Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

Independent Auditor's Report

To the Benefits Committee of Duke Energy Corporation and Participants in the Cinergy Corp. Non-Union Employees' Pension Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Cinergy Corp. Non-Union Employees' Pension Plan (the Plan), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2012 and 2011, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2012, and the related Notes to Financial Statements.

Plan Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), Plan management instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Northern Trust Company (Trustee), the trustee of the Plan and the Duke Energy Corporation Master Retirement Trust (Master Trust) in which the Plan has a beneficial interest, except for comparing such information with the related information included in the financial statements. We have been informed by Plan management that the Trustee holds the investment assets of the Plan in the Master Trust and executes investment transactions. Plan management has obtained a certification from the Trustee as of December 31, 2012 and 2011 and for the year ended December 31, 2012, that the information provided to Plan management by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Cinergy Corp. Non-Union Employees' Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

Note 1: Description of the Plan

The following description of the Cinergy Corp. Non-Union Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering certain non-union employees of Duke Energy Corporation (Duke Energy) and participating affiliates (collectively referred to as the Employing Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

For employees with a traditional formula benefit, the benefit is generally calculated based on the participant's years of participation and final three-year average annual pension-eligible earnings. Annual compensation that may be considered for benefit purposes is limited to a maximum amount (\$250,000 for 2012 and subject to adjustment in subsequent years by the Internal Revenue Service (IRS) for increases in the cost of living). The Plan permits early retirement at age 50 with three years of service. Employees may elect to receive their pension benefits in annuity forms, or if eligible, in a lump sum form. If employees terminate before rendering three years of service, they generally forfeit the right to receive their accumulated plan benefits. Effective December 31, 2010, the traditional formula under the Plan was frozen.

Employees in the cash balance formula have a notional account which grows with annual pay and interest credits. Participants in the cash balance formula are eligible to take a distribution of their vested cash balance account in the Plan whenever they leave the Employing Company, at any age, for any reason. Employees may elect to receive their cash balance benefits in annuity or lump sum forms. Employees hired on or after January 1, 2003 (and before July 1, 2008), are required to participate in the cash balance formula of the Plan. Participation in the Plan was generally closed to employees hired on or after July 1, 2008.

Vesting service determines the right to receive a benefit if employment ends before qualifying for normal or early retirement. An employee becomes vested under the Plan after completion of three years of vesting service or upon death, disability or attainment of age 65 while employed by Duke Energy and its participating and non-participating affiliated companies. Vesting service does not begin before age 18.

401 (h) Account

On September 12, 2007, the Plan was amended to clarify provisions permitting, under Section 401(h) of the Internal Revenue Code (IRC) the funding of postretirement medical benefits in a separate trust account, and in 2007, the Employing Company commenced such funding. Employing Company contributions are discretionary and are determined annually. No contributions were made by the Employing Company to the Cinergy Non-Union Employees' 401(h) account in 2012 or 2011. Participants do not contribute to the 401(h) account. Payment of benefits from the 401(h) account, which will begin on or after January 1, 2015, is limited to medical expenses reimbursable under

Cinergy Corp. Non-Union Employees' Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

retiree coverage provided by the Duke Energy Health & Welfare Benefit (Financed) Plans. Other Plan assets may not be used to fund postretirement medical benefits and the 401(h) account may not be used to fund Plan retirement benefits. The obligations of the Duke Energy Health & Welfare Benefit (Financed) Plans are not obligations of the Plan. Duke Energy Health & Welfare Benefit (Financed) Plans obligations are reflected in the financial statements of that plan. Effective as of the close of business on December 31, 2012, the Plan's 401 (h) account was merged into the 401 (h) account of the Duke Energy Retirement Cash Balance Plan (see Note 2, Plan Merger).

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates

The preparation of the financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invest in various investment securities that are exposed to various risks such as interest rates, credit, and overall market volatility. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that some changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the Duke Energy Corporation Master Retirement Trust (Master Trust) (see Note 3) is based on the Plan's interest in the underlying assets in the Master Trust. See Note 4 for discussion of fair value measurements.

