CAMPOS DE SUENOS
401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

1 Description of Plan

The following description of the Campos de Suenos 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

A. General. The Plan is a defined contribution profit sharing plan covering employees who have completed one year or 1,000 hours of service with the Company and have reached 21 years of age. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

B. At the end of the year, the Company may contribute a discretionary match. Employees must be employed at year end in order to be eligible for the match.

C. Employee Contributions. After the eligibility requirements have been established, employees may make elective salary reduction elections pursuant to Section 401(k) of the Internal Revenue Code as amended to date. Participant 401(k) accounts are 100% vested at all times.

D. Participant Accounts. Each participant's account is credited with employer and employee contributions made on his behalf in addition to allocations of Plan earnings. Participants may select from fourteen investment vehicles in any proportion. The gains and losses and earnings of these funds are apportioned to participant accounts on the basis of the beginning balance of each respective account as of the end of the prior valuation date of each fund. Valuation of the funds occurs at the end of each quarter.

E. Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting the Company's matching and discretionary contributions portion of their accounts actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years.

F. Payment of Benefits. On termination of service, death, disability or retirement, a participant (or the designated beneficiary) may elect to receive the full value of the participant's account in a variety of ways in accordance with provisions of the Plan and the various elections that the participant may have made.

G. Notes Receivable Participants. Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and are charged a reasonable rate of interest as determined by the Plan's administrator.

2 Summary of Accounting Policies

A. Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value.

2 Summary of Accounting Policies (Continued)

A. Basis of Accounting. (Continued) However, contract value is the relevant measurement attributable for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts, from fair value to contract value.

The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

B. Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis.

Interest income is recorded on the accrual basis.

Dividends are recorded on the ex-dividend date.

Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

D. Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

E. Payment of Benefits. Benefits are recorded when paid.

F. Operating Expenses. All expenses of maintaining the Plan are paid by the Company.

3 Investments

The Plan's investments are pooled separate accounts currently held and managed by the John Hancock Insurance Company acting as Trustee for the Plan. The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2012 and 2011:

	2012	2011
John Hancock - Lifestyle Growth	$ 222,544	$ 271,431
John Hancock - Lifestyle Aggressive	2,396,792	2,101,578
John Hancock - Retirement Living at 2045	229,145	219,631
John Hancock - Money Market	830,070	824,206
	$ 3,678,551	$ 3,416,846

4 Tax Exempt Status

The Internal Revenue Service has determined and informed the Company by letter, on August 25, 2001, that the Plan and related trusts are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since then and the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

5 Plan Termination

Although it has expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will still be 100% vested in their accounts and will receive full value thereof. The Plan is not covered under the Pension Benefit Guarantee Corporation (PBGC) termination insurance program.

6 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks.

6 Risks and Uncertainties (Continued)

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

9 Fair Value Measurements

FASB ASC 820-10-50, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 Measurements).

The three levels of the fair value hierarchy under FASB ASC 820-10-50 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include -
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and,
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the assets or liability has specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

9 Fair Value Measurements (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts: Valued at Net Asset Value (NAV) of shares held by the Plan at year end. Underlying assets are primarily investments in quoted prices, but the NAV of pooled separate accounts are not publicly quoted. In the case of the Principal U.S. Property Separate Account, investments are primarily in commercial real estate, the fair values of which are determined using a model based on cash flows generated by the properties and sales of comparable properties.

Guaranteed Interest Accounts: Valued at fair value based on the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments would result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012 and 2011:

	Assets at Fair Value as of December 31, 2012
