Independent Auditors' Report

To the Board of Trustees,
The Pension Plan for Employees of Coperion Corporation:

Report on the Financial Statements

We have audited the accompanying financial statements of The Pension Plan for Employees of Coperion Corporation (the "Plan") which comprise the statements of net assets available for plan benefits as of December 31, 2012 and 2011 and the related statements of changes in net assets available for plan benefits for the years then ended, the statement of accumulated plan benefits as of January 1, 2012, and the related statement of changes in accumulated plan benefits for the year ended January 1, 2012, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2012 and 2011, and the changes in its financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The Pension Plan for Employees of Coperion Corporation

Statement of Changes in Accumulated Plan Benefits

Year Ended January 1, 2012

1. Description of Plan

The following is a brief description of The Pension Plan for Employees of Coperion Corporation, (the "Plan"), and is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General

The Plan is a non-contributory defined benefit pension plan covering eligible employees of Coperion Corporation. Effective December 1, 2012 Coperion Corporation was acquired by Hillenbrand, Inc. (the "Company" or the "Employer"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and was adopted and became effective September 1, 1970. On March 31, 2003, a resolution was adopted by the Board of Directors of Coperion Corporation to cease accrual of benefits for participants in the Plan effective March 31, 2003.

Pension Benefits

Participants are entitled to annual pension benefits beginning at normal retirement age of 65 or may elect early retirement benefits upon attainment of age 55 and 15 years of service. The retirement benefit is determined based upon the participant's earnings and length of service, subject to minimum and maximum payment restrictions. Benefit payments commence on the participant's retirement date.

Death Benefits

If a participant dies after becoming vested but before completing 15 years of service or attaining normal retirement date, a 50 percent survivor annuity shall be provided to the protected spouse commencing as of the earliest commencement date. If the participant is not survived by a protected spouse there shall be no benefits payable under the Plan.

If a participant dies after becoming vested but before retirement and has completed 15 years of service, a lifetime income shall be provided to his/her protected spouse commencing on the earliest commencement date in an amount equal to the greater of the 50 percent survivor annuity or a lifetime income which is the actuarial equivalent of the lump sum value of his/her vested accrued benefit.

If an active or inactive participant dies on or after his/her normal retirement date, his/her beneficiary shall receive a 100 percent survivor annuity or a 180-month certain annuity as elected by the participant.

Disability Benefits

A participant with a permanent disability is entitled to receive the actuarial equivalent of his/her accrued benefit as of such retirement date.

Vesting

A participant becomes 100 percent vested upon the completion of five years of service.

Other

Should the Plan terminate at some future time, its net assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC"), a United States governmental agency, at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all (see Note 4).

Information about the Plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the booklet, "Summary Plan Description". Copies of this booklet are available from the Pension Committee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are discussed in the Investments note.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's unrealized and realized gains and losses on investments held or sold during the year.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements. In addition, the Plan's cash and cash equivalents are deposited with a financial institution and, at times, the balance may be in excess of FDIC insurance limits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Employer Contributions

Employer contributions, which are determined by an actuary, are accrued to the extent not received as of the statement of net assets available for Plan benefits date. Employees do not make contributions to the Plan. The Plan has met the ERISA minimum funding requirement for each of the years ended December 31, 2012 and 2011.

Administrative Expenses

The Company provides certain administrative and accounting services to the Plan at no cost. Investment management, actuary, and audit fees are paid from Plan assets.

Cash Equivalents

The Plan considers all highly liquid investments with an initial maturity of three months at date of acquisition or less to be cash equivalents.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered and have been calculated by an enrolled actuary. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries.

The Pension Plan for Employees of Coperion Corporation

Statement of Changes in Accumulated Plan Benefits

Year Ended January 1, 2012

The actuarial present value of accumulated Plan benefits is determined by the Plan actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2012, were as follows:

- (a) Life expectancy of the participants: RP-2000 Mortality Table.
- (b) Retirement age assumptions: Assumed retirement age is 63.
- (c) Investment return: Assumed average rate of return is 6.5 percent compounded annually.
- (d) Discount rate:

Segment rates or full yield curve	Segment
Look-back months	4
First 5 years	5.54%
Next 15 years	6.85%
Over 20 years	7.52%
- (e) Compensation increases: N/A

The foregoing actuarial assumptions are based on the presumptions that the Plan will continue. Should the Plan terminate, different actuarial assumptions and other factors might be applied in determining the present value of accumulated Plan benefits.

