Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Participants and Plan Administrator of
the LeTourneau Technologies, Inc. Retirement Income Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of LeTourneau Technologies, Inc. Retirement Income Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, and the related Statements of Changes in Net Assets Available for Benefits for the years then ended, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), Plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by JPMorgan Chase Bank, the trustee of the Plan (Trustee), except for comparing such information with the related information included in the financial statements. We have been informed by Plan management that the Trustee holds the Plan's investment assets and executes investment transactions. Plan management has obtained a certification from the Trustee as of December 31, 2012 and 2011 and for the years then ended, that the information provided to Plan management by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, has been audited by us in accordance with US GAAS and, in our opinion, is presented in compliance with DOL Rules and Regulations for Reporting and Disclosure under ERISA.

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

NOTE 1: DESCRIPTION OF THE PLAN

The following brief description of the LeTourneau Technologies, Inc. Retirement Income Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan document and the *Summary Plan Description* for more complete information.

General

The Plan is a noncontributory defined benefit pension plan covering former eligible employees of LeTourneau Technologies, Inc. and its subsidiaries (collectively referred to as the Company). LeTourneau Technologies, Inc. was acquired by Joy Global, Inc. on June 22, 2011. At that date, Rowan assumed the ownership of the Plan and the related portion of the Master Trust investments. Rowan became the Plan sponsor for the Plan which is subject to the Employee Retirement Income Security Act of 1974, (ERISA).

Effective December 31, 2010, the Plan was frozen for both benefit accrual purposes and for new entrants. Effective January 1, 2011, there are no future benefit accruals under the Plan. Effective December 31, 2011, the lump sum cash out limit for benefit payments was increased from \$10,000 to \$100,000.

Effective January 1, 2013 the Plan was merged into the Rowan Pension Plan.

Participation

Prior to freezing participation on December 31, 2010, employees eligible to participate in the Plan were required to complete 1,000 hours of service in any period of 12 consecutive months and attain the age of 21.

Retirement Benefits

Employees who have attained normal retirement age are entitled to the following monthly benefits:

- (1) 1% of the average monthly compensation, less 1% of the monthly primary Social Security Benefit, multiplied by the total years of service; plus
- (2) Monthly accrued benefit derived from member contributions transferred from a predecessor plan, if any.

Normal retirement age is the later of the date the employee reaches age 65 or the fifth anniversary of the date participation commenced. There is no partial vesting of benefits.

Participants may elect early retirement upon attaining the age of 55 or upon any date between the ages of 55 and 65, after completing five years of service. Benefits will be reduced according to the formula specified in the Plan agreement.

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Participants may elect to postpone retirement beyond normal retirement age and will continue to accrue benefits based on monthly average compensation earned to the earlier of the date of actual retirement or age 70½.

Unless a retired participant elects otherwise, a married participant will receive an actuarially reduced benefit, payable for life and, upon his or her death, 50% of the benefit will be payable to the surviving spouse. An unmarried participant will receive an unreduced benefit for only his or her lifetime.

The Plan has provisions for disability retirement benefits and death benefits.

Plan Termination

The Company expects to continue the Plan indefinitely but reserves the right to terminate it by duly adopted written resolutions of Rowan's Board of Directors.

In the event the Plan terminates, the assets of the Plan will be allocated, as prescribed by Section 4044 of ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (1) Vested benefits insured by the Pension Benefit Guaranty Corporation (the PBGC) up to the applicable limitations (discussed below).
- (2) All other vested benefits (those not insured by the PBGC).
- (3) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal retirement age benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefit should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

the actuarial present value of accumulated plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Assets of the Plan are held by JPMorgan Chase Bank, N.A. (the Trustee) under a trust agreement adopted by Rowan within the Master Trust Under Various Employee Benefits Plans of Rowan Companies, Inc. and its Related Companies (the Master Trust). The terms of the trust agreement provide investment managers and the Trustee with full discretionary authority for the purchase and sale of investments.

