NOTE 1. DESCRIPTION OF PLAN

The following description of the Post Acute Partners Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a participant-directed, defined contribution plan covering all full-time, nonunion employees of Post Acute Partners, LLC and Affiliates (collectively the "Company") who are over the age of 18.

The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code of 1986 ("IRC"), as amended.

Contributions

Participants may make pre-tax or post-tax contributions from their compensation, up to amounts permissible under the IRC. Participants who reached age 50 during the year are eligible to make catchup contributions.

Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans. Salary deferrals from participants and employer contributions are directed by participants to investment options made available by the Plan.

The Company may make discretionary matching contributions as deemed appropriate. To be eligible for a Company match, a participant is required to have one year of service, complete 1,000 hours of service during the plan year, and be employed on the last day of the year. The Company made matching contributions totaling $31,397 during the year ended December 31, 2012.

The Company may also make discretionary profit sharing contributions to all eligible participants based on eligible compensation. To be eligible for a Company discretionary profit sharing contribution, a participant is required to have one year of service and be an active employee at the end of the year. There were no discretionary profit sharing contributions made during 2012.

Participants' accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. The maximum loan term is 60 months or up to 360 months for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. The default of a loan is deemed a taxable distribution of the unpaid balance.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Notes receivable from participants (continued)
If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

Vesting
Participants are immediately vested in their elective and rollover deferral contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Forfeitures
Forfeitures may be used to offset Plan expenses, if any, or to reduce current and future matching contributions.

Participant distributions
Active participants may receive distributions from their elective contribution account and their rollover contribution account at any time after attaining the age of 59½ or due to hardships as defined in the Plan.

Upon termination of service, disability, or retirement (age 65), a participant is entitled to a lump-sum payment if their account balance is equal to or less than $5,000 at the time of distribution.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Recently adopted accounting pronouncements
In May 2011, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs.* ASU 2011-04 amends FASB Accounting Standards Codification ("ASC") 820, providing a consistent definition and measurement of fair value as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurements, and expands the FASB ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective for the year beginning January 1, 2012. The adoption of ASU 2011-04 did not have a material effect on the Plan's financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

During 2012, the Plan added the Principal Fixed Income Guaranteed Option (the "Guaranteed Option"). The Guaranteed Option is a Group Annuity Contract - Custodial Interest Contract and is backed by the assets of the general account of Principal Life Insurance Company. Benefit payments are made at contract value (no termination or surrender charges) for Plan benefit events and investment transfers initiated by Plan participants. Thus, this contract is considered benefit responsive and is reported in these financial statements at contract value. The average yield for this benefit responsive contract was 1.76% during 2012, and the crediting interest rate was 1.45% as of December 31, 2012.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in the net appreciation in the fair market value of such investments.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair value measurements

FASB ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Other

Expenses of administering the Plan, other than loan fees, are paid by the Company. Certain administrative expenses are paid with forfeitures.

Subsequent events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan evaluated subsequent events through October 11, 2013, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 3. INFORMATION CERTIFIED BY THE TRUSTEES

The following tables summarize investment and other asset information regarding the Plan as of December 31, 2012 and 2011, and for the year ended December 31, 2012, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by OFI Trust Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the "Trustees"), the trustees of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustees that such information is complete and accurate.

NOTE 4. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in combinations of mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 5. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach.* Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach.* Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach.* Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2012 and 2011:

The following is a description of the valuation methodologies used for instruments measured at fair value, including general classification of such instruments pursuant to the fair value hierarchy. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Money market fund: are valued at carrying value, which approximates fair value because the instruments are liquid in nature.

M*utual funds:* are valued as quoted market prices, which represent the net asset value ("NAV") of the securities held.

*Common collective trust*s: are valued using a NAV. The NAV of a collective trust is based on the market values of the underlying securities in an active market. The beneficial interest of each participant is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

Pooled separate accounts: are valued using the NAV provided by the Trustee. The NAV is based on the value of the underlying assets owned by the separate account, minus its liabilities, and then divided by the number of shares outstanding.

Custodial guaranteed interest contract: The Fixed Income Guaranteed Option ("Guaranteed Option") is a benefit-responsive group annuity contract issued by Principal Life Insurance Company and is carried at fair value. The following table provides information about significant unobservable inputs related to the Plan's investment in the Guaranteed Option, which is categorized as Level 3 in the FASB ASC 820 fair value hierarchy.

Contract Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Net Crediting Interest Rates
Custodial Guaranteed Interest Contract	$ 136,191	Fair value equals contract value	Composite Crediting Rate	1.45% - 2.00%

NOTE 5. FAIR VALUE MEASUREMENTS (CONTINUED)

The concept of a value other than contract value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity contract. Even upon a discontinuance of the contract, contract value would be paid if the sponsor provides a 12-month irrevocable advance notice. As there are not any specific securities in the general account that back the liabilities of this annuity contract, it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value. The Plan owns a promise to pay interest at crediting rates, which are announced in advance and reset semiannually. The crediting rate is net of administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer, and not on the value of the securities within the insurer's general account. As a result, the fair value amount shown is equal to the contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed net crediting rates, less withdrawals. Key factors that could influence future interest crediting rates are changes in interest rates and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth a summary of the changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2012:

Balance, beginning of year:	$ -
Purchases	143,264
Sales	(40)
Losses	(7,168)
Interest on guaranteed annuity contract	135
Balance, end of year	$ 136,191

NOTE 6. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investments with a reported net asset value ("NAV") per share at December 31, 2012:

	Fair Value Estimated Using Net Asset Value per Share December 31, 2012				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Large US equity funds (a)	$ 10,766	$ -	Daily	None	None
Small/Mid US equity funds (b)	46,567	-	Daily	None	None
International funds (c)	32,421	-	Daily	None	None
Fixed income funds (d)	61,657	-	Daily	None	None
Total	$ 151,411	$ -			

The fair values of the investments have been estimated using the NAV:

(a) The pooled separate accounts in this category are generally comprised of investment options that invest in stocks or shares of ownership in large, well-established U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods.

(b) The pooled separate accounts in this category are generally comprised of investment options that invest in stocks or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns.

(c) The pooled separate accounts in this category are comprised of investment options that invest in stocks or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns.

(d) The pooled separate accounts in this category are generally comprised of investment options that invest in bonds or debt of a company or government entity. These investment options typically carry more risk that short-term fixed income investment options, but less overall risk than equities.

NOTE 7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Additionally, certain administrative expenses are paid directly by the Company.

Certain Plan investments are invested in pooled separate and guaranteed annuity contracts managed by the Trustee. Accordingly, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. The Trustee also provides recordkeeping services for the Plan. Fees paid by the Plan for investment management services amounted to $1,352 for the year ended December, 31 2012.

NOTE 8. TAX STATUS

The Plan uses a prototype plan document sponsored by Principal Life Insurance Co ("PLIC"). The Internal Revenue Service ("IRS") has determined and informed PLIC, in a letter dated March 31, 2008, that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Nevertheless, the Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is subject to income tax examinations for all years since inception.

NOTE 9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their account.

NOTE 10. NOTES RECEIVABLE FROM PARTICIPANTS

As of December 31, 2012, participants defaulted on loans amounting to $9,518. The Sponsor has issued 1099's to report the income generated by the participants from the defaulted loan balances.

NOTE 11. PROHIBITED TRANSACTIONS

The Sponsor inadvertently failed to deposit participant deferrals amounting to $481 for the year 2012 within the required time frame as stated by the Department of Labor ("DOL"). The DOL considers late deposits to be prohibited transactions. The Plan will be taking remedial actions under the Voluntary Compliance Program of the DOL.