The following is a description of the significant changes in actuarial assumptions from the prior year valuation:

- (a) The assumed interest rate was changed from rates of 3.78 to 5.54 percent for the first five years, from 6.31 to 6.85 percent for the next fifteen years, and 6.57 to 7.52 percent for all years thereafter.
- (b) The assumed average rate of return changed from 6.0 to 6.5 percent.

Payment of Benefits

Benefits are recorded when paid.

3. Funding Policy

The Company's funding policy is to make annual contributions to the Plan so that all participants' benefits will be fully provided for by the time they retire. The Company's contributions for 2012 and 2011 were sufficient to meet the minimum funding requirements of ERISA.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits which former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- Other vested benefits that are insured by the PBGC up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC.)
- All non-vested benefits.

The Pension Plan for Employees of Coperion Corporation

Statement of Changes in Accumulated Plan Benefits

Year Ended January 1, 2012

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations, which could affect the amounts and methods of payment under the Plan. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of the individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of the benefits guaranteed by the PBGC.

5. Investments

The following investments at December 31 represent 5 percent or more of the Plan's net assets:

	2012	2011
Investments at fair value		
Blackrock Global Allocation Fund Inc A	\$ 8,741,761	\$ 8,042,066
Delaware Investments Limited-Term Diversified Income Fund CL	\$ 2,137,682	\$ 2,130,435
Pimco Total Return Fund Class A	\$ 3,089,388	\$ 2,987,691

During 2012 and 2011, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, (depreciated) appreciated in value as follows:

	2012	2011
Net appreciation (depreciation) in fair value		
Mutual funds	\$ 832,911	\$ (568,534)

Fair Value Measurements

The Financial Accounting Standards Board established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Such inputs include quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Pension Plan for Employees of Coperion Corporation
Statement of Changes in Accumulated Plan Benefits
Year Ended January 1, 2012

The following is a description of the valuation methodologies used for the Plan's assets measured at fair value. There have been no changes in the methodologies used for periods presented in these financial statements.

Money market fund: Shares of the money market fund are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Mutual funds: Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market fund	\$ 100,282	\$ --	\$ --	\$ 100,282
Mutual funds				
Large blend fund	8,741,761	--	--	8,741,761
Short term bond funds	3,188,566	--	--	3,188,566
Intermediate term bond fund	3,089,388	--	--	3,089,388
	<u>\$ 15,119,997</u>	<u>\$ --</u>	<u>\$ --</u>	<u>\$ 15,119,997</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Money market fund	\$ 100,271	\$ --	\$ --	\$ 100,271
Mutual funds				
Large blend fund	8,042,066	--	--	8,042,066
Short term bond funds	3,157,047	--	--	3,157,047
Intermediate term bond fund	2,987,691	--	--	2,987,691
	<u>\$ 14,287,075</u>	<u>\$ --</u>	<u>\$ --</u>	<u>\$ 14,287,075</u>

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Income Tax Status

The Plan obtained its latest determination letter on June 22, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Pension Plan for Employees of Coperion Corporation
Statement of Changes in Accumulated Plan Benefits
Year Ended January 1, 2012

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan had no unrecognized tax benefits at December 31, 2012 and 2011. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009. In addition, there have been no tax related interest or penalties for periods presented in these financial statements.

7. Party-in-Interest Transactions

Certain Plan investments are shares of a money market fund managed by UBS Financial Services. UBS Financial Services is the Trustee as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions.

8. Pension Protection Act

The Pension Protection Act of 2006 ("PPA") as amended by the Worker, Retiree and Employer Recovery Act of 2008 ("WRERA") imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. The "At-Risk" status is referred to as the Funding Target Attainment Percentage ("FTAP"). A plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2012 AFTAP for the Plan is XXXX percent. Because of the Plan's AFTAP equals or exceeds 80 percent, the Plan is not subject to any benefit restrictions.

