - PENNSYLVANIA DEFINED BENEFIT PENSION PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE A - DESCRIPTION OF THE PLAN

The following description of the M & M Restaurant Supply - Pennsylvania Defined Benefit Pension Plan (the "Plan") provides only general information. The Plan sponsor is Keystone Foods LLC (the "Company"). M & M Restaurant Supply - Pennsylvania is a division of the Company. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was frozen on December 31, 2008. After December 31, 2008, monthly service benefits were no longer earned. On April 30, 2012, the M & M Restaurant Supply Division of Keystone Foods LLC was sold to Martin Brower Company, LLC, resulting in a partial plan termination whereby all active participants became terminated vested participants.

The Plan is a defined-benefit pension plan which provides pension, death and disability payments to the eligible former employees of M & M Restaurant Supply - Pennsylvania. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Significant Plan provisions are as follows:

[1] Funding policy:

The Plan's sponsor makes contributions to the Plan as necessary on an actuarial basis to provide sufficient assets to meet benefit payments to Plan participants. The Plan has met the ERISA minimum funding requirements. The Plan's sponsor has elected to fund the Plan's contribution requirements based on an amount between the minimum and maximum amounts as estimated by consulting actuaries.

[2] Eligibility:

An eligible employee is defined as any employee who was (a) compensated on an hourly basis, (b) employed by the M & M Restaurant Supply - Pennsylvania division of the Company and (c) covered by the Collective Bargaining Agreement. Any employee who had completed the probationary period under the Collective Bargaining Agreement was eligible to participate. The Plan was frozen for new participants on December 31, 2008.

[3] Pension benefits:

Employees with five or more years of service were entitled to monthly pension benefits beginning at normal retirement age (62 if hired prior to July 1, 1994 or 65 if hired on or after July 1, 1994) equal to their accrued benefit. Employees subject to the September 15, 2007 Collective Bargaining Agreement continued to earn service credit towards vesting through April 30, 2012.

A participant's accrued benefit is based on a retirement benefit formula equal to the sum of stipulated per month benefits based on the dates the participant's service was completed. The monthly service benefits range from \$15 per month for service completed in 1989 to \$90 per month for the service year 2008. The Plan was frozen on December 31, 2008 at which time monthly service benefits are no longer earned.

Upon termination of service due to death, disability, or retirement, a participant may receive the value of his or her accumulated Plan benefits as either a joint and survivor annuity or a lump-sum distribution. For termination of service for other reasons, a vested participant may receive the value of his or her accrued benefit as a lump-sum distribution.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The accompanying financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

[2] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and, when applicable, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

[3] Actuarial present value of accumulated Plan benefits:

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the respective Plan provisions to services rendered by the employees to the valuation date. Accumulated Plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, as stated in Note A, and present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and active employees are based on calculations summarized in Note F. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary estimates the actuarial present value of accumulated benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to include the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2012 are as follows:

Discount rate	7.00%
Assumed rate of return on net assets	6.57%
Mortality basis	IRS 2012 Static Mortality Table
Retirement age	Earliest age at which eligible to commence benefits

Since the January 1, 2011 valuation, the funding mortality table was updated from the 2011 IRS Static Mortality Table to the 2012 IRS Static Mortality Table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated Plan benefits. The actuarial calculations take into account the freezing of the Plan as of December 31, 2008.

Notes to Financial Statements December 31, 2012 and 2011

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[4] Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

[5] Payment of benefits:

Benefits are recorded when paid.

[6] Administrative expenses:

Certain administrative expenses are paid by the Plan sponsor.

[7] Accounting changes:

In 2012, the Plan adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* ("ASU 2011-04"), effective for Plan years beginning after December 15, 2011. ASU 2011-04 amends Accounting Standards Codification ("ASC") 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards ("IFRSs"). Adoption of ASU 2011-04 had no effect on the financial statements.