Cinergy Corp. Non-Union Employees' Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

In accordance with Department of Labor regulations, realized and unrealized gains and losses are based on the value of these investments as of the later of the beginning of the plan year or at the time of purchase, if purchased during the year, and are reflected currently in the accompanying Statements of Changes in Net Assets Available for Benefits. Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment income from the Master Trust, which includes interest, dividends and realized and unrealized gains and losses, net of administrative expenses, is allocated to each Plan by the trustee on a pro rata basis. Brokerage fees are added to the acquisition cost of assets purchased and subtracted from the proceeds of the assets sold.

Derivative Financial Instruments

The Master Trust holds various instruments that meet the definition of a derivative under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 815, *Derivatives and Hedging*, (FASB ASC 815), including foreign currency contracts and interest rate swaps. The Plan's primary objective in holding these derivatives is investment appreciation and, accordingly, does not designate such derivatives as hedges of risks. Foreign currency exchange rate movements create a degree of risk by affecting the U.S. dollar value of instruments denominated in foreign currencies. Such derivatives are recorded in the accompanying Statements of Net Assets Available for Benefits at their fair value, and changes in fair value are recorded in the Plan interest in Master Trust net income in the accompanying Statements of Changes in Net Assets Available for Benefits.

Contributions

Contributions to the Plan are recorded in the period that the Plan's actuary determines they relate to except that a contribution receivable is recorded to the extent that amounts due are pursuant to formal commitments as well as legal or contractual requirements in existence at the end of the Plan year.

Benefit Payments

Benefit payments to participants or their beneficiaries are recorded when paid.

Administrative Expenses

The Plan pays all investment fees related to the Plan and most other administrative costs, as provided in the Plan document.

Transfers Between Plans

Transfers of assets and accumulated plan benefits between the Plan, the Cinergy Corp. Union Employees' Retirement Income Plan and the Cinergy Corp. Union Employees' Pension Plan are actuarially determined and occur as a result of changes in employee status between the union and non-union classifications.

Plan Merger

Effective as of the close of December 31, 2012, the Plan was merged into the Duke Energy Retirement Cash Balance Plan. Plan assets totaling approximately \$1,229,500,000 were transferred to the Duke Energy Retirement Cash Balance Plan on December 31, 2012. Employees participating in the Plan automatically became participants in the Duke Energy Retirement Cash Balance Plan and are entitled to receive accrued benefits equal to their accrued benefits under the Plan immediately prior to the effective date of the merger.

Recent Accounting Pronouncement

In May 2011, the FASB amended existing requirements for measuring fair value and for disclosing information about fair value measurements. This revised guidance results in a consistent definition of fair value, as well as common requirements for measurement and disclosure of fair value information between US GAAP and International Financial Reporting Standards (IFRS). In addition, the amendments set forth enhanced disclosure requirements with respect to recurring Level 3 measurements, nonfinancial assets measured or disclosed at fair value, transfers between levels in the fair value hierarchy, and assets and liabilities disclosed but not recorded at fair value. For the Plan, the revised fair value measurement guidance is effective on a prospective basis for periods beginning after January 1, 2012. The adoption of the accounting standard did not impact the Plan's financial statements.

Plan Management's Review of Subsequent Events

In preparing the accompanying financial statements, Plan management has reviewed all known events that have occurred after December 31, 2012, and through October 9, 2013, the date the financial statements were available to be issued, for inclusion in the financial statements and footnotes.

Note 3: Investments (Certified by Trustee)

Duke Energy also sponsors the following plans, whose investments are also held in the Master Trust:

- Cinergy Corp. Union Employees' Retirement Income Plan, which covers hourly, weekly and bi-weekly paid employees of the Employing Company represented by the Utility Workers Union of America, Local 600, the International Brotherhood of Electrical Workers, Local 1347 and Local 352, the United Steelworkers of America, Local 12049 and Local 5541-06, Employees' Representation Association, and UNITE HERE Local 1995, and
- Duke Energy Retirement Cash Balance Plan, which covers legacy Duke Energy employees and non-union employees hired on or after July 1, 2008.

