NOTE 1. PLAN DESCRIPTION

The following description of the Bershtel Enterprises LLC dba WePackItAll 401(k) Plan (the Plan) for the employees of Bershtel Enterprises LLC dba WePackItAll (the Company) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, which was established effective January 1, 2009, is a defined contribution plan covering all employees of the Company, who are at least 18 years of age and have completed 1,000 hours of service during the first 12 months of employment. Plan entry date is the first day of the month following the completion of the eligibility requirements. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ADP Retirement Services is the recordkeeper of the Plan and Reliance Trust Company (Reliance) is the trustee of the Plan.

Participant Accounts and Contributions: Participants may elect to contribute any combination of pre-tax deferrals or Roth deferrals from 1% to 86% of eligible earnings, as defined in the Plan, in 1% increments. The maximum participant deferral limit was $17,000 for the year ended December 31, 2012. Catch-up contributions of $5,500 were available to participants who had attained age 50 or older by December 31, 2012, and had not exceeded the contribution limit for the Plan year. The Company does not make any matching contributions to the Plan.

Each participant's account is credited or charged, as the case may be, with the participant's contribution and allocations of investment earnings or losses and administrative expenses.

Vesting: Participants are immediately vested in their voluntary contributions, plus actual earnings thereon.

Notes Receivable From Participants: Participants may borrow from their vested account balances up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The minimum loan is $500. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate as published in The Wall Street Journal, plus two percentage points. Principal and interest are paid ratably through payroll deductions or participants' own personal funds over a term not to exceed five years, except for loans used to purchase or improve the participant's primary residence, which may have a repayment term not to exceed 30 years.

NOTE 1. PLAN DESCRIPTION (Continued)

Benefit Payments: Distributions of a participant's account, if elected, are made upon termination of service, death, disability or retirement. Distributions are made in a lump-sum payment. If a participant's vested account is greater than $1,000 but less than $5,000, and the participant does not elect to have the amount rolled over into a specific retirement account or to receive a distribution directly, such account will be rolled over to an Individual Retirement Account. Account balances of $1,000 or less can be distributed whether or not requested. An in-service distribution can also be made to participants who have attained the age of 59-1/2, upon disability or when experiencing financial hardship.

Administrative Expenses: The Company incurs certain expenses in administering the Plan, which are not passed on as expenses of the Plan. Administrative expenses charged to the Plan consist of charges associated with benefit payments and loan processing.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments: Investments in shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of the shares held at year end. See Note 7 for disclosure of fair value measurements.

Valuation of Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid balance plus accrued but unpaid interest.

Realized and Unrealized Appreciation: Realized and unrealized appreciation is based on the market value of the assets at the end of the Plan year compared to the market value of the assets at the beginning of the Plan year, or at the time of assets purchased/exchanged during the Plan year.

Benefit Payments: Benefits are recorded when paid.

NOTE 3. CERTIFIED FINANCIAL INFORMATION

The financial information included in the Plan's financial statements as it relates to investment assets, investment transactions, investment income, notes receivable from participants, and the schedule of assets held at end of year have been derived from information certified as complete and accurate by Reliance, the Plan trustee, in accordance with Section 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 4. INVESTMENTS

The following represents investments of the Plan as of December 31. Investments that represent 5% or more of the Plan net assets available for benefits are separately identified with an asterisk.

	2012	2011
Mutual Funds:		
Blackrock Global Allocation	$ 165,401*	$ 140,708*

Other mutual funds	119,688	102,335
	$ 764,081	$ 640,815

NOTE 5. INCOME TAX STATUS

The Company has adopted a nonstandardized prototype plan sponsored by Automatic Data Processing (ADP). The Plan prototype received an opinion letter dated March 31, 2008 from the Internal Revenue Service (IRS), which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require the Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and concluded that, as of December 31, 2012, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan Administrator believes that the Plan is no longer subject to income tax examinations for years prior to December 31, 2009.

NOTE 6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market performance and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7. FAIR VALUE MEASUREMENTS

Fair value is determined based on assumptions that a market participant would use in pricing an asset or liability. Measurements of fair value are classified within a hierarchy based upon valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following methods and assumptions were used to estimate the fair value of each class of assets that are recognized at fair value. There have been no changes in the methodologies used as of December 31, 2012:

Mutual funds: Valued using quoted market prices, which represent the net assets value of shares held by the Plan at year-end.

NOTE 7. FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:
