1. Description of the Plan

The following description of the Rubio's Restaurants, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) salary deferral and profit-sharing plan covering substantially all employees of Rubio's Restaurants, Inc. (the "Company") and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company is the Plan's sponsor and serves as plan administrator.

Prior to January 4, 2012, the Plan utilized Capital Bank & Trust, as the Plan's former Custodian. On January 4, 2012 the Plan transferred all of the net assets available for benefits to ING National Trust as the Plan's Trustee. The Trustee offers the participants numerous investment options.

Upon enrollment in the Plan, a participant may direct contributions into any of the investments made available by the Trustee. Participants may change their investment options on a daily basis, directly with the Trustee.

Plan Amendment

On January 1, 2007, the Plan was amended to revise the definition of compensation to be based on Safe Harbor Compensation (section 415 of the Internal Revenue Code ("IRC)), rather than W-2 wages.

Eligibility

Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing one year of service in which at least 1,000 hours are worked.

Contributions

Participants may elect to contribute up to 100 percent of eligible compensation, as defined, to the Plan each year, subject to an annual maximum as established by Internal Revenue Service ("IRS") regulations ($17,000 in 2012). Participants age fifty years or over can make catch-up contributions in addition to the above, up to the maximum amount allowed by the IRS ($5,500 in 2012).

The Company may elect to make discretionary matching and profit-sharing contributions to the Plan. Participants must complete at least 1,000 hours of service during the Plan year and be employed as of the last day of the Plan year to be eligible to receive any profit-sharing contributions. Profit-sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit-sharing contributions for the year ended December 31, 2012. The Company matches 25 percent of employee contributions, up to 6 percent of eligible compensation deferred to the Plan.

Rollover Contributions

With the Company's approval, an eligible participant may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested in their salary deferrals plus actual earnings thereon. In general, vesting in Company contributions is based on years of service, as defined, with increases in increments of 20 percent per year until fully vested after five years.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, however, if the loan is for the purchase of a participant's principal residence, the plan administrator may permit a longer repayment term. Under the terms of the plan agreement, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2012, the rates of interest on outstanding loans ranged from 3.25 to 8.25 percent, with various maturities through September 2027.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's account balance or a systematic withdrawal arrangement. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will first be used to pay Plan administrative expenses, with any remaining amount used to reduce future Company contributions. As of December 31, 2012 and 2011, forfeited non-vested accounts totaled $6,157 and $5,504, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make certain estimates and assumptions that affect the reported amounts of assets and changes therein and the disclosure of contingent assets and liabilities. Actual results could materially differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets available for Plan Benefits.

The Plan invests in investment options that invest in securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, difference securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Recent Accounting Pronouncements

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2012, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of immediately effective amendments was not significant to the Plan's financials. The impact of adopting ASU 2012-04 on subsequent periods has not yet been determined.

Investment Valuation and Income Recognition

The Plan's investments have been stated at fair value as certified by ING National Trust ("ING") as of December 31, 2012 and Capital Bank & Trust ("CBT") as of December 31, 2011. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when earned.

Income Recognition: Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2012 and 2011, there were no benefit amounts that participants had elected to withdraw which had not been paid.

Administrative Expenses

The Company sponsors the Plan. Personnel within the Company perform various administrative services for the Plan. The Payroll and related overhead costs associated with these services are not included as Plan expenses. Most administrative expenses of the Plan are paid by the Company. Investment expenses incurred by the manager of the funds and directly related administrative expenses are deducted from the earnings of the Plan. Expenses paid by the Plan to the Trustee totaled $13,030 for the year ended December 31, 2012.

3. Investments Certified by the Trustee or Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, ING has certified that the following data included in the accompanying financial statements and supplemental schedule as of December 31, 2012 and for the period from January 4 to December 31, 2012 is complete and accurate. CBT has certified that the following data included in the accompanying financial statements as of December 31, 2011 and for the period from January 1 to January 3, 2012 is complete and accurate.

4. Fair Value Measurement

ASC Topic 820, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level Input	*Input Definition*
Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted process for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs or other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled separate account: Valued at the accumulation unit value (AUV) of the pooled separate account. The separate account is valued daily as the number of accumulation units held multiplied by the AUV. The AUV is first established when a new fund starts (typically beginning AUV is $10.00) and is then determined daily based on the net asset value of shares of the underlying fund, the fund's dividends and the contract's separate account charges.

Insurance company general account: The ING Fixed Account is credited with declared rates of interest and is subject to a minimum rate. Amounts allocated to the Fixed Account are held in ING's general account which supports insurance and annuity obligations. No portion of the general account is attributable to a particular plan nor do plans have any undivided ownership interest in general account assets. The risk of this investment would be ranked by ING's insurance rating as published by various sources. Under ASC Topic 825, *Financial Instruments*, and ASC Topic 962, *Fully Benefit Responsive Investment Contract*, this type of investment is considered as being fairly valued at contract value.

The following table discloses by level the fair value hierarchy of the Plan's assets at fair value as of December 31, 2012 and 2011:

5. Tax Status

The Plan adopted a prototype 401(k) profit sharing plan maintained by ING Life Insurance and Annuity Company. The Plan received its most recent determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter however, the Plan administrator believes that the Plan is still currently designed and being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no

uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, amounts allocated to a participant's account become fully vested.

7. Party-in-Interest Transactions

Plan investments include pooled separate accounts which invest in mutual funds managed by ING Mutual Funds, an affiliate of ING National Trust. ING National Trust is the trustee of the Plan and transactions with these entities qualify as exempt party-in-interest transactions. The Plan paid $13,030 in administrative fees for the year ended December 31, 2012.

8. Self Correction Program

The Plan has determined that certain eligible employees were excluded from the Plan during the year ended December 31, 2012 and intends to correct this error under the Self Correction Plan by remitting deferral payments and matching contributions in accordance with the requirements of Revenue Procedure 2006-27. Total payments to be made under the self correction program are not material. The Plan is working with the Trustee to modify the process of submitting employee hire information to ensure that employees are allowed entry into the plan according to the terms of the written plan.

9. Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 14, 2013, which is the date the financial statements were available to be issued.