	100.00	100.00

* Respective percentage for 2012 equals zero due to plan merger with Duke Energy Retirement Cash Balance Plan (see Note 2).

Investment income and administrative expenses relating to the Master Trust are allocated based on average monthly balances invested by each, other than items specific to one or the other.

Plan investments are received, invested and held by the trustee. The Plan interest in the Master Trust of \$1,160.7 million as of December 31, 2011 represented 5% or more of the Plan's net assets available for benefits. The Plan did not have an interest in the Master Trust as of December 31, 2012 due to the Plan merger with the Duke Energy Retirement Cash Plan, effective December 31, 2012 (see Note 2).

Note 4: Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, (FASB ASC 820) defines fair value, establishes a framework for measuring fair value in US GAAP and expands disclosure requirements about fair value measurements. Under FASB ASC 820, fair value is considered to be the exchange price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The fair value definition under FASB ASC 820 focuses on an exit price, which is the price that would be received by the Plan to sell an asset or paid to transfer a

Cinergy Corp. Non-Union Employees' Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

liability versus an entry price, which would be the price paid to acquire an asset or received to assume a liability. Although FASB ASC 820 does not require additional fair value measurements, it applies to other accounting pronouncements that require or permit fair value measurements.

The Plan determines fair value of financial assets and liabilities based on the following fair value hierarchy, as prescribed by FASB ASC 820, which prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1

Unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. An active market for the asset or liability is one in which transactions for the asset or liability occurs with sufficient frequency and volume to provide ongoing pricing information.

Level 2

Inputs other than quoted market prices included in Level 1 that are observable, either directly or indirectly, for the asset or liability. Level 2 inputs include, but are not limited to, quoted prices for similar assets or liabilities in an active market, quoted prices for identical or similar assets or liabilities in markets that are not active and inputs other than quoted market prices that are observable for the asset or liability, such as interest rate curves and yield curves observable at commonly quoted intervals, volatilities, credit risk and default rates.

Level 3

Unobservable inputs for the asset or liability. Unobservable inputs reflect the Plan's own assumptions about the factors that other market participants would use in pricing an investment that would be based on the best information available in the circumstances.

The following is a description of the valuation methodologies used for investments measured at fair value for the Master Trust. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Equity securities, corporate bonds and government securities: Valued at the closing price in the principal active market in which the individual securities are traded. Principal active markets include published exchanges such as NASDAQ, NYSE, NYMEX and Chicago Board of Trade, as well as pink sheets, which is an electronic quotation system that displays quotes for broker-dealers for many over-the-counter securities.

Government and commercial mortgage backed securities: Valued based on external price data obtained from third party vendors. When position specific external price data are not observable, the valuation is based on comparable securities. When external pricing data is observable, the securities are categorized in Level 2. When the external pricing data is unobservable, the securities are categorized as Level 3.

Short-term investment funds: Valued based on quoted market prices of the securities in the funds.

Real estate investment trust: Valued based upon property appraisal reports prepared by independent real estate appraisers. The Chief Real Estate Appraiser of the asset manager is responsible for

Cinergy Corp. Non-Union Employees' Pension Plan

Notes to Financial Statements

December 31, 2012 and 2011

assuring that the valuation process provides independent and reasonable property market value estimates. An external appraisal management firm not affiliated with the asset manager has been appointed to assist the Chief Real Estate Appraiser in maintaining and monitoring the independence and the accuracy of the appraisal process.

Hedge fund: Valued based on the value provided to the asset manager by the underlying fund. Values of liquid funds are based on observable inputs such as quoted market prices. Values of illiquid funds are based on observable or unobservable inputs to determine the value that might reasonably expect to be received in the normal course of business. If due diligence performed by the asset manager determines the value provided the underlying fund does not represent fair value, the asset manager may consult with its valuation committee in determining fair value.

