Notes to Financial Statements

December 31, 2012 and 2011

Note 1 - Description of the Plan

The following description of the Precision Wire Components LLC 401(K) Profit Sharing Plan & Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan covering all eligible non-union employees of Precision Wire Components LLC (the "Company") who have three months of service and have attained the age of 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Although not required to according to the Plan agreement, the Company pays substantially all administrative costs incurred by the Plan.

Contributions

Employee salary deferral contributions are made voluntarily, subject to certain limits set by the Internal Revenue Code. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary contributions. The Company made no discretionary contributions for the year ended December 31, 2012.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100 percent vested in their deferred salary contributions plus actual earnings thereon at all times. Vesting in benefits derived from employer contributions and earnings thereon is based on years of service in accordance with a graduated scale. A participant is 100 percent vested after six years of credited service.

PRECISION WIRE COMPONENTS LLC 401(K) PROFIT SHARING PLAN & TRUST

Notes to Financial Statements (Continued)

December 31, 2012 and 2011

Note 1 - Description of the Plan (continued)Notes receivable from participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes receivable are secured by the balance in the participant's account and bear interest at local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through periodic payroll deductions.

Payment of benefits

Benefits equal to the vested value of participants' accounts are payable upon retirement, termination, permanent disability, or death. Partial or full withdrawal of participants' account balances are also available under certain circumstances described in the Plan document. Dependent on the circumstances, participants may be able to elect lump sum or installment payments.

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the accounts of all affected participants will be fully vested.

Forfeitures

Forfeitures of unvested employer discretionary contributions will occur on the earlier of the date of an employee's death (if employment had ceased prior to such date) or the employee's forfeiture date. Any unvested account balance will be forfeited if, after the employee ceases to be employed, the employee receives a distribution of the employee's entire vested account. Forfeitures are allocated to each qualifying participant's individual account based on an allocation formula as defined by the Plan. There are no employer discretionary contributions in the Plan as of December 31, 2012.

Notes to Financial Statements (Continued)

December 31, 2012 and 2011

Note 2 - Summary of significant accounting policiesBasis of accounting

The accompanying financial statements have been prepared on the accrual basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets. Actual results could differ from those estimates.

Payment of benefits

Benefits are recorded when paid.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment earnings include the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes to Financial Statements (Continued)

December 31, 2012 and 2011

Note 2 - Summary of significant accounting policies (continued)Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net investment earnings.

Recently adopted accounting pronouncements

In April 2011, the FASB issued new guidance to achieve common fair value measurements and disclosure requirements between U.S. generally accepted accounting principles and International Financial Reporting Standards. This new guidance, which became effective for the Plan beginning January 1, 2012, amends current U.S. generally accepted accounting principles fair value measurement and disclosure guidance to include increased transparency around valuation inputs. The adoption did not have a material impact on the Plan's financial position or results of operations.

Note 3 - Certified financial data

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank & Trust, the custodian of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2012 and 2011, the schedule of net assets (held at end of year) and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

Note 4 - Investments at fair value

As of December 31, 2012 and 2011, the Plan's investments in mutual funds were held by State Street Bank & Trust, the asset custodian. The following presents investments that represent five percent or more of the Plan's net assets:

	<u>December 31, 2012</u>	
	<u>Number of shares/unit</u>	<u>Fair Value</u>
MFS Value Fund Class R2	7,256	\$ 182,477
Blackrock Global Allocation Fund Class A	44,160	\$ 871,725
Jensen Quality Growth Fund Class R	5,512	\$ 163,493

	<u>December 31, 2011</u>	
	<u>Number of shares/unit</u>	<u>Fair Value</u>
PIMCO Total Return Fund Class A	13,550	\$ 147,287
MFS Value Fund Class R2	6,262	\$ 139,074
Thornburg Trust International Value Fund Class R	4,898	\$ 117,303
Blackrock Global Allocation Fund Class A	28,290	\$ 513,753
Jensen Quality Growth Fund Class R	5,033	\$ 133,023

Note 5 - Fair value measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

PRECISION WIRE COMPONENTS LLC 401(K) PROFIT SHARING PLAN & TRUST

Notes to Financial Statements (Continued)

December 31, 2012 and 2011

Note 5 - Fair value measurement (continued)

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its

valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2012 and 2011:

PRECISION WIRE COMPONENTS LLC 401(K) PROFIT SHARING PLAN & TRUST

Notes to Financial Statements (Continued)

December 31, 2012 and 2011

Note 6 - Tax status

The Plan adopted a prototype plan designed to be qualified and exempt from income taxes under applicable Sections of the Internal Revenue Code ("IRC"). The prototype plan obtained its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examination for years prior to 2006.

Note 7 - Party-in-interest transactions

Substantially all administrative expenses related to operating and maintaining the Plan are paid by the Plan Sponsor.

PRECISION WIRE COMPONENTS LLC 401(K) PROFIT SHARING PLAN & TRUST

Notes to Financial Statements (Continued)

December 31, 2012 and 2011

Note 8 - Risks and uncertainties

The Plan provides for investment options in shares of registered investment companies, which invest in portfolios of investment securities through the asset custodian of the Plan. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9 - Net assets available for benefits

Net assets available for benefits consists of the following:

	<u>2012</u>	<u>2011</u>
Amounts allocated to active participants	\$ 2,496,111	\$ 2,111,429
Amounts allocated to accounts of persons who have withdrawn from participation	<u>457,576</u>	<u>85,883</u>
	<u>\$ 2,953,687</u>	<u>\$ 2,197,312</u>

Note 10 - Subsequent events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 10, 2013, which is the date the financial statements were available to be issued.
