Rochester Precision Optics 401(k) Plan

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The following description of the Rochester Precision Optics 401(k) Plan (Plan) provides only general information. Participants should refer to the Summary Plan Description and the Plan document for a more complete description of the Plan's provisions.

General

The Plan, established March 10, 2006, is a defined contribution plan covering all eligible employees of Rochester Precision Optics (the Company) who are age 21 and have met the service requirements of 60 days of service for deferrals and one year of service to participate in the matching contribution. Employees are eligible to participate in the Plan on the last day of each month following 60 days of service. The employee is eligible to participate in matching and non-elective employer contributions the first day of each plan year quarter after completion of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and Funding

Each year, participants may contribute up to 100% of their respective pretax annual compensation, subject to limitations established by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Plan is a safe harbor 401(k) Plan. The Company matching contribution is equal to 100% of the employee contributions that are not in excess of 4% of eligible compensation, as defined in the Plan.

The Company may also make an additional discretionary profit sharing contribution to eligible participants. No discretionary profit sharing amounts were contributed in 2012 or 2011.

Participants Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution, Plan earnings (losses), and charged with applicable loan and/or withdrawal charges. Allocations are based on participant salary deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions, the safe harbor matching contribution, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 20% vested after two years of credited service, 40% after three years, 60% after four years, 80% after five years, and is 100% vested after the completion of six or more years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Only one loan per participant is allowed to be outstanding at any time. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate equal to 2% above the prime rate. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service, or upon death, disability or retirement, a participant may receive a lump-sum or installment amounts equal to the vested value of his or her account.

Forfeited Accounts

Participants who leave the employment of the Company forfeit the non-vested portion of their accounts. Forfeitures are used to offset future Company contributions to the Plan. At December 31, 2012 and 2011, forfeitures available totaled $-0- and $-0-, respectively. Forfeitures used to reduce employer contributions during the years ended December 31, 2012 and 2011 amounted to $-0- and $-0-, respectively.

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

As described in Financial Accounting Standards Board Accounting Standards Codification Topic 946-210-45, *Other Presentation Matters – Fully Benefit-Responsive Investment Contracts (FSP)*, investments held by a defined contribution plan are required to be reported at fair value (Federated Capital Preservation Fund). However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The fair value of participation units owned by the Plan in the collective investment fund (Federated Capital Preservation Fund) is based on the fair value of the underlying investments. The NAV, as provided to the trustee by Federated, is used as a practical expedient. Participant transactions (purchased and sales) may occur daily. Mutual funds are valued at the net asset value of shares held by the Plan at year-end. The mutual funds held by the Plan are deemed to be actively traded.

2. Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The FSP defines the circumstances in which an investment contract is considered fully benefit-responsive and provides certain reporting and disclosure requirements for fully benefit-responsive investment contracts held by defined contribution health and welfare and pension plans. As required by the FSP, the Federated Capital Preservation Fund which holds fully benefit-responsive investment contracts is reported at fair value in the Plan's statement of net assets available for benefits, with a corresponding adjustment to reflect such investment at contract value at December 31, 2012 and 2011. The Company is required to provide a twelve month notice in the event the Plan exits this investment. The average yield, of this fund, was approximately 1.73% and 1.29% in 2012 and 2011, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, certain management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

2. Summary of Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs,* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurement,* to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Reclassifications

Certain 2011 financial statement amounts have been reclassified to conform to 2012 financial statement presentation.

3. Investments

All investment information disclosed in the accompanying financial statements and schedule, including investments held at December 31, 2012 and 2011, and net appreciation (depreciation) in fair value of mutual funds, interest income and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

4. Fair Value Measurements

ASC 820, "Fair Value Measurements" (ASC 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 Inputs are quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

4. Fair Value Measurements (continued)

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

There have been no changes in the valuation methodologies (Note 2) used at December 31, 2012 and 2011.

The following table sets forth by level within the fair value hierarchy the Plan's investment assets and liabilities, if any, as of December 31, 2012.

	Level 1	Level 2	Level 3
Mutual funds:			
Mid cap investments	**$ 1,385,242**	**$**	**$**

5. Risks and Uncertainties

The Plan and its participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes that it is no longer subject to income tax examinations for years prior to 2009.

7. Parties-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and the management of investments held by the trustee are considered party-in-interest transactions.

8. Subsequent Events

The Company has evaluated all subsequent events through October 11, 2013, the date the financial statements were available to be issued. During this period, there have been no material events that would require recognition in the financial statements or disclosures to the financial statements.