The Plan's investments are stated at fair value as determined by the Trustee based on the latest quoted market values of the underlying securities. The Trustee determines the Plan's interest in the market value of the Master Trust's net assets and related investment income in accordance with a computational method agreed upon by the Plan administrator and the Trustee. See *Note 3 – Investment in Master Trust* for the Master Trust's investments by level within the fair value hierarchy as of December 31, 2012 and 2011.

The unallocated insurance contract represents funds held outside the Master Trust on deposit with Equitable Life Assurance Society of America (Equitable), which are invested by it in separate funds. See *Note 4 – Unallocated Insurance Contract* for the Plan's investments by level within the fair value hierarchy as of December 31, 2012 and 2011, held outside the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. The net increase in fair value of investments consists of the net change in unrealized gains (losses) in fair values and realized gains (losses) upon the sale of investment securities. The net change in unrealized gains (losses) and realized gains (losses) upon sale are determined using the fair values as of the beginning of the year or the purchase price if acquired during the year.

As defined in Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (FASB ASC 820), fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

FASB ASC 820 establishes a framework for measuring fair value as it relates to financial assets and liabilities and to nonfinancial assets and liabilities measured at fair value on a recurring basis. That framework provides a three-level valuation hierarchy based upon observable and unobservable inputs, with preference given to observable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1: Inputs are unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2: Inputs, other than quoted prices included in Level 1 that are observable, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, and inputs other than quoted prices that are observable for the assets or liabilities; and
- Level 3: Inputs are unobservable for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. Unobservable inputs reflect the Plan's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. Unobservable inputs are based on the best information available in the circumstances.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market fund: This fund is valued using unadjusted quoted market prices for identical assets.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: The interest in the common/collective trusts is stated at NAV provided by the administrator of the funds. The NAV is used as a practical expedient and is based on the value of the underlying assets owned by the funds, minus its liabilities, and divided by the number of units outstanding. The funds are classified within Level 2 of the valuation hierarchy because the underlying investments are traded in an active market.

Limited Partnerships: The interest in these funds has been valued using the limited partner's capital contributions, withdrawal or distributions, the allocation of the partnership's net profits and losses and any other capital account adjustments. Investments in this category are generally classified as Level 3, however, investments may be classified as Level 2 if net asset

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

value is determined and the investment is redeemable at NAV in the capital account on a regular frequency.

Unallocated insurance contract: Valued using amortized cost which approximates fair value.

Contributions

Contributions to the Plan from Rowan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

Most expenses incurred in the administration of the Plan and the Master Trust are paid by the Master Trust and allocated to the participating plans. These expenses include fees and expenses of the Trustees, fund managers and consultants. Any other expenses incurred in the operation of the Plan are paid by Rowan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on eligible earnings and credited service on the date on which the benefit information is presented (the valuation date). Benefits payable under all circumstances (retirement, death, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2012, and through October 14, 2013, for inclusion in the financial statements and footnotes.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (FASB ASU 2011-04). FASB ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. FASB ASU 2011-04 is effective for fiscal years and interim reporting periods beginning after December 15, 2011. As the impact is primarily limited to enhance disclosures, the adoption of the guidance did not have any effect on the Plan's net assets available for benefits or changes therein.

NOTE 3: INVESTMENT IN MASTER TRUST (CERTIFIED BY TRUSTEE)

The Master Trust Under Various Employee Benefits Plans of Rowan Companies, Inc. and its Related Companies commingles, for investment and administrative purposes, Plan assets with those of another plan sponsored by Rowan. The Plan's interest in the Master Trust represents 5% or more of net assets available for benefits.

The net assets of the Master Trust at December 31, 2012 and 2011 were as follows:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. In instances where a transfer is required from one level to another as a result of re-evaluation of inputs or change in economic conditions, the transfer is reported at the beginning of the reporting period.

