Pet Supplies Plus, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The following description of the Pet Supplies Plus, LLC 401(k) Plan (the Plan) provides general information about the Plan's provisions. Pet Supplies Plus, LLC (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering all employees of the Company who have at least one year of service (minimum 1000 hours) and are age twenty-one or older.

Dyatech, LLC (Dyatech) is responsible for the general administration of the Plan. The Hartford Life Insurance Company (The Hartford) is the custodian and recordkeeper for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute the maximum allowed by law. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. The Company contributes 100% up to the first 3% of the compensation that a participant contributes to the Plan and an additional 50% of contributions between 3% and 5% of the compensation that a participant contributes to the Plan. Profit sharing contributions may be contributed at the discretion of the Company. Generally, participants must be employed on the last day of the plan year and complete at least 1,000 hours of service during the year to be eligible for an allocation of profit-sharing contributions.

All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. The Company's contributions are allocated in the same manner as that of the participant's elective contributions.

Pet Supplies Plus, LLC 401(k) Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of the Company's profit-sharing contributions, if any, and plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and employer safe harbor matching contributions plus actual earnings thereon. Participants vest in discretionary employer contributions in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than two	0%
Two but less than three	20
Three but less than four	40
Four but less than five	60
Five but less than six	80
Six or more	100

There were no forfeited balances in the current year.

Participant Loans

The Plan does not allow for participant loans.

1. Description of Plan (continued)

Payment of Benefits to Participants

Upon separation from service with the Company due to death, disability, retirement, or termination, a participant or their beneficiary may elect to receive a lump sum payment of their vested account balance. A participant whose vested account balance exceeds \$5,000 may elect to delay receipt of the lump-sum payment. A participant whose vested account balance is \$5,000 or less will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal. In addition, no salary deferrals are permitted for at least six months after the receipt of the hardship distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, no further contributions will be made to the Plan and all amounts will be distributed as soon as practicable.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities, as defined in ASC 820. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's assets available for benefits or its changes in assets available for benefits.

All investment information disclosed in the accompanying financial statements and supplemental schedules including investments held at December 31, 2012 and 2011, and net appreciation in fair value of investments, interest, and dividends for the year ended December 31, 2012, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by The Hartford (which was acquired by MassMutual in January 2013), the custodian of the Plan.

Should the Plan desire to remove an investment option, they are required to provide all participants a minimum of 30 days' notice prior to doing so.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Pet Supplies Plus, LLC 401(k) Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Pooled separate accounts: These investments are investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. There are currently no redemption restrictions on these investments. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value.

- a) Represent “loans” investors make to corporations, governments, or agencies and are designed to provide stability, income, and some appreciation in value. If held to maturity, bonds offer a fixed rate of return and a fixed principal value. Bonds generally offer a potentially higher return than money market/stable value investments and a lower return than stocks. The value of bonds usually fluctuates less than stocks. However, corporate bonds, U.S. Treasury bills, and government bonds will fluctuate in value, and the return of principal is not guaranteed if sold before maturity. There are currently no redemption restrictions on these investments.
- b) Includes a variety of large-cap (market cap over \$10 billion), mid-cap (market cap of \$2 to \$10 billion), and small-cap investments (market cap of \$300 million to \$2 billion). The goal of these investments is growth of capital. Risk and return are typically moderate to high. There are currently no redemption restrictions on these investments.
- c) Investments in stocks issued by foreign businesses provide investors with potential long-term growth of capital while helping to diversify their portfolios. Foreign stocks may offer greater returns than U.S. investments but also involve higher risks relating to interest and currency exchange rates, securities, regulation, and taxes, as well as unstable economic or political conditions. International stocks fluctuate in value and may be worth more or less than their original cost. Global investments have assets in both foreign and U.S. stocks. There are currently no redemption restrictions on these investments.

4. Fair Value Measurements (continued)

- d) This category includes investments in highly diversified funds designed to remain appropriate for investors in terms of risk throughout a variety of life circumstances. These funds share the common goal of first growing and then later preserving principal and contain a mix of equity, fixed-income, and multi-asset investments. There are currently no redemption restrictions on these investments.
- e) Investment includes at least 80% of its net assets (plus any borrowings for investment purposes) in securities of real estate and real estate-related issuers and in derivatives and other instruments that have economic characteristics similar to such securities. The Fund invests primarily in real estate investment trusts (REITs) and equity securities. The principal types of equity securities in which the Fund invests are common and preferred stocks and convertible securities. The goal of these investments is total return through growth of capital and current income. There are currently no redemption restrictions on these investments.
- f) Specialty investments, which are concentrated in a specific area of the market, specifically minerals. Because they are focused on a small market segment, these investments tend to have both a higher risk and higher potential for return than more diversified investments. There are currently no redemption restrictions on these investments.
- g) These are short-term investments that are designed to provide a steady rate of return, greater investment stability, and relatively low risk. There are currently no redemption restrictions on these investments.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of assets available for benefits.

7. Related-Party Transactions

The plan holds units of funds managed by The Hartford (which was acquired by MassMutual in January 2013), the custodian of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. It is noted that the Chief Financial Officer of the Company is listed as a trustee of the Plan as well as a participant within the Plan for 2012.

Pet Supplies Plus, LLC 401(k) Plan

Notes to Financial Statements (continued)

8. Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated August 7, 2001, stating that the form of the plan is qualified under Section 401(a) of the Code and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2012-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Delinquent Participant Contributions

During the years ended December 31, 2012 and 2011, the Company failed to transmit certain participant contributions to the Plan in the amount of \$78,616 and \$47,629 respectively, within the time period prescribed by ERISA. Late transmissions of participant contributions constitute a prohibited transaction under ERISA section 406, regardless of materiality. The Company transmitted the delinquent participant contributions to the Plan in February and May of 2012 and will reimburse the Plan for lost earnings in the amounts of \$190 and \$297, which are included in the employer contributions receivable as of December 31, 2012 and December 31, 2011, respectively. Related excise taxes were paid by the Company.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 15, 2013, the date the financial statements were available to be issued.
