During 2012 and 2011, the Company made discretionary matching contributions of up to 3% of compensation to officers and non-officers.

(C) Participant Accounts:

Each participant's account is credited with the participant's voluntary contribution and an allocation of (a) the Company's contribution and (b) Plan earnings (computed and allocated daily, as applicable). Allocations are based on employee earnings, or account balances, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(D) Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

NOTE 1 - DESCRIPTION OF THE PLAN - continued

(E) Investments:

Investments were held in trust, administered by the Trustee of the Plan, and are stated at fair value, using quoted prices at the end of each year.

(F) Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary match is based on years of continuous service as follows:

Years of Service	Percentage of Account Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

(G) Payment of Benefits:

Upon termination of services, retirement or death, benefits shall be paid within 60 days following the close of the plan year during which a distribution is requested or otherwise payable.

(H) Forfeited Accounts:

Non-vested contributions for terminated participants may be used to pay administrative expenses of the plan and any remaining forfeitures shall be used to reduce employer matching contributions. At December 31, 2012 and 2011, forfeitures totaled $40,624 and $188,293, respectively.

(I) Participant Loans:

No participant loans are permitted.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

(A) Basis of Accounting:

The financial statements of the plan are prepared on the accrual basis of accounting.

(B) Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(C) Investment Valuation and Income Recognition:

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Shares of mutual funds are valued at the net asset value of shares held by the plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(D) Payment of Benefits:

Benefits are recorded when paid.

(E) Date of Management's Review:

Subsequent events were evaluated through September 25, 2013, which is the date the financial statements were available to be issued.

NOTE 3 - INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. The plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 4 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

NOTE 5 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurement Using:	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)
December 31, 2012			
Mutual funds	$ 17,874,966	$ 17,874,966	$ -
December 31, 2011			
Mutual funds	$ 16,752,195	$ 16,752,195	$ -

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements:

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

NOTE 5 - FAIR VALUE MEASUREMENTS - continued

Gains and losses (realized and unrealized) included in changes in net assets available for plan benefits for the year ended December 31, 2012 and 2011 are reported in net appreciation in fair value of investments.
