Medidata Solutions, Inc. 401(k) Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Medidata Solutions, Inc. 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of Medidata Solutions, Inc. (the "Company") and any participating affiliates who are age twenty-one or older. The Plan provides retirement benefits to eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Investments are participant directed and the Company controls and manages the operation and administration of the Plan. Effective January 4, 2011, DWS Trust Company serves as Trustee. Prior to January 4, 2011, the Plan's Trustee was State Street Bank and Trust Company. Automatic Data Processing serves as the recordkeeper.

Effective January 1, 2011, the Plan was amended to change the definition of base compensation from W-2 wages to the simplified definition of compensation utilized in Section 415 of the Internal Revenue Code (the "Code"), and to allow participants to make after-tax Roth 401(k) contributions.

(b) Contributions

Each year, participants may contribute up to 80% of pre-tax annual eligible earnings, as defined in the Plan, through salary reduction. Participants may also contribute amounts from other eligible retirement plans, as defined in the Plan document. Contributions are subject to certain annual limitations as imposed by the Internal Revenue Service (the "IRS").

Participants may also choose to make some or all of their contributions on an after-tax basis through a Roth 401(k) option. Contributions and earnings for the Roth 401(k) option are not subject to taxation at the time of distribution, as long as the distribution is a "qualified distribution" made no earlier than five years after the first Roth contribution to the Plan. A qualified distribution is a distribution made as a result of disability, death, or having attained age 59½.

The Plan provides a 50% employer matching contribution of the first 4% of eligible compensation contributed by the participants. The employer matching contribution is invested in accordance with the election, consistent with the participant contributions. The Company also might elect to make non-elective contributions, as defined in the Plan.

(c) Participant Accounts

The Plan maintains individual accounts for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's contributions, if any, Plan earnings or losses, and administrative fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are 100% vested in their rollover contributions, employee pre-tax contributions, company matching contributions, qualified matching contributions, qualified non-elective contributions and any earnings thereon.

Medidata Solutions, Inc. 401(k) Plan

Notes to Financial Statements

Non-elective employer contributions and earnings thereon vest in accordance with the following schedule:

<i>Years of service</i>	<i>Vesting Percentage</i>
Less than 3	0%
At least 3, but less than 4	50%
4 years or more	100%

(e) Investment Options

Participants may direct contributions in any investment options of the Plan, which are investments in interest-bearing cash, common collective trusts and mutual funds.

(f) Payments of Benefits

A participant is eligible to receive a distribution on their vested account balance under any of the following circumstances: (a) retirement, (b) termination of employment, (c) disability, or (d) death. A participant also is eligible for in-service withdrawals. Types of in-service withdrawals available under the Plan are: (a) withdrawals after age 59½ (b) withdrawals of rollover contributions, and (c) hardship withdrawals. A participant receives the value of their vested account balance in the form of a single lump-sum payment or direct rollover. The Plan allows for installment distributions if participant vested account balances exceed \$5,000.

(g) Notes Receivable From Participants

Participants may borrow from their vested accounts an amount not less than \$500 and not to exceed the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years, or up to 30 years for the purchase of a primary residence. The loans are secured by the participant's account balance and bear interest at the rate in effect in the month the loan is effective. The interest rate is the prime rate as published in The Wall Street Journal on the 14th day of each month, plus two percentage points. This interest rate is effective for any loan processed as of the 16th day of the month. Principal and interest are repaid ratably through payable deductions.

(h) Administrative Expenses

Investment management expenses, transactional costs and service charges are deducted from the participants' accounts. Other expenses in the administration of the Plan are paid by the Company.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

(b) Use of Estimates

The preparation of the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates.

Medidata Solutions, Inc. 401(k) Plan

Notes to Financial Statements

(c) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, as required. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of realized and unrealized gains or losses on those investments.

(d) Notes Receivable From Participants

Notes receivable from participants are recorded at the unpaid principal balance plus accrued interest.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

(f) Risks and Uncertainties

The Plan invests in various securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of such securities will occur in the near term, and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

3. Information Certified by the Trustees

The following is a summary of the investment information regarding the Plan, as of December 31, 2012 and 2011 and for the years then ended, included in the Plan's financial statements (including footnotes) and supplemental schedule, that was prepared by, or derived from, information prepared by the Trustees for the periods noted in Note 1 and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustees that such information is complete and accurate:

<i>December 31,</i>	2012	2011

Medidata Solutions, Inc. 401(k) Plan

Notes to Financial Statements

4. Investments

The following table presents the fair value of investments, as of December 31, 2012 and 2011 as reported by the Trustees, that represent 5% or more of the Plan's net assets:

<i>December 31,</i>	2012	2011
JPMorgan Equity Index Fund	\$3,734,388	\$2,761,590
Virtus Insight Government Money Market Fund	2,895,316	2,634,691

Allianz NFJ Small Cap Value Fund	1,834,439	1,423,553
American Century Equity Income Fund	1,449,586	1,220,491

For the years ended December 31, 2012 and 2011, the Plan's investments (including investments bought and sold, as well as those held at the year end) appreciated (depreciated) in value, as follows:

<i>December 31,</i>	2012	2011
Common collective trusts	\$ 545,219	\$ (26,252)
Mutual funds	1,480,809	(650,144)
	\$2,026,028	\$(676,396)

5. Fair Value Measurements

The Plan follows the provisions of Accounting Standards Codification ("ASC") 820, "Fair Value Measurement." ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Medidata Solutions, Inc. 401(k) Plan

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for these items, as well as the general classification of such items pursuant to the fair value hierarchy of ASC 820:

Interest-Bearing Cash - The investment includes a government money market fund, which is valued based on the Plan's interests in the net asset value of its underlying assets reported by the trustee of the fund.

Common Collective Trusts - The investments include certain index funds and target retirement strategy funds. The Plan's interests in the index and target retirement strategy funds are valued based upon unit values. Unit values are based on the fair value of the underlying assets of the funds derived from inputs principally from or corroborated by observable market data by correlation or other means.

Mutual Funds - Investments are valued at the unadjusted quoted price of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, and, for mutual funds, their investment class, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012

The investment objective of various SSgA index funds was to match, as closely as possible, the performance of their respective benchmark indices. The investment objective of various SSgA target retirement strategy funds was to match the return of the composite benchmark, comprised of several indices. There are no unfunded commitments at December 31, 2012.

6. Related Party Transactions

Certain investments are managed by the Trustee. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest transactions. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Medidata Solutions, Inc. 401(k) Plan

Notes to Financial Statements

8. Tax Status

The Plan has adopted the Trustee's standardized 401(k) prototype plan, which has received a favorable opinion letter from the IRS dated March 31, 2008. The Plan administrator believes the Plan is designed and operated in accordance with, and continues to qualify under the applicable requirements of the Code and that the Plan is exempt from Federal income taxes.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2009.