9. Subsequent Events

The Plan has evaluated subsequent events occurring after the statement of net assets available for Plan benefits date through the date of October 10, 2013, the date for which the financial statements were available to be released. Based upon this evaluation, the Plan has determined that there are no subsequent events that require disclosure in the financial statements.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Plan provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2012, are included in this valuation.

- **IRC Section 436 benefit restrictions:** Exempt since the plan administrator has determined that the Plan meets the definition of a frozen plan of IRC paragraph 436(d)(4)
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. There are currently no active participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including a late retirement actuarial increase
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V – Summary of Plan Provisions

Summary of plan provisions

Effective date and plan year	Original plan: January 1, 1966 Restated plan: January 1, 2012 Plan year: calendar year

Vesting and Eligibility service	Years and months of service. Vesting and eligibility service continues to accrue after March 31, 2003.
Credited service	Years and months of service. Credited service was frozen effective March 31, 2003.
Pensionable earnings	Base pay excluding overtime, commissions and bonus. Pensionable earnings were frozen as of March 31, 2003.
Final average earnings	Average for 5 consecutive calendar years of pensionable earnings out of the last 10 years that produces the highest average.
Social Security Covered Compensation	Average of the social security taxable wage base over the 35-year period ending with the calendar year in which participant attains social security retirement age. Social security covered compensation was frozen as of March 31, 2003.
Accrued Benefit	Annual accrued benefit is equal to the sum of (a) plus (b): (a) 1.4% of final average earnings not in excess of social security covered compensation times credited service up to 30 years , plus (b) 1.75% of final average compensation in excess of social security covered compensation times credited service up to 30 years
Normal retirement	
Eligibility:	Age 65 or if later the fifth anniversary following becoming a participant.
Benefit:	Participant's accrued benefit.

Schedule SB, Part V – Summary of Plan Provisions

Early retirement	
Eligibility:	Age 55 with 15 years of eligibility service.
Benefit:	Participant's accrued benefit reduced by 5/9 of 1% for each of the first 60 months retirement precedes normal retirement date plus 5/18 of 1% for each of the next 60 months.
Late retirement	
Eligibility:	All participants may delay retirement past their normal retirement date.
Benefit:	The participant's accrued benefit increased by 8% compounded annually for each month retirement exceeds normal retirement date.
Deferred vested	
Eligibility:	Termination with at least 5 Years of vesting service.
Benefit:	Accrued benefit payable at normal retirement date. Participant's with 15 years of eligibility service may retire at age 55 with the same reductions as retirement from active service.
Disability	
Eligibility:	First of the month following eligibility for a Social Security Disability benefit with at least 5 Years of vesting service.
Benefit:	Same as early retirement benefit, however, if the benefit is commencing prior to age 55, the participants accrued benefit is discounted from age 55 at an annual interest rate of 7.5% compounded monthly
Pre-retirement Death Benefits	
Prior to early retirement:	The surviving spouse receives the amount they would have received had the participant terminated immediately, survived to earliest retirement eligibility, retired and elected a 50% Joint and Survivor Annuity.
After early but before normal retirement:	The surviving spouse receives the amount they would have received had the participant retired immediately and elected a 50% Joint and Survivor Annuity.

Schedule SB, Part V – Summary of Plan Provisions

Form of Payment	
Automatic for unmarried:	Life annuity.
Automatic for married:	50% Joint and Survivor annuity.
Options:	Life annuity. Life annuity with 5 years certain. Life annuity with 10 years certain. 50% Joint and Survivor annuity. 75% Joint and Survivor annuity. 100% Joint and Survivor annuity. Single lump sum.
Actuarial equivalence:	Actuarial equivalence for annuity forms of payment is UP84 and 8% interest. Actuarial equivalence for lump sum form of payment is the mortality prescribed in IRS Notice 2008-85 and the segment spot rates with phase-in for the month of August preceding the plan year of distribution.
Maximums	
Compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. For 2003 and all prior years, this limit was \$200,000.
Benefits	Annual benefits may not exceed the limits in IRC Section 415. For 2003, this limit was \$160,000.
Benefits not included in valuation	All benefits are included in the valuation.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V – Summary of Plan Provisions

Plan provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2012, are included in this valuation.

