Report on the Financial Statements

We were engaged to audit the accompanying financial statements of FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule appearing on pages 14 to 15, as of December 31, 2012 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
December 31, 2012

Note 1 – Description of Plan

The following brief description of the FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established effective January 1, 1967 and most recently, amended effective January 1, 2011. The Plan uses a prototype plan designed by Prudential Retirement Insurance Company of America. Non-union, non-leased employees of FUJIFILM Medical Systems U.S.A., Inc. (the “Company”) become eligible to participate immediately upon entry on their employment commencement date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Prior to January 1, 2011 the Plan was solely a profit sharing plan with no employee contributions allowed. Effective January 1, 2011 the participants may contribute a pre-tax amount equal to not less than 1 percent nor more than 65 percent, of their compensation for the contribution period. The Plan includes an automatic deferral feature for eligible new employees whereby 3% of their compensation will be withheld and contributed to the Plan unless a contrary election is made. In addition, participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan or into self directed brokerage accounts. The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount based on the participants elective deferral. The Board of Directors of the Company determines the amount of the profit sharing contribution annually. This contribution is allocated based on eligible compensation to those participants who have satisfied the annual allocation requirements. The allocation is integrated with social security. Contributions to “highly compensated employees,” as defined by the Plan, may not exceed 10% of eligible compensation. In order to receive an allocation of the profit sharing contribution for the Plan year, participants must be employed on the last day of the Plan year, and complete 1,000 hours of service during the Plan year. Contributions are subject to certain Internal Revenue Service limitations.

Participants’ Accounts

Each participant’s account is credited with the participant’s contribution, as well as an allocation of (a) the Company’s discretionary contribution, (b) plan earnings, and (c) forfeitures of terminated participant’s non-vested accounts and charged with an allocation of plan losses and administrative expenses. Earnings are allocated by fund based on the ratio of a participant’s account invested in a particular fund to all participants’ investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their voluntary and rollover contributions plus actual earnings thereon. The balance of vesting in the participants’ accounts is based on credited years of service. A participant becomes 25 percent vested after two years of service, 50 percent vested after three years of service, 75 percent after four years of service and 100 percent vested after five years of service. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant’s account becomes 100 percent vested.

Note 1 – Description of Plan (continued)

Forfeited Accounts

Forfeitures of non-vested benefits are reallocated to participants. At December 31, 2012 and 2011, forfeited non-vested accounts totaled \$211,911 and \$120,441, respectively. For the years ended December 31, 2012 and 2011, \$83,595 and \$2,315,457, respectively, were reallocated to participants.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant will also receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the plan are recorded as deductions in the accompanying statements in net assets available for benefits. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 2 – Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Basis of Presentation

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the generally accepted accounting principles, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities reported at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Note 2 – Summary of Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through September 30, 2013, the date the financial statements were available to be issued.

Note 3 – Investments

Other than the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments disclosed in the accompanying financial statement and supplemental schedule, including investments held at December 31, 2012 and 2011, and net appreciation (depreciation) in the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by The Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B. (the trustees of the plan). The contract value of the stable value fund was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2012 and 2011.

Investments that represent 5 percent or more of the Plan's net assets are separately identified below.

Note 4 – Fair Value Measurements

The framework for measuring fair value establishes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate accounts: Valued at fair value based on the current market values of the underlying assets of the fund.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Fund: The value of the fund is based on the plan's pro-rata share of the pooled separate account at year end. The pooled separate account is not available in an exchange and active market, however, the fair market value is determined based on the pro-rata share of the underlying investments in the pooled separate account.

Self-directed: Consists of interest bearing cash, common stocks, and mutual funds. The common stocks are valued at the closing price reported in the active market in which the individual securities are traded. The mutual funds are valued at the NAV of shares held by the Plan at year end.

Note 4 – Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's recurring investments at fair value as of December 31, 2012 and 2011:

Note 5 – Valuation of Stable Value Fund

The Plan entered into a fully benefit-responsive investment contract with Prudential Retirement Insurance and Annuity Company. Prudential Retirement Insurance and Annuity Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The stable value fund issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the stable value fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Prudential Retirement Insurance and Annuity Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

FUJIFILM Medical Systems U.S.A., Inc. Profit Sharing Plan
Notes to Financial Statements
December 31, 2012

Note 5 – Valuation of Stable Value Fund (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly or semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	<u>2012</u>	<u>2011</u>
Based on actual earnings	1.96%	2.70%
Based on interest rate credited to participants	3.41%	3.57%

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

Note 7 – Tax Status

The Company adopted a Prudential Insurance Company of America Prototype Plan which received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2008, which states that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

Note 9 – Related Party Transactions

The investments owned by the Plan are managed by Prudential Retirement Insurance and Annuity Company and Prudential Bank & Trust, F.S.B., the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid by revenue sharing, rather than direct payment. As described in Note 1, the Plan made direct payments to the third party administrator of \$19,181 and \$19,700 for the years ended December 31, 2012 and 2011 respectively; which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 – Reclassifications

Certain amounts in the prior year presented have been reclassified to conform to the current period financial statement presentation. These reclassifications have no effect on previously reported net increase in net assets available for benefits.

Note 12 – Transfers to/from Affiliated Plans

In 2012 and 2011 certain participants and their related plan assets were transferred to and from affiliates of the Company.

Note 13 – Reconciliation of Financial Statements to Form 5500
