NOTE 1 - DESCRIPTION OF PLAN

The following description of the Dopaco, Inc. Profit Sharing & 401(k) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Eligibility: The Plan is a defined contribution plan covering substantially all nonunion employees of Dopaco, Inc. (the Company) who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may contribute up to 60% of their compensation as defined in the Plan. The Plan provides automatic enrollment for eligible employees, with a deferral of 3% of their compensation, unless they elect a different percentage or elect not to participate in the Plan. Employees who are automatically enrolled at 3% will experience a 1% annual increase, to a maximum of 6%, unless they elect otherwise. Participants who have attained age 50 before the end of plan year are eligible to make catch-up contributions. Participants may also elect to make Roth 401(k) contributions. Rollovers from a prior qualified plan are permitted, with the consent of the administrator, as described more fully in the plan document. Contributions are subject to certain limitations. The Company may make matching contributions to each participant based on his or her elective deferrals in a percentage set by the Company. In addition, the Company may make a discretionary profit sharing contribution. Employer's profit sharing contributions are credited to eligible participant's accounts based on a specified percentage of "base compensation" and, if applicable, a specified percentage of "excess compensation," as defined by the Plan. Participants are eligible for the Company's profit-sharing contributions if they work 1,000 hours per year and are employed on the last day of the plan year.

Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers mutual funds of registered investment companies and a collective trust fund as investment options for participants.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts may first be used to reduce administrative expenses under the Plan. Any remaining forfeitures are then allocated to the accounts of the eligible participants on an annual basis following the plan year. The allocation is made to participants who were active as of the end of the plan year. During 2012, \$6,096 forfeitures were used to offset employer contributions. At December 31, 2012 and 2011, forfeited nonvested accounts totaled \$6,700 and \$59,638, respectively.

Notes Receivable from Participants: Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan account. Loan terms range from one to five years, unless the loan is to acquire the participant's principal residence. In that case, the loan term may not exceed ten years. The loans are secured by the participant's vested account balance. The loans bear interest at the prime rate plus 1%.

NOTES TO FINANCIAL STATEMENT
December 31, 2012 and 2011

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. The Company's contributions vest fully after two years of service.

Payment of Benefits: Upon termination of service due to death, disability, retirement, or termination of employment a participant will receive the value of the vested interest in his or her account as a lump-sum distribution, or he or she may instead elect to receive payment in installments.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in the Company contribution portion of their account.

Transfers From Other Plans: From time to time, changes in employee status require the transfer of funds between various defined contribution plans sponsored by the Plan Sponsor. Transfers from other plans reflected in the Statement of Changes in Net Assets Available for Benefits resulted from these types of transfers.

Plan Merger: Effective July 1, 2012, in order to consolidate several benefit plans sponsored by the Company or subsidiaries of the Company, the active participants in the Plan merged into the Employee Savings Plan sponsored by Reynolds Services, Inc. As a result of the merger, assets of the Plan of \$46,345,749 transferred into the Employee Savings Plan. The assets of the inactive participants in the Plan transferred into the Employee Savings Plan in January 2013. As the legal date of the merger of the inactive participants was December 31, 2012, a due to successor plan in the amount of \$3,531,396 is recorded on the statement of net assets of the Plan as of December 31, 2012. A corresponding transfer out of the Plan is reflected in the statement of changes in net assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Valuation of Investments and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Net investment gain (loss) from registered investment companies includes capital gain distributions and realized and unrealized appreciation (depreciation). Net investment gain from the collective trust fund includes interest and realized and unrealized appreciation (depreciation).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Contracts: While Plan investments are presented at fair value in the statements of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statements of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in the Fidelity Managed Income Portfolio I.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Administrative expenses are paid by the Plan and the Company.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affected the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market liquidity, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized as of the beginning of the reporting period.

NOTE 8 - FAIR VALUE MEASUREMENTS (Continued)

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

The Plan's investments are valued at fair value based on the following methodologies:

Registered Investment Companies: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective Trust Funds: The fair values of participation units held in the collective trust funds are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs).

The Life Cycle Index Retirement Fund is comprised of stocks and fixed income securities that are tailored to current income.

The Life Cycle 2020-2035 Funds are comprised of stocks and fixed income securities that are tailored to the horizon of the fund, which is two years plus or minus that of the name of the fund. These funds' investments were balanced between equity and fixed income.

The Life Cycle 2040-2055 Funds are comprised of stocks and fixed income securities that are tailored to the horizon of the fund, which is two years plus or minus that of the name of the fund. These funds' investments were more heavily weighted towards equity securities.

The investment strategy of each State Street Bank and Trust Company collective trust fund is consistent with the name of the fund. These are classified as domestic large cap equity and fixed income in the table that follows.

The fair values of participation units in the Fidelity Managed Income Portfolio I collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The investment objective of this fund is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital.

The collective trust funds provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Pooled Separate Account: The fair values of participation units held in the pooled separate account is based on its net asset value as reported by the manager of the pooled separate account as of the Plan's financial statement date and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date (Level 2 inputs). The investment strategy of the pooled separate account is consistent with the name of the fund. The pooled separate account restricts redemptions to one per 30-day period.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
