Notes to Financial Statements

## 1. Description of Plan

### General

The National Automobile Dealers Association (NADA) represents nearly 16,000 new car and truck dealers, both import and domestic, with more than 29,000 separate franchises. NADA membership is open to any new-automobile or new-truck dealership holding a new automobile or truck sales and service franchise. NADA Retirement Administrators Inc. dba NADART, an affiliate of NADA, provides and administers 401(k), pension and profit sharing plans for NADA members, non-members, and their employees. NADART sponsors a Master Plan, consisting of the basic plan document and the adoption agreement, which outlines the rules and provisions of the retirement plan adopted by the Employer. Employers establish the Plan by executing an adoption agreement (Plan Agreement).

The following description of the Plan provides only general information. Participants should refer to the plan document and/or the Summary Plan Description for a more complete description of the Plan's provisions.

The Kahlig Enterprises, Inc. dba Bluebonnet Motors 401(k) Plan (formerly Kahlig Enterprises, Inc. dba Bluebonnet Motors NADART Salary Deferral 401(k) Plan) (the Plan) was established to provide retirement benefits for employees of Kahlig Enterprises, Inc. dba Bluebonnet Motors (the Employer). Employees become eligible to participate in the Plan following one year of service, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

### Contributions

Participant contributions consist of pre-tax elective deferrals and after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code (IRC) in effect at the beginning of the year. Employer contributions include discretionary contributions and discretionary matching contributions. Contributions are subject to certain limitations.

The Plan has an automatic enrollment feature that provides that newly eligible employees that do not affirmatively elect to contribute or not to contribute to the Plan will be automatically enrolled in the plan at a deferral rate of 3%.

Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants. Employer discretionary matching contributions made

to the Plan are allocated as of the last day of the Plan year. An allocation is made to each participant who is employed with the Employer on the last day of the Plan year based on the first $6,000 of salary deferrals made by the participant during the Plan year.

**Participant Accounts and Vesting**

Each participant's account is credited with the participant's contributions, the Employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses (see Note 5) are allocated according to participants' relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts.

Participants are immediately vested in their contributions plus actual earnings thereon. That portion of the participant's account attributable to employer contributions is fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Agreement. Participant accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan Agreement, or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments or elected to defer receipt of their benefit to a later date. The accounts of these separated, vested and retired participants, which were previously referred to as Installment/Deferred accounts, are now referred to as Encore accounts in 2012. These participants share in the earnings and investment expenses of the investments.

**Forfeitures**

At December 31, 2012 and 2011, forfeited nonvested accounts totaled $119 and $1,027, respectively. Forfeitures are reallocated to participants in the same manner as an employer discretionary matching contribution. In 2012, $1,027 was reallocated to participants.

**Distributions to Participants**

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or, if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is not less than $5,000. However, the Plan Agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 ½.

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon. Participants can elect to withdraw after-tax contributions at any time.

**Excess Contributions**

NADART distributes excess contributions in accordance with IRC sections 401(m) and 401(k).

**Notes Receivable from Participants**

Participants may borrow from their accounts the lesser of one-half of their vested account balance or $50,000, reduced by the participant's highest outstanding loan balance during the last twelve months. The minimum loan available is $1,000. Loan terms range from one to five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. Interest rates on the participant loans are set at the prime rate in effect on the first day of the quarter in which the loan is made plus one percent (4.25% at December 31, 2012 and 2011). The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Master Plan.

**Plan Termination**

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, each respective participant's interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the Master Plan.