Interest rate swaps and foreign currency contracts: These instruments are traded in over-the-counter markets. Valuation inputs include interest rate curves, LIBOR yield curve, foreign exchange spot rates, equity prices/equity index prices, volatility and index dividend yields.

December 31, 2012 and 2011

The following table provides a reconciliation of beginning and ending balances of investments measured at fair value on a recurring basis where the determination of fair value includes significant unobservable inputs (Level 3) for the years ended December 31, 2012 and 2011 (in millions):

Balance as of December 31, 2011	\$	411.4
Total gains, (realized and unrealized), and other		24.2
Purchases, sales, issuances, and settlements:		
Purchases		25.2
Sales		(14.8)
Balance as of December 31, 2012	\$	446.0

The Plan's share of gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Master Trust's Statement of Changes in Net Assets Available for Benefits.

Note 5: Net Asset Value (NAV) Per Share

Under the amended guidance of FASB Accounting Standards Update (ASU) No. 2009-12, *Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2009-12), entities are permitted, as a practical expedient, to estimate the fair value of investments within its scope using the NAV per share of the investment as of the reporting entity's measurement dates. The amended guidance also requires additional disclosures to better enable users of the financial statements to understand the nature and risks of the reporting entity's investments that fall under these rules. In accordance with ASU 2009-12, the Plan expanded its disclosure to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable. For the Plan, such assets are comprised of an investment in a hedge fund.

The following table sets forth a summary of Master Trust investments with a reported estimated fair value using the NAV per share as of December 31, 2012 and 2011 (in millions):

	2012	2011	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Equity securities (a)	\$141.5	\$127.2	\$67.0	Non/Semi-redeemable	95 days
Hedge funds (b)	96.9	89.1	None	Quarterly	91 days
Real estate investment trusts (c)	166.7	151.8	None	Quarterly	45 days

- (a) This category consists of private equity partnership funds that invest in private equity limited partnerships. Investments of approximately 57% of the total fair value at December 31, 2012 are semi-redeemable (at June 30th/December 31st) with 95 days written notice. At its discretion, the partnership's board of directors may apply a 25% fund-level gate. The remaining 43% of investments in this category are non-redeemable.

Cinergy Corp. Non-Union Employees' Pension Plan

Notes to Financial Statements

-
- (b) This category consists primarily of investments in privately offered hedge funds managed by unaffiliated investment managers. The initial investment, made in June 2010, was not redeemable until June 2011. Quarterly redemptions in excess of 20% may be partially funded, based on the Hedge fund's board of director's decision, on a pro rata basis in proportion to all other hedge fund investees.
 - (c) This category consists of real estate investment funds that invest in portfolios of commercial and residential real estate assets. Capital availability dictates the ultimate redemption date and amount of these investments. The amount available for redemption is determined by the fund manager and honored on a pro-rata basis in proportion to all other investees,

Note 6: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Traditional benefits under the Plan are based on the participant's years of participation and generally the final three-year average annual pension-eligible earnings. The accumulated plan benefits for active employees are generally based on their average earnings during the three years ending on the date as of which the benefit information is presented (valuation date). The traditional formula under this Plan was frozen, effective December 31, 2010. Cash balance benefits are based upon the participant's notional account balance as of the valuation date. Benefits payable under all circumstances (i.e., retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The significant actuarial assumptions used in the valuations as of January 1, 2013 were:

Interest:	7.75%
Mortality:	2013 Static Mortality Table for Annuitants and Non-Annuitants
Investment Return:	4.25% per annum

The significant actuarial assumptions used in the valuations as of January 1, 2012 were:

Interest:	8.00%
Mortality:	2012 Static Mortality Table for Annuitants and Non-Annuitants
Investment Return:	4.50% per annum

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 7: Funding Policy

The Employing Company's policy is to fund amounts on an actuarial basis to provide assets sufficient to meet benefits to be paid to Plan participants. Contributions to provide benefits under the Plan are made solely by the Employing Company. No contributions by the Employing Company were necessary in 2012 or 2011 to meet the minimum funding requirements of ERISA. The Employing Company made voluntary contributions of approximately \$52.0 million in 2011. The Employing Company made no voluntary contributions in 2012. No contributions were made by the Employing Company to the Cinergy Corp. Non-Union Employees' 401(h) account in 2012 or 2011.

