CRESCENT CREDIT UNION MONEY PURCHASE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012 AND 2011

NOTE A - DESCRIPTION OF PLAN

The following description of the Crescent Credit Union Money Purchase Pension Plan ("plan") provides only general information. Participants should refer to the plan document for a more complete description of the plan's provisions.

1. **General:** The plan is a non-contributory, defined contribution plan which covers substantially all employees of Crescent Credit Union ("Credit Union") who have completed one year of service and are at least age 21. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. **Contributions:** The Credit Union makes an employer contribution to the plan based on 7.5% of each eligible participant's compensation plus 4.3% of compensation in excess of the Social Security Integration Level. Participants direct the investment of their account into various investment options offered by the plan. Participants may also contribute amounts representing direct rollover distributions from other qualified defined benefit or contribution plans. Contributions are subject to certain IRS limitations.

3. **Participant Accounts:** Each participant's account is credited with a) the Credit Union's contribution, b) plan earnings, and c) the participant's contributions from rollovers, if any, and are charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. **Vesting:** Participants are immediately vested in their direct rollover contributions plus actual earnings thereon. Vesting in the Credit Union contribution portion of their accounts plus earnings, if any, thereon is based on years of continuous service. A participant is 100% vested in their Credit Union contributions after six years of credited service. In addition, a participant's vesting percentage increases to 100% if, while employed with the Credit Union, the participant dies or terminates employment due to becoming disabled.

5. **Payment of Benefits:** Upon termination of service, a participant may elect to receive the vested interest of their account in the form of a single lump sum distribution or as an annuity.

6. **Forfeited Accounts:** At December 31, 2012 and 2011, forfeited non-vested accounts totaled approximately $15,000 and $7,000, respectively. These accounts will be used to reduce future employer contributions. During 2012 and 2011 forfeitures of approximately $0 and $28,000 were used to reduce the employer contribution, respectively.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: The plan invests in investment contracts through a common collective trust, the Morley Capital Stable Value 50 BP Fund, (the "Fund"). Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts. The Fund's contract value is estimated to reasonably approximate its fair value so no adjustment from fair value to contract value has been recorded.

The objective of the Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The Fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts as well as cash and cash equivalents.

The Fund includes guaranteed investment contracts (GICs) issued by insurance companies, wherein the contract holder does not participate in any gains and losses incurred due to the performance of the underlying portfolio relative to the book value at times of withdrawals. It also includes synthetic investment contracts, issued by insurance companies or banks, wherein the contract holder participates in gains and losses incurred due to the performance of the underlying portfolio relative to book value at times of withdrawals. Gains and losses are amortized through future crediting rate resets. The synthetic investment contracts are the most common structure utilized in the Fund. They are comprised of both investment and contractual components. The investment component consists of securities, or shares or units of a pooled portfolio of fixed income securities, referred to as the underlying investments. This investment component is "wrapped" by contracts issued by third party financial institutions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fully Benefit-Responsive Investment Contracts (continued):

This wrap becomes the contractual component and provides for benefit withdrawals and investment exchanges at the full contract value notwithstanding the actual fair value of the underlying investments. In this manner, wrap contracts are designed to smooth out the impact of normal market fluctuations associated with the performance of the underlying investments.

The GICs are typically issued with a fixed crediting rate and a fixed maturity date that does not change over the life of the contract. Wrap contracts typically reset on a monthly or quarterly basis as negotiated with the wrap issuer and do not have a final stated maturity date. The wrap contracts in this fund are predominately reset on a monthly basis with a one month look back for the portfolio statistics. The wrap contract issuer guarantees a minimum 0% crediting rate, although a wrap does not absorb any loss for credit defaults in an underlying portfolio.

Average yields:	2012	2011
Based on actual earnings	1.04%	1.77%
Based on interest rate credited to participants	1.04%	1.77%

Market value events may limit the ability of the Fund to transact at contract value with the issuer. Market value events are events or conditions, the occurrence of which, are outside of the normal operation of the Fund and lead to any Fund disbursements which have or will have a material adverse effect on the operations of the Fund and a financial effect on the investment contract or wrap issuer's interest hereunder. In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day to day liquidity needs of participants as well as the occasional market value event.

An issuer can terminate an investment contract upon the event of default by the contract holder, Advisor or Trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract.

Such events may include but are not limited to: management of the portfolio is not in accordance with investment guidelines, a breach of any material obligation under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, a replacement of the Advisor without prior consent of the issuer, the Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates: The preparation of financial statements in conformity with accounting principles accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payments of Benefits: Benefits are recorded when paid.

Administrative Expenses: The plan sponsor has absorbed many of the administrative costs of the plan.

Subsequent Events: The Plan has evaluated subsequent events through the date of this report, the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/Collective Trust: Value is determined by each fund's trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of shares held by the Plan at year end. The investment in the trust is a public investment security valued using the NAV provided by Reliance Trust Company. The NAV is quoted on a private market that is not active; however, the unit price is based on the underlying investments that are traded on an active market

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C – FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, a summary of the plan's investments measured at fair value on a recurring basis at December 31, 2012 and 2011.

	2012	2011
Registered Investment Companies	$ 218,871	$ (120,946)
Common Collective Trusts	6,147	8,701

NOTE E - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, Reliance Trust Company, the trustee of the plan has certified to the completeness and accuracy of all assets reflected on the accompanying statements of net assets available for benefits and the related investment activity reflected in the statements of changes in net assets available for benefits as of December 31, 2012 and 2011, note D as of December 31, 2012 and 2011, and supplemental Schedule H, line 4i – Schedule of Assets (Held at Year End) as of December 31, 2012.

NOTE F - TAX STATUS

The plan was restated effective January 1, 2010 and is an adoption of a volume submitter profit-sharing plan with CODA sponsored by Benefit Management Inc. That plan obtained its latest opinion letter dated October 29, 2008 in which the Internal Revenue Service stated that the plan and the related trust, as then designed, are in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan has been amended since receiving that opinion letter. The plan administrator, plan management and plan's tax counsel believe the plan is currently designed and being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and/or Department of Labor. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE G – PARTY-IN-INTEREST TRANSACTIONS

Benefit Management, Inc. provides certain record-keeping services to the plan. Fidelity Investments provides investment transaction services to the plan. Therefore, transactions between the plan and Benefit Management, Inc. and Fidelity Investments qualify as party-in-interest transactions. Fees paid by the plan for record-keeping and investment transaction services amounted to approximately $6,300 and $5,300 for the years ended December 31, 2012 and 2011, respectively, plus additional amounts included as a reduction of the returns earned on the investments.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Credit Union has the right under the plan to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE I - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