## 2. Basis of Accounting, Investments, and Investment Valuation

The accompanying financial statements are prepared under the accrual method of accounting. Prior to June 30, 2012, participants could invest in any of 31 bank common/collective trusts. On June 30, 2012, all existing fund names were changed by the Trustee by adding "CIT" to the fund name, and the trusts are now referred to as collective investment trusts (CIT). Also on this day, the Plan assets in the Gabelli Small Cap Growth Fund were liquidated and the proceeds invested in the Goldman Sachs Small Cap Value CIT. Also, the Plan assets in the Longleaf Partners Fund were liquidated and the proceeds were invested in the Waddell & Reed Core Equity CIT. All funds consist of institutional share accounts and are collective investment trusts. As of December 31, 2012, the investment options available to Plan participants consisted of 30 collective investment trusts.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The collective investment trusts are valued using the net asset value (NAV) provided by Cardinal Bank, the Trustee of the Plan. The NAV for most CITs is quoted on a private market that is not active; however, the unit price is based on the quoted market prices of the underlying investments which are traded on an active market.

The Income Fund CIT is the only CIT that contains synthetic guaranteed investment contracts (GIC). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account is valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

The Trustee has certified as to the completeness and accuracy of all investment balances and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, all of the investment activity and interest income from notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012, and all investment information in the supplemental schedule, which is summarized as follows:

| | **2012** | 2011 |
|---|---|---|
| Investments, at fair value | **$ 5,856,771** | $ 4,833,811 |
| Adjustment to contract value for Income Fund CIT | **(82,724)** | (58,066) |
| Notes receivable from participants | **382,264** | 486,809 |
| Net appreciation in fair value of investments | **545,254** | |
| Interest | **306** | |
| Interest income from notes receivable from participants | **18,123** | |

**Net Appreciation**

For the year ended December 31, 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

| | |
|---|---|
| Fair value as determined by the Trustee: | |
| Collective investment trusts | $ 545,254 |

**Significant Investments**

The following investments represented 5% or more of the Plan's net assets as of December 31, 2012 and 2011:

| | 2012 | 2011 |
|---|---|---|
| NADART Fund CIT | **$ 2,126,552** | $ 1,669,660 |
| Income Fund CIT, at contract value | **989,237** | 861,912 |
| S&P 400 Mid Cap Fund CIT | **440,594** | 325,430 |
| S&P 500 Large Cap Fund CIT | **321,973** | * |
| PIMCO Total Return Fund CIT | **316,388** | 358,145 |

* Represents less than 5% of net assets at this date.

**Adjustment to Contract Value for Income Fund CIT**

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund CIT investment held by the Plan contains underlying fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011 present the fair value of the Income Fund CIT as well as the adjustment of the Income Fund CIT from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

## 3. Fair Value Measurements

The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value of investments measured under this hierarchy as of December 31, 2012 and 2011 is as follows:

| | Fair Value Measurements as of December 31, 2012 Using | | | |

Certain 2011 balances have been reclassified to conform with the 2012 presentation.

The investment objective of the international and stock funds is the long term growth of capital. Bond and capital preservation funds seek to maximize the return on investment. Balanced and target date funds seek a mix of growth of capital and reinvestment of income.

Investments in all CITs can be redeemed immediately at the current NAV based on the fair value of the underlying assets. There are no withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2012 and 2011.

## 4. Tax Status

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on March 31, 2008. Each plan adopting a NADART master prototype plan document has been restated to reflect the EGTRRA plan changes. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype plan. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

The Plan administrator evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions.

## 5. Investment and Administrative Expenses

Investment management fees are charged to participants based on their investment elections. In addition, all bank collective investment trusts return to NADART a fee for recordkeeping services, calculated based on invested assets, as outlined in the service agreement between the Employer and NADART. These fees are reflected in the net appreciation in fair value of investments in the accompanying financial statements.

Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Employer. Certain Plan investments consist of investments managed by affiliates of Cardinal Bank. Cardinal Bank is the discretionary trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions.

## 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect

participants' account balances and the amounts reported in future Statements of Net Assets Available for Benefits.

Effective March 1, 2013, NADART elected to change the Plan's discretionary trustee to Global Trust Company (GTC). GTC has engaged State Street Bank and Trust Company as the Plan's custodian, also effective March 1, 2013. Assets were transferred from Cardinal Bank to GTC on March 1, 2013.
