NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan:

The following description of AudienceScience, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan documents for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan for employees of AudienceScience, Inc. (the Company). The Plan was established effective January 1, 2001 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

Employees who are at least 21 years of age are eligible to participate in the Plan. Employees are admitted to the Plan beginning the first day of the month following attainment of eligibility requirements. Temporary employees and interns are excluded from participating in the Plan.

Plan administration:

The Plan is administered by the Company. The trustee of the Plan's investments is Fidelity Management Trust Company.

Contributions:

A participant may elect to have up to 60% of compensation contributed to the Plan and allocated to his or her account, up to the maximum dollar amount permitted by applicable law. The Plan allows for "catch-up" contributions for participants who are age 50 or older. Participants may also make rollover contributions from other qualified plans.

Effective January 1, 2012, the Plan was amended to allow the Company to make discretionary matching contributions on behalf of each eligible participant. The Company will match 50% of a participant's eligible contribution, excluding "catch-up" contributions, up to a maximum of 5% of the participant's compensation.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. Description of the Plan (continued):

Vesting:

Participants' contributions are 100% vested at all times. Participants become vested in their employer matching contributions based on their years of service, as follows:

Completed Years of Service	Percentage Vested
1 2	20% 40%
3	60%
4 5	80% 100%

Forfeitures:

Forfeitures are used first to pay the Plan's administrative expenses, with any excess applied to reduce future employer discretionary matching contributions. There were no unused portions of the forfeited nonvested accounts as of December 31, 2012. No forfeitures were used to pay administrative expenses in 2012.

Participant accounts:

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and employer contributions, plus the participant's share of the Plan's income and loss on those amounts. Participant accounts are valued daily based on quoted market prices.

Participants direct their account balances among the investment options provided under the Plan. Participants may change their investment elections and make transfers between investment options on a daily basis.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. Description of the Plan (continued):

Benefits:

On termination of service, participants or their beneficiaries may elect to receive either a lump-sum distribution equal to the value of the participant's vested account or installments over a period not to exceed the life expectancy of the participant or his or her beneficiary. Account balances of \$1,000 or less must be distributed in a lumpsum amount.

In the event of death or long-term disability of a participant before his or her retirement benefit commences, the participant becomes 100% vested in any unvested balances.

Hardship withdrawals:

While still employed by the Company, participants are permitted to withdraw a single lump-sum amount from the balance they have contributed under certain conditions. A participant's right to make deferrals to the Plan will be suspended for six months after the receipt of a hardship withdrawal.

Notes receivable from participants:

Participants generally may borrow up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the borrower's vested plan benefits, bear interest at a commercially reasonable rate, and may have terms ranging from one to five years. Principal and interest are paid through payroll deductions. Notes receivable from participants are measured at the outstanding principal amount plus accrued, but unpaid interest.

Retirement:

Normal retirement age is 60 years old.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. Description of the Plan (continued):

Plan termination:

The Company reserves the right to amend or terminate the Plan at any time subject to the provisions of ERISA. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements are prepared on the accrual basis of accounting. Benefits paid to participants are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and related disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is accrued when earned. Dividends are recorded on the ex-dividend date. Gains and losses (realized and unrealized) are reported in net appreciation (depreciation) in fair value of mutual funds.

Subsequent events:

The Plan has evaluated subsequent events through September 25, 2013, the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. Investments and fair value measurements:

The fair values of the mutual funds and the money market fund are based on quoted net asset values from active markets (level 1 measurements in the fair value hierarchy).

There have been no changes in the methods used to value investments as of December 31, 2012 and 2011. The fair values of the Plan's investments were as follows:

	Decem	ber 31,
	2012	2011
Mutual funds:		
Large cap funds	\$ 1,650,249	\$ 1,210,527
Target date funds	862,234	428,472
Mid cap funds	672,847	525,065
International funds	513,344	387,465
Fixed income funds	292,561	187,099
Real estate fund	180,717	93,719
Small cap funds	141,904	97,852
Money market fund	879,175	833,794
	\$ 5,193,031	\$ 3,763,993

The Plan's investments are exposed to various risks such as interest rate, market, credit and concentration risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the Plan's investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. Investments and fair value measurements (continued):

The following investments comprise five percent or more of the Plan's net assets available for benefits as of December 31:

	2012			2011	
Fidelity Retire Money Market	\$	879,175	\$	833,794	
Fidelity Diversified International		351,759		271,738	
Spartan Total Market Index		349,777		266,979	
Fidelity Growth Company		347,758			
Fidelity OTC Portfolio		286,738		245,927	

4. Tax status:

The Plan obtained its latest determination letter on October 9, 2003, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by departments of the federal government; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to tax examinations by tax authorities for years before 2009.

During 2011, the Company remitted certain participant contributions totaling \$13,643 after the time period prescribed by the Department of Labor. A delinquent remittance of participant contributions is considered to be a prohibited transaction.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

- Investments, at fair value
- Notes receivable from participants
- Investment and other income
- Schedule of assets held at end of year
- 6. Party-in-interest transactions:

The Company pays administrative expenses that are not paid by the Plan.

3. Investments and fair value measurements:

The fair values of the mutual funds and the money market fund are based on quoted net asset values from active markets (level 1 measurements in the fair value hierarchy).

There have been no changes in the methods used to value investments as of December 31, 2012 and 2011. The fair values of the Plan's investments were as follows:

	December 31,		
	2012	2011	
Mutual funds:			
Large cap funds	\$ 1,650,249	\$ 1,210,527	
Target date funds	862,234	428,472	
Mid cap funds	672,847	525,065	
International funds	513,344	387,465	
Fixed income funds	292,561	187,099	
Real estate fund	180,717	93,719	
Small cap funds	141,904	97,852	
Money market fund	879,175	833,794	
	\$ 5,193,031	\$ 3,763,993	

The Plan's investments are exposed to various risks such as interest rate, market, credit and concentration risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the Plan's investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

3. Investments and fair value measurements (continued):

The following investments comprise five percent or more of the Plan's net assets available for benefits as of December 31:

Spartan Total Market Index	349,777		266,979

4. Tax status:

The Plan obtained its latest determination letter on October 9, 2003, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that at December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by departments of the federal government; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to tax examinations by tax authorities for years before 2009.

During 2011, the Company remitted certain participant contributions totaling \$13,643 after the time period prescribed by the Department of Labor. A delinquent remittance of participant contributions is considered to be a prohibited transaction.
