Independent Auditor's Report

To the Trustees
Independent Bankers Financial Corporation Employee Savings Plan
Irving, Texas

Report on the Financial Statements
We have audited the accompanying financial statements of Independent Bankers Financial Corporation Employee Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, the related statement of changes in net assets available for benefits for the year ended December 31, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012, in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Report on Supplementary Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, line 4(i) – schedule of assets (held at end of year), is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Note 1. Description of Plan

The following description of the Independent Bankers Financial Corporation Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement and any plan amendments for a more complete description of the Plan's provisions.

General: This Plan is a defined contribution plan established for the benefit of the employees of Independent Bankers Financial Corporation (the Company). The Plan and the trust of which it is a part are intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees who are at least 18 years of age become eligible for participation at their hire date with plan entry dates at January 1 and July 1, as defined by the Plan. Prior to March 1, 2008, there was not a minimum age requirement for participation in the Plan.

Contributions: Each year, participants may make salary deferral contributions in whole percentages up to 80% of pretax annual compensation, as defined in the Plan and subject to certain maximum limitations imposed by the IRC ($17,000 for 2012). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($5,500 for 2012). Participants may roll over amounts representing distributions from other qualified defined benefit or contribution plans.

The Company makes matching contributions equal to 100% of participant deferrals up to 5% of eligible compensation. The Company may make discretionary contributions to the Plan as determined by the Company's Board of Directors. For the year ended December 31, 2012, the Company made matching contributions of $1,013,830 and no discretionary contributions.

Participant accounts: Each participant's account is credited with the participant's salary deferral contributions, rollover contributions, the Company's matching contributions, and allocations of (a) discretionary contributions and (b) plan earnings and expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Vesting: Participants are immediately vested in their salary deferral contributions and investment earnings. Due to the safe harbor provisions incorporated into the Plan, effective January 1, 2008, the Plan was amended to allow active participants to become immediately vested in employer matching contributions plus actual earnings thereon. Participants that were terminated prior to January 1, 2008, will still follow the prior vesting schedule. Prior to January 1, 2008, Company contributions vested to participants based on years of continuous service as indicated in the following schedule:

Years of Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Investment options: Participants must direct their salary deferral contributions to selected investments as made available and determined by the Plan Sponsor. The Plan currently offers mutual funds, a money market fund, certificates of deposit, and a self-directed brokerage account as investment options for participants. Participants may change their investment options any time throughout the year via internet or direct phone access to 401(k) Plus, the third party administrator.

Forfeitures: Participants who take distributions of their vested interest in the Plan forfeit the balances of their employer matching and discretionary contributions to the extent the participants are not vested in such amounts. Amounts that are forfeited by the participants during the plan year may be applied to future employer contributions.

There were no forfeitures of nonvested balances during 2012, and there were no remaining forfeiture balances as of December 31, 2012 and 2011.

Payment of benefits: Upon retirement, death, disability, or termination of employment, a participant (or the participant's designated beneficiary, if applicable) may elect to receive a lump sum payment, as specified in the Plan document. The Plan allows participants to make hardship withdrawals, subject to certain limitations, as defined in the Plan document.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The $50,000 maximum amount is reduced by the participant's highest outstanding loan balance in the previous twelve months, even if the amounts have been repaid. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Sponsor. Prior to July 1, 2012, this interest rate was set at 8.5%. Effective July 1, 2012, the loan policy was amended such that all loans granted or renewed on or after July 1, 2012 will bear interest at the prime rate of interest published by the Federal Reserve Board, plus 2 percent. The interest rate on outstanding participant loans ranged from 5.25% to 8.50% at December 31, 2012. Principal and interest are paid ratably through monthly payroll deductions, and loans are due in various amounts through November 2027. A participant may have up to two loans outstanding at any one time.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

Income taxes: Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2009.

Subsequent events: The Plan Administrator has evaluated events or transactions for potential recognition or disclosure through October 11, 2013, the date on which the financial statements were available to be issued.

Note 3. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money market fund: Valued at cost, which approximates fair value. Accordingly, the fair value of these assets is established using Level 1 inputs.

Mutual funds: Valued at the quoted market prices in the active market in which the mutual funds are traded. Accordingly, the fair value of these assets is established using Level 1 inputs.

Self-directed brokerage accounts: Self-directed brokerage accounts include investments in money market accounts, mutual funds, and common stock. The fair value of mutual funds and money market funds held in brokerage accounts is determined as described above. The fair value of common stocks included in brokerage accounts is valued at the closing price reported on the active market on which the individual securities are traded. Accordingly, the fair value of these assets is established using Level 1 inputs.

Certificates of deposit: Valued using a discounted cash flow calculation based on current yields of similar certificates of deposit with comparable maturities. Accordingly, the fair value of these assets is established using Level 2 inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

*Investment represents more than 5% of the Plan's net assets.

Changes in fair value: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, there were no transfers in or out of Level 3.

Note 4. Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. However, such officers and employees receive no compensation from the Plan. The monthly maintenance expenses from 401(k) Plus and Fidelity are paid directly by the Company. The Plan Sponsor and the Plan participants share in the remaining Plan expenses. Certain Plan expenses, such as transaction fees from receiving a loan, withdrawal, or distribution from the Plan, are deducted from participants' accounts or investment income. The remaining administrative fees and commissions of the Plan are paid by the Plan Sponsor.

Note 5. Parties-In-Interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer and certain others. The Plan's mutual fund investments are held by Fidelity and managed by Reliance Trust Company (Reliance). Reliance invests contributions received and investment income as directed by the participants in the investment funds defined by the Plan. As such, transactions conducted with the Company, Fidelity and Reliance qualify as party-in-interest transactions.

Note 6. Tax Status

The Plan has adopted a volume submitter profit sharing plan sponsored by 401(k) Plus. The volume submitter plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, all participants would become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

Note 8. Risk and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2012 and 2011:
