1) PLAN DESCRIPTION

The following description of Consolidated Bus Transit Company 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan covering all non-union employees who have completed six months of service and have attained age 21 by the effective date of participation, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustees are responsible for oversight of the Plan.

b) Plan Contribution Policy

Each year participants may contribute a percentage of pre-tax annual eligible compensation, as defined by the Plan. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants may modify salary deferral elections periodically. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts, a guaranteed accumulation account and a fixed investment account as investment options for participants. The Company, at is discretion may match contributions equal to a percentage of the participants' annual salary deferral. In 2012, the matching contribution was equal to the participant's contribution limited to 2% of the participant's annual eligible compensation. Contributions are subject to certain Internal Revenue Service limitations.

c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service. A year of service is defined by at least 1,000 hours of service during any plan year. The Plan contains additional specific rules for crediting hours of service for vesting purposes.

Participants will become fully vested upon death, total and permanent disability, and reaching normal retirement age (defined by the Plan as 65).

PLAN DESCRIPTION (Cont.)

e) **Payment of Benefits**

On termination of service, a participant is entitled to a lump-sum amount equal to the value of the participant's vested interest in his or her account.

f) **Forfeited Accounts**

At December 31, 2012 and 2011, forfeited non-vested accounts totaled $21,150 and $20,912. These accounts will be used to reduce future employer contributions and/or pay plan administrative expenses. In 2012, there were no reductions of forfeited non-vested accounts to reduce employer contributions or pay plan administrative expenses.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) **Basis of Accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

b) **Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-dates basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Plan management determines the Plan's valuation policies utilizing information provided by investment advisors and ING (insurance company). See note 4 for a discussion of fair value measurements.

d) **Excess Contributions Payable**

Amounts payable to participants for contributions in excess of the amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan has not distributed the 2012 excess contributions to the applicable participants as of October 7, 2013.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

e) Payment of Benefits

Benefits are recorded when paid.

f) Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to contract administration are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

g) Reclassification

Certain amounts from the prior year have been reclassified to conform to the current year's presentation.

h) Subsequent Events

The Plan has evaluated subsequent events through October 7, 2013, which is the date the financial statements were available to be issued. There are no material subsequent events which require recognition or disclosure.

3) INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets.

	2012	2011
ING Long Term Guaranteed Accum. Acct. (fair value)	$ 324,521	$ 290,377
ING Money Market Portfolio	153,500	132,029

ING Strategic Allocation Growth Portfolio	109,417	81,423
ING International Index Equity Portfolio	106,073	78,849

During the twelve months ended December 31, 2012, the Plan's investments (including investments bought, sold and held during the year) appreciated in value by $167,757 as follows:

Pooled separate accounts	$ 151,955
Guaranteed accumulation account	12,124
Fixed account investment	3,678
NET APPRECIATION IN FAIR VALUE	$ 167,757

4) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2012 and 2011:

Pooled separate accounts: Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised, primarily, of shares of registered investment companies held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAV, as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company, approximates fair value of the investments. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in the market conditions, liquidity requirements and the economic environment may significantly affect the NAV of the registered investment companies and, consequently, the fair value of the Plan's investments.

FAIR VALUE MEASUREMENTS (Cont.)

Guaranteed accumulation account & fixed account investment: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, Plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

December 31, 2012	Level 1	Level 2	Level 3	Total

The amount of total gains for the period included in changes in net assets attributable to the change in unrealized gains relating to assets still held at the reporting date.	**$ 12,124**	**$ 3,678**

Gains (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

5) INVESTMENT CONTRACTS

The Guaranteed Accumulation Account (GAA) is a fixed interest option available during the accumulation phase of the variable annuity contract issued by ING. The GAA offers participants the opportunity to earn specified guaranteed rates of interest for specific periods of time, called guaranteed terms. ING guarantees both the principal and interest if the investment remains invested for the full guaranteed term. Investments taken out of the GAA prior to the end of the guaranteed term may be subject to a market value adjustment, which may result in an investment gain or loss.

The Fixed Account is available through the annuity contract issued by ING. The Fixed Account is an obligation of ING's general account which supports all of the company's insurance and annuity commitments. The interest rate guarantees under the contract are subject to ING's claims-paying ability. The fixed account is intended to be a long-term investment for participants seeking stability of principal. ING may impose limitations on the ability to move funds out of this investment option.

In general, fully benefit responsive contracts as described under SOP 94-1-1 require participant initiated transactions to occur at contract value with no conditions, limitations or restrictions. Since the GAA and Fixed Account have the potential to restrict certain transfer and withdrawals, the Plan does not consider them fully-benefit responsive under a conservative interpretation of SOP 94-1-1. Therefore, the investment contracts are reported at fair value.

6) RELATED PARTY TRANSACTIONS

The following table sets forth a summary of related party transactions and a description of each parties relationship with the Plan for the year ended December 31, 2012 and 2011:

Total included in administrative expenses	$ 764	$ 935
TOTAL RELATED PARTY TRANSACTIONS	$ 27,342	$ 25,004

7) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would be become 100% vested in their employer contributions.

8) INFORMATION PREPARED AND CERTIFIED BY INSURANCE COMPANY

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the insurance company.

	2012	2011
Pool separate accounts (fair value)	$ 1,430,958	$ 1,156,343
Guaranteed accumulation account (contract value)	315,614	283,526
Fixed account investment (contract value)	51,158	26,535
Net appreciation (depreciation) in fair value of investments (contract value)	$ 163,312	$ (41,484)

9) PROHIBITED TRANSACTIONS

As required by ERISA section 2510.3-102, the Plan Sponsor is required to deposit employee contributions when the assets can be reasonably segregated from the general assets of the company. During the Plan years ended December 31, 2012 and 2011, there were deposits of participant contributions which have been determined to be late. The Plan Sponsor has made interest payments in the amount of $90 and $20 for the plan years ended December 31, 2012 and 2011, to compensate plan participants for investment earnings relating to these prohibited transactions.

10) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11) PLAN AMENDMENTS

Effective Plan year 2012, the Trustees amended to the Plan to limit matching contributions to 2% of Plan compensation and to allow Plan administrative expenses to be paid from the forfeiture account.

12) RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

	2012	2011
Net assets available for benefits per the financial statements	$ 1,863,435	$ 1,565,217
Fair value adjustment	(13,376)	(8,931)
NET ASSETS AVAILABLE FOR BENEFITS PER SCHEDULE H OF THE FORM 5500	**$ 1,850,059**	**$ 1,556,286**

The following is a reconciliation of changes in net assets per the financial statements for the year ended December 31, 2012 to Schedule H of the Form 5500:

Increase in net assets available for benefits per the financial statements	$ 298,218
Fair value adjustment - net	(4,445)
INCREASE IN ASSETS AVAILABLE FOR BENEFITS PER SCHEDULE H OF THE FORM 5500	**$ 293,773**

Amounts allocated to withdrawing participants are recorded on the Schedule H of Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not yet paid as of that date.

13) TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator and the plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.