Plan management has evaluated the significance of transfers between levels based upon the nature of the investments and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2012, the UBS Trumbull Property Fund with a value of \$21,930,635 at December 31, 2011 was transferred in to Level 2 from Level 3. The transfer was based on management's re-evaluation of the valuation methodology used by the fund and absence of significant redemption restrictions.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair value	Principal Valuation technique	Unobservable inputs	Range of Significant Input Values (1)	Weighted Average (1)
Limited Partnerships	\$47,673,809	Value of limited partners' capital account at year end	Inputs used to value underlying securities of the feeder fund		

(1) The range and weighted average has not been disclosed due to the wide range of possible values given the diverse nature of the underlying investments.

NOTE 5: FUNDING POLICY

Contributions to the Plan are made solely by Rowan in amounts not less than that required by ERISA. Annual contributions are computed by the Plan's actuary, which used the traditional unit credit actuarial cost method for the plan years ended December 31, 2012 and 2011.

The Internal Revenue Code (IRC) generally requires that estimated annual employer contributions be made through quarterly installments, with final amounts paid by September 15 of the following year. Rowan elected to contribute \$0 and \$3,574,000 to the Plan for 2012 and 2011 respectively, which meets the funding requirement for 2012 and 2011.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the amounts reported in the statement of net assets available for benefits.

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 7: TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated October 23, 2009, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Though the Plan has been amended since that date, the Plan administrator and the Company believe that the Plan continues to be designed and is currently being operated in compliance with the applicable requirements of the IRC.

US GAAP require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8: PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by JPMorgan, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

NOTE 9: ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Mercer, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

The significant actuarial assumptions used to compute the actuarial present value of accumulated plan benefits as of January 1, 2012 and 2011 were as follows:

- i. Life expectancy of active participants and nondisabled pensioners (RP-2000 Combined Healthy Mortality Table for males and females with a blue collar adjustment projected to 2018 with Scale AA) – changed from prior year.
- ii. Retirement will occur between the ages of 55 and 67 with an average retirement age of 62 – unchanged from prior year.
- iii. The assumed discount rate is 8% per annum - unchanged from prior year.

Lump sums are valued using the 417(e) PPA mortality table and PPA lump sum rates. The PPA lump sum rates in effect for the 2012 plan year are 1.99% for the first 5 years, 4.47% for the next 15 years and 5.26% thereafter. - The rates used in the current year were updated from 2011 to 2012.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefits information at January 1, 2012 is as follows:

	<u>2012</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefits	\$ 29,145,320
Active participants	-
Inactive participants with deferred benefits	<u>41,368,362</u>
	70,513,682
Non-vested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 70,513,682</u>

LETOURNEAU TECHNOLOGIES, INC. RETIREMENT INCOME PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2012 AND 2011

The change in the actuarial present value of accumulated plan benefits from January 1, 2011, to January 1, 2012, is attributed to the following:

Actuarial present value of accumulated plan benefits at January 1, 2011	<u>\$ 54,626,209</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	1,922,027
Increase for interest due to the decrease in the discount period	4,258,725
Benefits paid	(2,784,285)
Change in actuarial assumptions	718,185
Changes in plan provisions	<u>11,772,821</u>
Net increase	<u>15,887,473</u>
Actuarial present value of accumulated plan benefits at January 1, 2012	<u>\$ 70,513,682</u>

NOTE 10: NAV PER SHARE

In accordance with FASB ASU No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which the fair value is not readily determinable as of December 31, 2012 and 2011. For the Plan, such assets include investments in common collective trust funds and limited partnerships.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to targeted normal cost based on the participant's benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, amended December 31, 2011 are included in this valuation.

- **Most recent plan amendments included:** The lump sum limit increase amendment effective December 31, 2011 is included because it was adopted by the valuation date and is effective by the end of the plan year
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* None.
 - *Plan amendments:* See above.
 - *Prohibited payments:* None.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

- Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2011 to 2012.
- LeTourneau Technologies, Inc. was sold and Rowan Companies, Inc. retained the plan. As a result, all active participants' service was terminated on June 22, 2011.
- The plan was amended effective December 31, 2011 to increase the maximum lump sum payable under the plan from \$10,000 to \$100,000.

Schedule SB, Line 32 — Schedule of Amortization Bases