Notes to Financial Statements

December 31, 2012 and 2011

Note 8: Federal Income Tax Status

The Plan is intended to qualify under section 401(a) of the IRC and the Master Trust is intended to be exempt from tax under section 501(a) of the IRC. The IRS has determined and informed the Employing Company by letter dated January 19, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Employing Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and Master Trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

Note 9: Exempt Party-in-Interest Transactions

Northern Trust manages the Master Trust. Northern Trust is also trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. Administrative expenses paid by the Plan were approximately \$5.2 million and \$3.6 million for the years ended December 31, 2012 and 2011, respectively.

Note 10: Plan Changes

Amendments to the Plan adopted on September 28, 2012, October 18, 2012 and December 26, 2012:

- Provide a lump sum window from September 29, 2012 through October 19, 2012 for certain participants and increases the small benefit cash-out to \$5,000
- Update the list of affiliated sponsors
- Change to Code section 417(e) rates for actuarial equivalences
- Merge Plan into Duke Energy Retirement Cash Balance Plan
- Adopt Code section 436 (funding based restrictions) model amendment

Percent married

It is assumed that 85% of males and 85% of females have an eligible spouse.

Spouse age

Males are three years older than their spouses.

Covered pay

Before 2012

Actual historical pensionable earnings.

2012

2012 pay estimated as the sum of:

- Actual earnings through March 31, 2012 (includes bonus and incentive payments made in the first quarter).
- Expected base pay for the remaining nine months of the year (estimated by using the base pay rate in effect on April 1, 2012).
- Assumed overtime for the remaining nine months of the year.

2013+

Estimated 2012 pay (for projection purposes) is projected forward using the salary scale, where 2012 pay is estimated as the sum of:

- Expected base pay (estimated by using the pay rate in effect on April 1, 2012).
- Assumed overtime.
- Assumed target bonus.

Overtime Assumption
*Applies to non-exempt
employees only*

The overtime assumption is expressed as a percentage of base pay and varies by pay level:

- 5% for those with low base pay (under \$50,000)
- 15% for those with medium base pay
- 20% for those with high base pay (over \$67,500)

Vacation Bank

Final pay is assumed to increase for vacation buy-back based on actual vacation banks accrued to date.

Schedule SB, Part V — Statement of Actuarial Assumptions and Methods

Methods

Valuation date	January 1, 2012.
Funding target	<p>Present value of accrued benefits</p> <p>The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability benefits, Social Security benefits, death benefits and other ancillary benefits. For most such benefits, the required attribution methodology is clear. If the plan includes any benefits for which the attribution methodology was not clear, and the regulations required interpretation, consider describing the benefit and the attribution methodology used.</p>
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Trust expenses included in target normal cost.	Provided by Duke Energy. \$844,000 for 2012.
Actuarial value of assets	<p>Smoothed fair market value of assets over the current and prior three months, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.</p>
Actuarial method	Standard Unit Credit Cost Method.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued except prior plan benefits and grandfathered benefits for active employees. Based on discussions with Duke Energy Corporation, such benefits are considered to have a de minimis likelihood of being paid and thus are not required to be valued, and will not be valued. Towers Watson has reviewed the plan provisions with Duke Energy Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2010 to September 2011. Rates have also been adjusted to reflect the corridors of MAP-21.

Schedule SB, Part V — Statement of Actuarial Assumptions and Methods

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumed plan-related expenses added to the target normal cost were changed from \$4,569,769 for 2011 to \$844,000 for 2012.

Termination rates were updated for participants who are known to be exiting under the VOP during 2012.

