Reliant Holdings, Ltd. 401(k) Plan

Notes to Financial Statements

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Basis of Presentation

The financial statements of the Reliant Holdings, Ltd. 401(k) Plan (the "Plan") have been prepared on the accrual basis of accounting, under which income is recognized when earned and expenses are recognized when the obligation is incurred.

Trustee

The Trustees for the Plan are responsible for the administration and management of the Plan. MetLife Life & Annuity and Great West Life & Annuity hold all assets of the Plan, execute investment transactions pursuant to individual participant direction, value all assets and perform all recordkeeping functions, including income allocations and participant statement preparation.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from such estimates.

Investment and Investment Valuation

The Plan allows participants to self-direct their investments. Participants may invest their account balances in a combination of thirty investment funds which take the form of MetLife Life & Annuity and Great West Life & Annuity Group Annuity Contracts.

Values for investments in Group Annuity Contracts are determined by MetLife Life & Annuity and Great West Life & Annuity, the asset custodians. Investments are reported at their fair value, based on the quoted market prices of the underlying securities with each fund at December 31, 2012 and 2011. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Risk and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

Date of Management's Review

Subsequent events were evaluated through August 21, 2013, which is the date the financial statements were available to be issued.

(2) PROVISIONS OF THE PLAN

General

The Plan is a defined contribution plan covering substantially all employees of Reliant Holdings, Ltd. and its related entities and Meek Refrigeration, Inc. (collectively referred to as the "Company") who have completed three months of service and attained 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Eligible participants may enter the Plan on the first month of the Plan year or the seventh month of the Plan year.

Contributions

Participants may elect to contribute to the Plan a specific percentage or dollar amount of their annual compensation, subject to limitations. Such contributions are recorded by the Plan in the period in which the Company makes applicable payroll deductions and shall not exceed the limitations as set forth by the Internal Revenue Code Sections 415 (d).

Under the provisions of the Plan, the Company may also make discretionary contributions for the benefit of the participants. As of July 1, 2006, the Company began matching contributions at a rate of 50 percent of the first 6 percent of the employees' elective deferral to the Plan. As of March 1, 2009, the Company suspended its Plan matching contribution due to economic challenges. As of June 15, 2010, the Company reinstated its matching contribution and began matching contributions at a rate of 25 percent of the first 6 percent of the employees' elective deferral to the Plan.

Participant Accounts

A separate account in the name of each participant is maintained by the Trustee to reflect the participant's accrued benefit in the Plan's net assets. Each participant's account is credited with employee deferrals and employer contributions, allocated forfeitures and an allocation of the Plan earnings. Plan earnings are allocated to participants based on the respective investment account balances during the Plan year. Employer contributions are credited to participant accounts based on the matching formula and forfeitures are allocated to participant accounts in the same manner as employer contributions.

Notes Receivable From Participants

Each Participant may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. Interest rates range from 5.25% - 8.75%, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

(2) PROVISIONS OF THE PLAN, CONTINUED

Vesting

Participants are 100% vested in the employee contributions and the employer safe harbor matching contribution portion of the account balances.

Participants vest in the non-safe harbor employer contributions as follows:

Participant's Years of Service	Vested Percentage
0-1 year	0%
1-2 years	20%
2-3 years	40%
3-4 years	60%
4-5 years	80%
5 years and over	100%

The term "year of service" includes all Plan years where an employee worked not less than 1,000 hours. Also, participants are 100% vested upon death, disability or attaining normal retirement age.

Distributions

The benefit to which a participant is entitled is the non-forfeitable accrued benefit that can be provided from the participant's account. Benefits are payable by the Plan upon retirement, death, disability or other termination of employment pursuant to the Plan documents.

At December 31, 2012, vested balances aggregating $623,196 were reserved for participants who had terminated employment. These amounts have been reflected as a component of the net assets available for plan benefits in the accompanying statements of net assets available for plan benefits.

Forfeitures

The non-vested portion of a terminated participant's account is forfeited after incurring a break in service. A break in service occurs when the participant does not work more than 500 hours in on Plan Year. Forfeitures are used to reduce plan expenses and/or to reduce employer contributions.

Trust Accounting

All assets are held by MetLife Life & Annuity and Great West Life & Annuity, the asset custodians and recordkeepers, and all investment decisions and transactions are administered by the asset custodians and recordkeepers pursuant to participant instructions. MetLife Life & Annuity and Great West Life & Annuity, as recordkeepers, perform the allocation of employee and employer contributions and the allocation of income earned to the respective participant accounts.

(2) PROVISIONS OF THE PLAN, CONTINUED

Accounting Method

Interest income is recognized when earned. Contributions are recognized based on payroll dates and are accrued. Benefits are recorded when paid.

Administrative Expenses

In 2012 and 2011, the Plan paid all administrative costs.

Tax Status of the Plan

The Company adopted the Plan, effective September 18, 2001, and has received a favorable determination from the Internal Revenue Service. The Plan has since been amended to incorporate provisions of recent changes to the tax laws and regulations issued by the Treasury Department. The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

(4) FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.
Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurement at the reporting date.

(4) FAIR VALUE MEASUREMENTS, CONTINUED

The following table sets forth by level, within the fair hierarchy, the Plan's assets at value as of December 31, 2012 and 2011:

Assets at Fair Value as of December 31, 2012	Level 1	Level 2	Level 3	Total

Purchases, sales, issuances, and settlements, net	51,030	51,030

(5) TERMINATION OF THE PLAN

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants' accounts will become fully vested and non-forfeitable.

(6) DEPARTMENT OF LABOR REQUIRED DISCLOSURES
