INDEPENDENT AUDITOR'S REPORT

To the Members
FireTron, Inc. 401(k) Plan
Houston, Texas

I was engaged to audit the accompanying statement of net assets available for benefits of FireTron, Inc. 401(k) Plan as of December 31, 2012, and the related statement of changes in net assets available for benefits for the year then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2012. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the investment information summarized in Note 6, which was certified by State Street Bank and Trust Company ("State Street"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule.

I have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2012 and 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the FireTron, Inc. ("Company") 401(k) Plan ("Plan") is intended to give a general summary of its principal provisions. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan. Employees become participants to the Plan beginning on the first day of the month that coincides with or immediately follows the date the participant completes one year of eligibility service and attaining age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Under the terms of the Plan, all eligible participants invest their pretax contributions between 1% and 15% in various investment options offered by the Plan. The maximum contribution limit was $17,000 and $16,500 for 2012 and 2011, which is subject to annual adjustment. In addition, a participant age 50 (at anytime during the year) or older who contributes the maximum pretax contribution to the Plan, may contribute a "catch-up" contribution of $5,500 for 2012 and 2011.

Each year, the Company may make matching contributions equal to a discretionary percentage of the Participant's salary reductions. The Company may also make a profit sharing contribution to the participants account at the end of each year. The total amount of the Company's discretionary and profit sharing contribution will be determined by the employer on a uniform basis for all Participants.

Participants may also rollover amounts from another qualified plan.

Participant Accounts
Each participant's account is credited with the participant's contribution elections and allocations of the Company's discretionary contributions and is charged or credited with net Plan earnings, gains and losses, as well as, appreciation or depreciation in market value during each Plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately 100% vested in their contributions. Plus actual earnings thereon.

Participants' are entitled to a portion of his/her account balance derived from employer and match contributions in accordance with the following vesting schedule:

Counted Years	Vested Percent
0-1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Benefit Payments
On termination of service due to death, disability or retirement, a participant may receive a single lump-sum distribution equal to the current value of the participant's vested interest in his or her account or direct the plan administrator to make payment of such distribution to another eligible plan that accepts rollovers.

Administration of the Plan
The Company pays the general expenses of the Plan.

Notes Receivable from Participants
Participants may obtain cash loans against their respective accounts with the written consent of the Company. A participant may have only one outstanding loan at anytime. Loan amounts are limited to 50% of the participant's vested account balance to a maximum of $50,000. Loans bear interest at market rates and are payable by payroll deduction within five years (or thirty years if the loan is used to acquire a principal residence.)

Hardship Withdrawals
The Plan allows for financial hardship withdrawals which include buying a house, paying a child's college education, paying certain medical expenses or preventing eviction or foreclosure on the participant's home. However, there may be tax consequences, and a participant is not allowed to make contributions to the Plan for at least one year following the hardship withdrawal.

Forfeitures
At December 31, 2012, the Plan used all of its forfeitures. Forfeitures will be used first, to reduce plan administrative expenses and second, to reduce future employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon terms of the plan document.

Payment of Benefits
Benefit payments to participants are recorded upon distribution. There were no participants who have elected to withdraw from the Plan but have not been paid and are included in net assets available for benefits at December 31, 2012.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through October 10, 2013, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31, 2012 and 2011.

	2012	2011
Mainstay S&P 500 Index Fund	$ 527,866	$ 86,561
Van Kampen Growth and Income Account	359,168	282,113

Mainstay Balanced Account	143,068	122,434
Davis NY Venture		333,877
Other Investments, less than 5% of net assets	142,144	122,428
Total Investments	$ 1,968,605	$ 1,603,336

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/depreciated in value by $179,706 and ($61,783) during 2012 and 2011, respectively.

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets and liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Pooled Separate Accounts
For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate accounts are based on the net assets value (NAV) of shares held by the plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

NOTE 5 - GROUP ANNUITY CONTRACT

The Plan has a fully benefit responsive group annuity contract with an insurance company, which is called the Stable Value Fund. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The group annuity contract is included in the financial statements at fair value which is equal to contract value.

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) merger, (2) spinoff, (3) layoffs, (4) Plan termination, (5) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The key factors that impact the crediting rate under the group annuity contract are the timing and magnitude of the cash flows in and out of the separate account as well as prevailing market rates on fixed income assets available for investment by the separate account. The interest crediting rate may be reset not more frequently than daily and not less frequently than quarterly. The interest crediting rate reflects the book yield on the separate account, adjusted to reflect amortization of any realized gains and losses. The minimum crediting rate is zero, as provided in the contract.

The gross crediting rate for the Stable Value Fund was 2.42% for 2012. The net crediting rate, the rate credited to participants of the plan, was 1.52% for 2012.

NOTE 6 - INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEES

The Plan's investment transactions and related income information included in the accompanying financial statements and supplemental schedule for December 31, 2012 and 2011, were obtained from data that has been prepared and certified to as complete and accurate for 2012 and 2011, by State Street Bank and Trust Company.

NOTE 7 - RELATED PARTY TRANSACTIONS

The Plan incurs expenses related to general administration and record keeping. Direct participant-related expenses, such as participant maintenance and loan setup fees are allocated and paid for out of the respective participant's account. Plan-level fees, such as year-end testing and accounting and auditing fees relating to the Plan are paid directly by the Plan Sponsor. The employer paid audit expenses of $8,500 and $9,000 on behalf of its participants for the Plan year ended December 31, 2012 and 2011, respectively.

NOTE 8 - PLAN TERMINATION

The Company expects and intends to continue the Plan on a permanent basis. However, the Company reserves the right to amend or discontinue the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 9 - TAX STATUS

The Plan obtained its latest determination letter dated January 31, 2006, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE 10 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11 - SUBSEQUENT EVENT

Effective December 31, 2012, the Plan changed administrators from New York Life to ADP. The transfer of the assets did not occur until January 3, 2013.
