LEGACY HOME HEALTH, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

Note 1: Plan Description

The following brief description of the Legacy Home Health, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering employees of Legacy Home Health, Inc. (the Company) who have completed one full year of continuous service with the Company It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute 100% of their compensation to the Plan through payroll deductions. Participants direct the investment of their contributions into various investment options offered by the Plan, including a guaranteed investment contract fund, mutual funds, and money market funds. The Plan sponsor will determine the rate of matching contribution for each plan year. The Plan sponsor will contribute and allocate to each eligible participant's account based on a nondiscriminatory matching formula. The Plan sponsor elected to make matching contribution of 4 percent for 2012 and 2011. For any Plan year, the Plan sponsor may elect to make an additional discretionary matching contribution to the Plan. The Plan Sponsor elected no discretionary match for 2012 and 2011. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the employer's contributions, and Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings on these contributions. Vesting in the Company's matching contribution portion of their account plus actual earnings thereon is based on years of service. Participants vest 20% per year of service and are 100% vested after five years of service.

Note 1: Plan Description - continued

Reclassifications

Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation.

Participant Loans

Participants may borrow up to the lesser of $50,000 or 50% of the vested portion of their account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25% rate, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions generally not to exceed five years.

Participants may elect to receive a distribution in the event of a hardship. A hardship withdrawal is limited to the amount required to meet the immediate and heavy financial need created by the hardship. The distribution is taxable to the participant and will reduce the value of the benefits expected to be received at retirement.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum or rollover distribution.

Forfeited Accounts

There were no forfeitures for 2012 and 2011. Forfeitures are allocated to the participant's account based on participant account balances, as defined in the Plan agreement.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets available for Benefits is prepared on a contract value basis.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Note 2: Summary of Significant Accounting Policies - continued

Custodian's Certification

The information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Date of Management's Review

Subsequent events were evaluated through October 11, 2013, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Note 3: Fair Value Measurements – continued

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is measured using an income approach based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer and declared interest rates of 3% for 2012 and 2011.

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer and the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012 and 2011:

		Fair Value Measurements at Reporting Date Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2012			
Investment contact with insurance company	$ 311,862	$ -	$ 311,862
Mutual funds	688,308	688,308	-
Total asset at fair value	$ 1,000,170	$ 688,308	$ 311,862
December 31, 2011			
Investment contact with insurance company	$ 226,300	$ -	$ 226,300
Mutual funds	476,068	476,068	-
Total asset at fair value	$ 702,368	$ 476,068	$ 226,300

Note 3: Fair Value Measurements - continued

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the guaranteed investment contract with insurance company for the years ended December 31, 2012 and 2011:

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Investment Contract
December 31, 2012	
Beginning Balance	$ 226,300
Purchases, sales, issuances, and settlements (net)	85,562
Ending balance	$ 311,862
December 31, 2011	
Beginning Balance	$ 123,625
Purchases, sales, issuances, and settlements (net)	102,675
Ending balance	$ 226,300

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2012 and 2011 are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2012 and 2011, there were no significant transfers into or out of Level 3.

Note 4: Investments

The following presents investments at December 31, 2012 and 2011 that represent 5% or more of the Plan's net assets:

	2012	2011
Investments at fair value:		
Mutual funds		
Hartford Total Return Bond	$ 69,823	$ 50,682

During 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $74,154 and $(7,642), respectively, as follows:

	2012	2011
Mutual funds	$ 74,154	$ (7,642)

Note 5: Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian. The information certified includes total investments of $1,030,203 and $728,401 at December 31, 2012 and 2011, respectively, and related investment income (loss) of $74,154 and $(7,642) for the years ended December 31, 2012 and 2011, respectively.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions under ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7: Tax Status

The Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and is, therefore, exempt from federal income taxes as provided by Section 501(a) of the Code. A favorable determination letter has been received by the trustee from the Internal Revenue Service regarding the tax-exempt status of the adopted prototype plan. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 8: Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Related Party Transactions

Fees paid by the Plan for certain investment, accounting, and administrative services amounted to $602 and $883 for the years ended December 31, 2012 and 2011, respectively.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 10: Investment Contract with Insurance Company

In 2004, the Plan entered into a benefit-responsive guaranteed investment contract with Hartford Life Insurance Company (Hartford). Hartford maintains the contributions in a general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits.

Contract value, as reported to the Plan by Hartford, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 10: Investment Contract with Insurance Company - continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2012 and 2011, was $311,862 and $226,300, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Hartford. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 11: Excess Contributions

As a result of the anti-discrimination testing of the Plan, 2012 and 2011 excess contributions of $5,500 and $0, respectively, will be refunded to highly compensated employees during 2012 and 2011.