- **IRC Section 436 benefit restrictions:** Exempt since the plan administrator has determined that the Plan meets the definition of a frozen plan of IRC paragraph 436(d)(4)
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. There are currently no active participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including a late retirement actuarial increase
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V – Summary of Plan Provisions

Summary of plan provisions

Effective date and plan year	Original plan: January 1, 1966 Restated plan: January 1, 2012 Plan year: calendar year
Sponsoring employer	Coperion Corporation
Participating employees	Employees who satisfied the eligibility requirements prior to April 1, 2003.
Eligibility	January 1 of the year coincident with or following the later of completion of 6 months of service and attainment of age 20-1/2 provided he completes 1,000 hours in the prior 12 month period.
Vesting and Eligibility service	Years and months of service. Vesting and eligibility service continues to accrue after March 31, 2003.
Credited service	Years and months of service. Credited service was frozen effective March 31, 2003.
Pensionable earnings	Base pay excluding overtime, commissions and bonus. Pensionable earnings were frozen as of March 31, 2003.
Final average earnings	Average for 5 consecutive calendar years of pensionable earnings out of the last 10 years that produces the highest average.
Social Security Covered Compensation	Average of the social security taxable wage base over the 35-year period ending with the calendar year in which participant attains social security retirement age. Social security covered compensation was frozen as of March 31, 2003.
Accrued Benefit	Annual accrued benefit is equal to the sum of (a) plus (b): (a) 1.4% of final average earnings not in excess of social security covered compensation times credited service up to 30 years , plus (b) 1.75% of final average compensation in excess of social security covered compensation times credited service up to 30 years
Normal retirement	
Eligibility:	Age 65 or if later the fifth anniversary following becoming a participant.
Benefit:	Participant's accrued benefit.

Schedule SB, Part V – Summary of Plan Provisions

Early retirement	
Eligibility:	Age 55 with 15 years of eligibility service.
Benefit:	Participant's accrued benefit reduced by 5/9 of 1% for each of the first 60 months retirement precedes normal retirement date plus 5/18 of 1% for each of the next 60 months.
Late retirement	
Eligibility:	All participants may delay retirement past their normal retirement date.
Benefit:	The participant's accrued benefit increased by 8% compounded annually for each month retirement exceeds normal retirement date.
Deferred vested	
Eligibility:	Termination with at least 5 Years of vesting service.
Benefit:	Accrued benefit payable at normal retirement date. Participant's with 15 years of eligibility service may retire at age 55 with the same reductions as retirement from active service.
Disability	
Eligibility:	First of the month following eligibility for a Social Security Disability benefit with at least 5 Years of vesting service.
Benefit:	Same as early retirement benefit, however, if the benefit is commencing prior to age 55, the participants accrued benefit is discounted from age 55 at an annual interest rate of 7.5% compounded monthly
Pre-retirement Death Benefits	
Prior to early retirement:	The surviving spouse receives the amount they would have received had the participant terminated immediately, survived to earliest retirement eligibility, retired and elected a 50% Joint and Survivor Annuity.
After early but before normal retirement:	The surviving spouse receives the amount they would have received had the participant retired immediately and elected a 50% Joint and Survivor Annuity.

Schedule SB, Part V – Summary of Plan Provisions

Form of Payment	
Automatic for unmarried:	Life annuity.
Automatic for married:	50% Joint and Survivor annuity.
Options:	Life annuity. Life annuity with 5 years certain. Life annuity with 10 years certain. 50% Joint and Survivor annuity. 75% Joint and Survivor annuity. 100% Joint and Survivor annuity. Single lump sum.
Actuarial equivalence:	Actuarial equivalence for annuity forms of payment is UP84 and 8% interest. Actuarial equivalence for lump sum form of payment is the mortality prescribed in IRS Notice 2008-85 and the segment spot rates with phase-in for the month of August preceding the plan year of distribution.
Maximums	
Compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. For 2003 and all prior years, this limit was \$200,000.
Benefits	Annual benefits may not exceed the limits in IRC Section 415. For 2003, this limit was \$160,000.
Benefits not included in valuation	All benefits are included in the valuation.

Schedule SB, Line 24 – Change in Actuarial Assumptions

Expense normal cost increased from \$120,000 to \$140,000 (prior to discounting) to reflect our expectations for the current plan year.

The form of payment assumption was changed from 100% lump sum to 50% lump sum and 50% single life annuity to better reflect actual experience.
