NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the Linden Research Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan that was established in 2002 by Linden Research Inc. (the Company) to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective September 1, 2012, in conjunction with the change in service providers to Fidelity Management Trust Company (Fidelity), the Plan was amended and restated in its entirety.

Administration – The Company has appointed the 401(k) Profit Sharing Plan Investment Committee (the Committee) to manage the operation and administration of the Plan. The Company had contracted with State Street Bank and Trust Company (State Street) to act as trustee and custodian, and a third-party administrator to process and maintain the records of participant data through August 31, 2012. Effective September 1, 2012, the Company contracted with Fidelity to act as the trustee and custodian, and an affiliate of Fidelity to act as the third party administrator to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan are paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts – Forfeited nonvested accounts may be used to pay Plan administrative expenses or reduce future employer contributions.

Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Payment of benefits – Benefits are recorded when paid.

Notes receivable from participants – Notes receivable from participants (notes receivable) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Income taxes – The Plan has adopted a prototype plan that has received an opinion letter from the Internal Revenue Service. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

Risks and uncertainties – The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Recent accounting pronouncements – In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU No. 2011-04 requires disclosure of valuation techniques for level 2 and level 3 measurements, and for level 3 measurements requires disclosure of valuation processes used by the reporting entity and quantitative information about significant unobservable inputs. ASU No. 2011-04 removes the requirement for nonpublic companies to disclose information about transfers between level 1 and level 2 of the fair value hierarchy. The Plan adopted the new disclosure requirements effective January 1, 2012.

Subsequent events – The Plan has evaluated subsequent events through October 11, 2013, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds and money market fund: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust funds: Units held in common/collective trusts (CT) are valued using the NAV of the CT as reported by the CT managers. The NAV is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV of a CT is calculated based on a compilation of primarily observable market information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	2012

The following sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31, 2012 and 2011:

Blend funds:

SSGA S&P 500 Index Fund – The investment objective is to match, as closely as possible, the return of the S&P 500 Index, while providing participants the ability to purchase and redeem units on an "as of" basis. The fund attempts to achieve its investment objective primarily by investing in securities and other financial instruments, initially obtained via its investments in other collective investment funds.

SSGA S&P Mid-Cap Index Fund – The investment objective is to match, as closely as possible, the return of the Standard & Poor's Midcap Index, while providing participants the ability to purchase and redeem units on an "as of" basis. The fund attempts to achieve its investment objective primarily by investing in securities and other financial instruments, initially obtained via its investments in other collective investment funds.

SSGA Life Solutions Growth Fund – The investment objective is to seek a return that outperforms, before expenses and over the long term, the performance of a composite benchmark composed of: 65% Russell 3000 Index; 15 MSCI EAFE Index; and 20% Barclays Capital U.S. Aggregate Bond Index over the long term. The fund attempts to achieve its investment objective primarily by investing in other collective investment funds.

SSGA Russell Small Cap Index Fund – The investment objective is to match, as closely as possible, before expenses, the return of the Russell 2000 Index over the long term. The fund attempts to achieve its investment objective primarily by investing in other collective investment funds.

All investments in level 2 have a daily redemption frequency and daily redemption notice period and have no unfunded commitments.

NOTE 3 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by State Street and Fidelity, the trustees of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 – PARTICIPATION AND BENEFITS

Participant contributions – Participants may elect to have the Company contribute their eligible pre-tax or Roth (effective September 1, 2012) compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. Participants who have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable or taxed compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions – Prior to September 1, 2012, the Company was allowed to make discretionary contributions to the Plan in the form of matching contributions or nonelective contributions, as defined in the Plan and as approved by the Board of Directors. Effective September 1, 2012, the Plan was amended to eliminate the discretionary employer contributions provision. There were no discretionary contributions made prior to September 1, 2012.

Vesting – Participants are immediately vested in their entire account. Prior to September 1, 2012, participants were fully vested in the employer's discretionary matching and nonelective contributions allocated to their account after six years of credited service.

Participant accounts – Each participant's account is credited with the participant's contribution, Plan earnings or losses, and an allocation of the Company's contributions, if any. Allocation of the Company's contribution is based on participant contributions or eligible employee compensation, as defined in the Plan.

Payment of benefits – Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's vested interest in their account. Prior to September 1, 2012, participants were also allowed to receive their benefits in installments over a period of years equal to the value of their vested interest in their account. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $5,000 ($1,000 prior to September 1, 2012).

Notes receivable from participants – The Plan allows participants to borrow not less than $1,000 ($500 prior to September 1, 2012) and up to the lesser of $50,000 or 50% of their vested account balance. The notes receivable are secured by the participant's vested balance. Such notes receivable bear interest at the available market financing rates and must be repaid to the Plan within a five-year period, unless the proceeds are used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such notes receivable are established by the Committee. Outstanding notes receivable at December 31, 2012 carry an interest rate at 5.25%.
