Defined Contribution 401(k) Plan for the Employees of Coperion Corporation

Notes to Financial Statements

December 31, 2012 and 2011

1. Description of the Plan

The following brief description of Defined Contribution 401(k) Plan for the Employees of Coperion Corporation, (the "Plan"), is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a participant directed, defined contribution plan qualifying under Sections 401(a) and 401(k) of the Internal Revenue Code and subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was effective as of January 1, 2001 and restated effective November 1, 2007. The Plan was established for the purpose of providing eligible employees of Coperion Corporation (the "Employer") funds for retirement. Employees are eligible to participate in the Plan after completion of four months of eligible service and attainment of age 21.

Contributions

Employee

An eligible employee who participates may make contributions to the Plan through payroll deductions of any whole percentage from 1 percent to 50 percent of compensation, as defined, on a pre-tax basis up to the limits prescribed by the Internal Revenue Code. Beginning July 1, 2008, upon meeting the eligibility requirements, all employees were automatically enrolled into the Plan at a deferral rate of 3 percent of compensation. Employees could elect, in writing, not to participate, and participants could change their deferral percentage at any time. Effective August 20, 2009, automatic enrollment was stopped and participants had to enroll via the internet upon becoming eligible. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants who will attain age 50 by the end of the calendar year can make catch-up contributions as permitted by the Internal Revenue Code.

Employer

The Employer may make, at its discretion, annual matching contributions and/or profit sharing contributions to the Plan. For the year ended December 31, 2012 the Employer elected not to make a matching or profit sharing contribution.

Participants direct the investments of their contributions and any employer contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

Participant Accounts

Individual accounts are established for each participant. The Plan offers a variety of mutual funds with varying investment objectives as investment options. Each participant's account is credited with the participant's pre-tax contributions, the employer contributions, if any, and the proportionate share of dividends, interest and investment gains since the preceding valuation date. The participant's account is reduced by withdrawals, losses on investments, any forfeitures, and administrative fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant's interest in the employer's contribution and any earnings thereon, if any, is 100 percent vested after the completion of four years of continuous service based upon the following schedule:

Years of Service	Vested Percentage
1	40%
2	60%
3	80%
4	100%

Defined Contribution 401(k) Plan for the Employees of Coperion Corporation
Notes to Financial Statements
December 31, 2012 and 2011

A participant's vested percentage is based on vesting years of service. A participant earns and accumulates a year of vesting for each 12 months of continuous service in which he or she is credited with 1,000 hours of service within the Plan year. A participant is always 100 percent vested in his or her own deferred salary contribution to the Plan and any earnings thereon, but with respect to the employer contributions, any unvested portion of his or her account shall be forfeited at termination. Employer contributions and income or loss thereon vest immediately in case of total and permanent disability, retirement or death.

Withdrawals

A participant may make withdrawals of vested amounts upon retirement, death, disability, separation from service, attainment of age 65 or hardship. Participants may withdraw rollover contributions and, upon hardship, their deferred cash contributions. Hardship withdrawals may be requested for immediate and heavy financial need, including costs associated with medical expenses, purchase of a principal residence (excluding mortgage payments), post-secondary education, or payments to prevent eviction or foreclosure from a principal residence.

Benefit Payments

Upon termination of employment, a participant's vested interest in his or her account is distributed in either the form of a lump-sum payment or installments.

In the event of termination of employment, a participant, with an account balance of \$5,000 or less, shall receive, as a lump-sum distribution, their vested balance as soon as feasible. A participant with an account balance of more than \$5,000, may elect to have their vested balance distributed upon termination, otherwise their account will be distributed upon death, disability, or normal retirement.