Eligibility for Benefits

Normal Retirement	Retirement at normal retirement age.
Early Retirement	Age 50 and three years of service. (Five years of service prior to January 1, 2007).
Postponed Retirement	Retirement after normal retirement age.
Vested Termination	Three years of service. (Five years of service prior to January 1, 2007.)
Disability	Participants are immediately vested upon disability. (Five years of service were required prior to January 1, 2007.)
Preretirement Death Benefit	
Traditional Program	Married participants. (Five years of service prior to January 1, 2007.)
Cash Balance Program	All participants are immediately vested upon death and the benefit will be paid to the spouse, beneficiary, or estate.

Benefits Paid Upon the Following Events

Normal Retirement	<p>Participant's retirement formula is either based on a final average pay formula ("Traditional Program"), a cash balance plan account ("Cash Balance Program"), or a combination of both.</p> <p>Former TCSR plan participants were moved to the Duke cash balance formula effective January 1, 2010. These participants will have their December 31, 2009 final average pay benefit indexed with pay and will be able to elect to receive their final average pay benefit as a lump sum. These participants are included as part of the Traditional Choice group in the descriptions provided in this report.</p> <p>Traditional Plan participants were given the choice to stay in the Traditional Program and continue to accrue benefits or to enter the Duke Cash Balance Program with a \$0 opening account balance and a soft freeze (frozen credited service and increasing final average pay) on their Traditional Benefit effective April 1, 2007. Effective January 1, 2011, all Traditional Plan participants were automatically moved to the Duke Cash Balance Program for future accruals with a hard freeze on their Traditional Program benefit.</p> <p>Effective January 1, 2007, the plan was amended to adopt the Duke Energy Corporation cash balance formula for new hires and for active Cinergy employees previously in the Balanced and Investor Programs. Certain prior accrued benefits are guaranteed as minimum benefits.</p> <p>Employees commencing participation after January 1, 2003 and before January 1, 2007 were given the choice between the Balanced and Investor Programs. On January 1, 2003 the plan</p>

was amended to allow all existing participants a one-time choice between the Traditional Program, the Balanced Program, and the Investor Program.

**Duke Energy Corporation
Cash Balance Formula**

A cash balance benefit with monthly pay credits based on the following schedule:

**Pay Credit by Points for Duke Energy Corporation Cash
Balance Formula**

Points	Contribution Credit Percentage
<35	4%, plus 4% of pay over Social Security Wage Base
35-49	5%, plus 4% of pay over Social Security Wage Base
50-64	6%, plus 4% of pay over Social Security Wage Base
>64	7%, plus 4% of pay over Social Security Wage Base

A participant's points as of any January 1 (or date of participation) equal the sum of the attained age and creditable service on such date, with the sum truncated to drop less than full points.

The monthly interest adjustment is a percentage increase in the account balance. The rate of monthly increase is the average yield on 30-year Treasury bonds for the end of the third full business week of the month prior to the beginning of the calendar quarter in which the particular month occurs. The interest factor will not be greater than an annual percentage rate of 9% and not less than 4%.

Traditional Program

Effective January 1, 2007 (December 19, 2007 for former TCSR participants), the plan was amended to adopt a minimum benefit formula on benefit accruals beginning January 1, 2005. The benefit is the greater of Formula A or Formula B.

Formula A: 1.10% of FAP plus 0.50% of FAP in excess of Covered Compensation multiplied by service (maximum 35 years); plus 1.55% of FAP multiplied by service over 35 years.

Formula B: Lesser of 1.12% of FAP plus 0.50% of FAP in excess of Covered Compensation multiplied by service (maximum 35 years) or 1.163% of FAP multiplied by service (maximum 35 years); plus 1.492% of FAP multiplied by service over 35 years.

Early Retirement

Traditional Program

A monthly benefit equal to the Normal Retirement benefit based on Years of Participation and Highest 3-Year Average Earnings at the date of termination. If payments begin before age 62, the payments are reduced by 6.67% per year for the first five years, 3.33% per year for the next four years, and by varying percentages