NOTE C - ADJUSTED FUNDING TARGET ATTAINMENT PERCENTAGE ("AFTAP")

The Pension Protection Act (the "Act") included many provisions and numerous revisions to rules surrounding defined benefit plans, including rules that govern Plan funding. The Act established minimum funding standards for defined benefit plans and limited benefit increases and accruals for underfunded plans. Pursuant to the Act, each year the actuaries are required to certify to the Plan's funded percentage. The Plan received such certification for the 2012 Plan year for the Adjusted Funding Target Attainment Percentage ("AFTAP"), which is one way of measuring the funded status of a plan using actuarial assumptions mandated by the IRS, and the actuary determined that the 2012 AFTAP for the Plan is 101.28%.

NOTE D - INVESTMENTS

The following investments represent 5% or more of the Plan's net assets as of December 31:

	<u>2012</u>	<u>2011</u>
Vanguard LifeStrategy Moderate Growth Fund	<u>\$ 877,703</u>	<u>\$ 4,054,116</u>

The realized/unrealized appreciation on investments bought and sold as well as held during the year is as follows for the year ended December 31, 2012:

Vanguard LifeStrategy Moderate Growth Fund	<u>\$ 223,017</u>
--	-------------------

NOTE E - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements December 31, 2012 and 2011

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2012 and 2011.

Mutual funds – Valued at the net asset value of the shares held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

		Investment Assets at Fair Value as of December 31	
		Level 1	
		2012	2011
Investments:			
Registered investment company:			
Balanced fund		<u>\$ 877,703</u>	<u>\$ 4,054,116</u>

Changes in fair value levels:

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no significant transfers into or out of Levels 1, 2 or 3.

Actuarial present value of accumulated Plan benefits at the end of the year	<u>\$ 5,009,164</u>	<u>\$ 4,685,454</u>

NOTE G - PLAN TERMINATION

The Plan was frozen effective December 31, 2008. No further benefits will accrue. The Plan sponsor will continue to fund the future minimum contributions as determined by the actuary. The Company has the right under this Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Company shall make no further contributions to the Plan and participants would become 100% vested in their employer contributions.

M & M RESTAURANT SUPPLY - PENNSYLVANIA DEFINED BENEFIT PENSION PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE G - PLAN TERMINATION (CONTINUED)

Should the Plan terminate, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC"), a United States government agency, at that time. Some benefits may be fully or partially covered by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Generally, PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. The maximum guarantee is set by law and it is updated each calendar year. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. A statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that PBGC guarantees. For plan terminations occurring during 2013, that ceiling is \$4,790 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). The amount is higher for those who retire later and lower for those that retire earlier or elect survivor benefits. Further limitations apply for any plan created or amended to increase benefits within five years before the plan's termination date. PBGC guarantees the larger of 20% of the benefit increase or \$20 per month for each full year the benefit increase was in effect.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by PBGC.

NOTE H - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 26, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the tax determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

M & M RESTAURANT SUPPLY - PENNSYLVANIA DEFINED BENEFIT PENSION PLAN

Notes to Financial Statements December 31, 2012 and 2011

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements. Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2012 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE J - MUTUAL FUND FEES

Investments in mutual funds (registered investment companies) are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds and are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 14, 2013, which is the date the financial statements were available to be issued.

(continued)

Future Credited Service:	Since the plan was frozen effective December 31, 2008, no future service is assumed to be earned.
Spouses (marital status):	80% of non-retired participants are assumed to be married to an eligible spouse. Husbands are assumed to be three years older than their wives.
Form of Payment:	80% of participants elect the lump sum payment and 20% elect the life annuity.
Lump Sums:	Lump sums are calculated using segment rates and the IRS 2012 Applicable Mortality Table.
Participants Included in Valuation:	All eligible Participants.
Expenses:	The prior year's expenses, adjusted for PBGC premiums, rounded up to the next \$1,000. For 2012, equal to \$14,000; included in target normal cost.
Maximum Benefit Limitation:	Plan benefits have been restricted to the maximum dollar limit permitted under the Tax Reform Act of 1986. This limit is a \$195,000 annual annuity payable beginning at age 62 with no reduction for a qualified joint and survivor annuity.
Actuarial Valuation Method:	The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of the benefit accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusted for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments made within five years of the valuation date are discounted using the first segment rate, payments made at least five but within twenty years of the valuation date are discounted using the second segment rate, and payments made at least twenty years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.

