SUHOR INDUSTRIES, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

1. SUMMARY PLAN DESCRIPTION

The following description of Suhor Industries, Inc. 401(K) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan is a defined contribution 401(k) plan available to qualifying employees of the Suhor Industries, Inc. Employees not in an excluded class will be eligible to participate once the employee completes three months of service; however, the entry date for beginning participation is the first day of the Plan Year and the first day of the fourth, seventh, and tenth months of the Plan Year coinciding with or next following the date you satisfy the eligibility conditions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions – Participants may contribute in one percent increments up to 100% of their gross annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan in accordance with the provisions of Section 401(k) of the Internal Revenue Code (the “Code”). The plan has an automatic enrollment feature, employees will be notified approximately 30 days prior to when your Employer will begin to automatically deduct 3% from your pay on a pre-tax basis as a Deferral Contribution for you to the Plan. Employees become eligible for employer matching contributions only if you make deferral contributions.

Participant Accounts – Each participant’s account is credited with the participant’s salary deferral contributions and the Company’s matching and profit sharing contributions. Allocations are based on participant elective deferrals or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account balance, less any loans outstanding.

Vesting – Participants are fully vested in their own contributions to the Plan, plus any earnings thereon. Participants become vested in benefits provided by the Company contributions, plus earnings thereon, based on years of services in accordance with the following vesting schedule.

<u>Years of Service</u>	<u>Percentage of Account Vested</u>
Less than 2 years	0%
More than 2 years	25%
More than 3 years	50%
More than 4 years	75%
More than 5 years	100%

Upon termination from employment by the Company, a participant’s non-vested portion of Company contributions and earnings is considered forfeiture and is used to reduce future Company contributions to the Plan.

Participant Loans – The Plan allows participants to borrow against their accounts, participants may have one outstanding loan at any given time. The minimum loan is \$1,000 and the maximum amount is the lesser of one-half of your vested account balance or \$50,000 reduced by the highest outstanding loan balance in your Account during the prior twelve month period. All of your loans from plans maintained by your Employer or a Related Employer will be considered for purposes of determining the maximum amount of your loan. Up to 50% of your vested account balance may be used as collateral for any loan. Each participant is allowed two loans at any given time. At December 31, 2012, there were participant loans outstanding of \$354,655, respectively, bearing interest at rates ranging from 4.25% to 10.25% and maturing ranging from February 2013 to May 2021.

SUHOR INDUSTRIES, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

1. SUMMARY PLAN DESCRIPTION (Continued)

Administrative Expenses – Trustee’s fees are billed directly to the Company, with the Trustee reserving the right to charge the fees and expenses directly to the Trust fund if not paid promptly by the Company.

Processing fees for participant loans are charged to individual plan participants and deducted from individual plan participant balances as incurred. These expenses affect plan net assets and are reflected in the accompanying financial statements.

Payment of Benefits – Upon termination of service due to death or if a participant dies after their retirement or disability, but before receiving the value of their Plan account balance, the participant’s beneficiary shall receive a lump-sum distribution in cash or in-kind, in the form of various annuity contracts, or any combination thereof.

Upon termination of service other than due to death for participants with a Plan account balance of more than \$5,000, the account balance may not be distributed prior to the participant’s 65th birthday or normal retirement date unless the participant consents to the distribution. Employees choosing to defer distribution continue to participate in investment gains and losses, but are no longer eligible for matching contributions by the Company. If the participant’s vested Plan account balance does not exceed \$5,000, the account balance may be distributed by the Plan Sponsor without the participant’s consent. Participant balances may be distributed as a lump-sum payment in cash or in-kind, in the form of various annuity contracts, or any combination thereof.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan is accounted for on the accrual basis of accounting.

Use of Estimates – The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan’s management to make certain estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investments – The Plan investments are stated at fair market value based on quoted market prices.

Realized and Unrealized Gain on Investments – The realized gain or loss on investments represents the difference between the proceeds at the transaction date and the cost or recorded value of the investment. Unrealized gains or losses on investments represent the net change at year-end between current value and the recorded value of the investments at the time of purchase or the beginning of the year, whichever is later.

Risks and Uncertainties – The Plan provides for various investment options in any combination of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amounts reported in the statements of net assets available for Plan benefits and the statement of changes in net assets available for Plan benefits.

Payments of Benefits – Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

3. INCOME TAX STATUS

The prototype document used by the Plan obtained a determination letter dated August 7, 2001. The Plan has been amended since receiving this determination letter; however, the Company and plan administrator believe that the Plan is currently designed in compliance with the applicable requirements of the Internal Revenue Code and operated in a manner that would not result in a disqualification of its tax status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

4. FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS No. 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under SFAS No. 157 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investments at Fair Value as of December 31, 2012
