**NOTE 1 – DESCRIPTION OF PLAN**

The following description of the Mervis Industries, Inc. Profit Sharing & 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution profit sharing plan that covers substantially all employees of Mervis Industries, Inc. (the Company) who are 18 years of age and have provided at least four months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Employees participating in the Plan may contribute up to the lesser of 90% of their eligible compensation or the maximum amount allowed by law. Participants may also contribute amounts representing distributions from other qualified plans. Eligible participants may make catch-up contributions to the Plan. Each year, the Company will make safe harbor contributions equal to 3% of each participant's eligible compensation. Additionally, each year the Company has the option of making a discretionary profit sharing contribution. The profit sharing contribution for the year ended December 31, 2012 was $0. Participants direct the investment of their contributions and their portion of Company contributions into the various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings. Allocations are based on participant earnings, participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's own account.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their voluntary contributions and employer matching contributions plus actual earnings thereon. Benefits of employer discretionary contributions are fully vested after five years of service.

Benefits: Upon termination of service, participants may elect to receive an amount equal to the value of his or her account as a lump sum distribution (in the form of cash or a rollover), part lump sum and part installments, or in equal payments based upon their life expectancy. Upon the death of a participant, any applicable benefits are payable to the participant's beneficiary.

Administrative Fees: Certain administrative fees of the Plan have been paid by the Company.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to 50% of their vested account balance with a maximum of $50,000. Loan transactions are treated as transfer from (to) the investment fund to (from) the loan fund. Loan terms range from 1 - 5 years. The loans are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Forfeitures: During 2012, no forfeitures of terminated participants' nonvested accounts were used to pay administrative expenses or reduce Company contributions. At December 31, 2012, $127,628 of forfeitures are available to pay administrative expenses or reduce future employer contributions.

**NOTE 2 – SUMMARY OF ACCOUNTING POLICIES**

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of investment valuation.

Risks and Uncertainties: The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date. ASC 820-10, *Fair Value Measurements and Disclosures* (formerly FAS 157, *Fair Value Measurements*), establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of input within the fair value hierarchy are defined as follows:

> Level l: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs form multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

(Continued)

**NOTE 2 – SUMMARY OF ACCOUNTING POLICIES** (Continued)

*Mutual funds:* The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

*Common collective trusts:* The fair value of the investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (level 2 inputs).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. This applies even when the contracts are not held directly by the Plan but are underlying assets in Common Collective Trust ("CCT") investments held by the Plan. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through a CCT. The CCT funds are stated at fair value as determined by the issuer based on fair market value of the underlying investments. CCT funds with underlying investments in investment contracts are valued at the fair market value of the underlying investments and then adjusted by the issuer to contract value.

The Riversource Trust Stable Capital Fund, a CCT fund, is diversified among high-quality, short-term investments. The fund invests across several fixed-income categories, including U.S. Treasuries, government agency securities, corporate debt, asset-backed securities, and mortgage-backed securities, as well as units of a money market portfolio. The fund is wrapped by a syndicate of four banks and insurance companies, facilitating book value withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus net earnings, less participant withdrawals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012 or 2011. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

**NOTE 3 – PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of Plan termination, participants will become 100% vested in their accounts.

**NOTE 5 – TAX STATUS**

The Internal Revenue Service has determined and informed the Company by letter dated May 15, 2006 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