Asset Method:

The actuarial assets are determined by a three-point averaging method, averaging the following adjusted asset values:

1. Market value as of January 1, 2010, advanced to the valuation date with 2010 and 2011 benefit payments, expenses, contributions and expected returns.
2. Market value as of January 1, 2011, advanced to the valuation date with 2011 benefit payments, expenses, contributions and expected return.
3. Market value as of January 1, 2012.

Discounted contributions made after the valuation date are included in all adjusted asset figures. The expected rate of return is 7.00%, or the third segment rate for the year if lower. The averaged assets are further adjusted so that the final actuarial assets are no more than 110% and no less than 90% of market value.

Changes since the Prior Valuation:

The funding target interest rates for Minimum Funding are the segment rates using a four-month lookback, adjusted by Map-21 corridor. The segment rate changes are as follows: from 3.78% to 5.54% for the first five years, from 6.31% to 6.85% for the next 15 years, from 6.57% to 7.52% for all years thereafter.

The funding target interest rates for Maximum Funding are the segment rates using a four-month lookback. The segment rate changes are as follows: from 3.78% to 2.06% for the first five years, from 6.31% to 5.25% for the next 15 years, from 6.57% to 6.32% for all years thereafter.

The mortality table was updated from the IRS 2011 Static Mortality Table to the IRS 2012 Static Mortality Table.

The mortality table used for lump sums was updated from the IRS 2011 Applicable Mortality Table to the IRS 2012 Applicable Mortality Table.

(continued)

Future Credited Service:	Since the plan was frozen effective December 31, 2008, no future service is assumed to be earned.
Spouses (marital status):	80% of non-retired participants are assumed to be married to an eligible spouse. Husbands are assumed to be three years older than their wives.
Form of Payment:	80% of participants elect the lump sum payment and 20% elect the life annuity.
Lump Sums:	Lump sums are calculated using segment rates and the IRS 2012 Applicable Mortality Table.
Participants Included in Valuation:	All eligible Participants.
Expenses:	The prior year's expenses, adjusted for PBGC premiums, rounded up to the next \$1,000. For 2012, equal to \$14,000; included in target normal cost.
Maximum Benefit Limitation:	Plan benefits have been restricted to the maximum dollar limit permitted under the Tax Reform Act of 1986. This limit is a \$195,000 annual annuity payable beginning at age 62 with no reduction for a qualified joint and survivor annuity.
Actuarial Valuation Method:	The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of the benefit accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusted for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments made within five years of the valuation date are discounted using the first segment rate, payments made at least five but within twenty years of the valuation date are discounted using the second segment rate, and payments made at least twenty years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.

Asset Method:

The actuarial assets are determined by a three-point averaging method, averaging the following adjusted asset values:

1. Market value as of January 1, 2010, advanced to the valuation date with 2010 and 2011 benefit payments, expenses, contributions and expected returns.
2. Market value as of January 1, 2011, advanced to the valuation date with 2011 benefit payments, expenses, contributions and expected return.
3. Market value as of January 1, 2012.

Discounted contributions made after the valuation date are included in all adjusted asset figures. The expected rate of return is 7.00%, or the third segment rate for the year if lower. The averaged assets are further adjusted so that the final actuarial assets are no more than 110% and no less than 90% of market value.

Changes since the Prior Valuation:

The funding target interest rates for Minimum Funding are the segment rates using a four-month lookback, adjusted by Map-21 corridor. The segment rate changes are as follows: from 3.78% to 5.54% for the first five years, from 6.31% to 6.85% for the next 15 years, from 6.57% to 7.52% for all years thereafter.

The funding target interest rates for Maximum Funding are the segment rates using a four-month lookback. The segment rate changes are as follows: from 3.78% to 2.06% for the first five years, from 6.31% to 5.25% for the next 15 years, from 6.57% to 6.32% for all years thereafter.

The mortality table was updated from the IRS 2011 Static Mortality Table to the IRS 2012 Static Mortality Table.

The mortality table used for lump sums was updated from the IRS 2011 Applicable Mortality Table to the IRS 2012 Applicable Mortality Table.