Notes Receivable from Participants

The Plan permits participants to borrow against the vested balance in their Plan accounts. Participants may borrow from their fund accounts up to 50 percent of their vested account balance, with a maximum of \$50,000, reduced by the participant's highest outstanding loan balance in the last twelve months. The loans are secured by the balance in the participant's account and bear interest at the current prevailing interest at the time the loan is taken. The current outstanding loans bear interest at rates up to 9.5 percent. All loans shall provide for level payment amortization with payments consisting of principal and interest, and to be made for a period generally not to exceed five years, except that loans for the purpose of purchasing a principal residence may be repaid over a reasonable period of time. If the participant is currently employed by the Employer, repayment of principal and interest is required to be made through employee payroll deductions.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair values are discussed in Note 4.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded in the period it is earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held after and during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Defined Contribution 401(k) Plan for the Employees of Coperion Corporation

Notes to Financial Statements

December 31, 2012 and 2011

Administrative Expenses

Most of the expenses necessary to administer the Plan are paid by the Employer. They include but are not limited to, retaining necessary professional assistance from an attorney, an auditor, an actuary, or an investment advisor. All expenses except for account maintenance fees, transaction fees, and investment fund management fees, have been paid by the Employer.

Payment of Benefits

Benefits are recorded when paid.

Forfeitures

Forfeitures of nonvested Employer contributions are retained in the Plan and are applied first to pay administrative expenses of the Plan, with any excess used to reduce future Employer contributions. There were forfeitures in the amount of \$1,952 during the year ended December 31, 2012, and the balance in the forfeiture account was \$31,183 and \$29,228 at December 31, 2012 and 2011, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

3. Investments (Unaudited)

The following investments at December 31, represented 5 percent or more of the Plan's net assets:

	2012	2011
Mutual funds		
Amer Fnd Gr Fnd of America – R4	\$ 2,261,412	\$ 1,837,582
AMF Income Fund of America - R4	\$ 970,113	\$ 797,880

DWS Core Fixed Income Fund – S	\$ 1,195,826	\$ 1,199,355
DWS MM Prime Series - DWS MM	\$ 3,253,647	\$ 4,085,172
Victory Special Value Fund – A	\$ 877,818 *	\$ 1,108,273

*Investment as of December 31, 2012 represented less than 5 percent and is presented for comparative purposes.

During 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,449,198.

4. Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Defined Contribution 401(k) Plan for the Employees of Coperion Corporation
Notes to Financial Statements
December 31, 2012 and 2011

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used for periods presented in these financial statements.

Mutual funds: Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Assets at Fair Value at 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

5. Income Tax Status

The Plan adopted a prototype volume profit sharing 401(k) Plan. By letter dated December 12, 2008, the Internal Revenue Service ("IRS") has determined that the Prototype Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2012 and 2011 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009. In addition, there are no tax related interest or penalties for periods presented in these financial statements.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer reserves the right to modify, amend, or terminate the Plan at any time by resolution of its Board of Directors. In the event of termination of the Plan, all amounts credited to participants' accounts shall be 100 percent vested and non-forfeitable. All participants shall receive a total distribution of their accounts as described in the Plan. Any amount in the forfeiture account upon termination, which has not been applied to reduce the Employer contribution, shall be allocated on a pro rata basis to the participants' accounts.

7. Information Certified by Trustee (Unaudited)

No auditing procedures were performed by the independent public accountants as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA with respect to information certified as complete and accurate by the trustee. Based on information provided and certified by the trustee, there are no fixed income obligations, leases, or debt instruments in default or deemed uncollectible, as defined by ERISA, for the years ended December 31, 2012 and 2011.

The following information as of and for the years ended December 31, was prepared from reports certified by the trustee:

	2012	2011
Investments, at fair market value		
Mutual funds	\$ 18,232,908	\$ 17,203,586
Notes receivable from participants	\$ 249,812	\$ 260,335
Net appreciation in fair value of investments	\$ 1,449,198	
Interest and dividend income	\$ 360,304	
Administrative expenses	\$ 1,285	

8. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by DWS Trust Company. DWS Trust Company is the trustee as defined in the Plan and therefore, these transactions qualify as party-in-interest transactions. In addition, the Plan paid fees for administrative services to the trustee of \$1,285 during the year ended December 31, 2012.
