YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The following description of the YP Holdings LLC Savings & Security Plan I (the Plan) provides general information about the Plan's provisions. YP Holdings LLC (YP or the Company) is the Plan sponsor. The Plan has detailed provisions covering participant eligibility, participant contributions, participant withdrawals, participant loans, employer contributions and related vesting of employer contributions and Plan expenses. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions, including participant eligibility, participant allotments from pay and related vesting of contributions. Copies of the Plan document and summary plan description may be obtained from the plan sponsor.

General

In connection with the sale of AT&T Inc.'s (AT&T) Advertising Solutions and Interactive businesses to YP, the fair value of approximately \$68,874,000 of participant accounts and balances were transferred in June 2012 from the AT&T Savings and Security Plan to the YP Holdings LLC Savings & Security Plan I.

The Plan is a defined contribution plan covering substantially all bargaining unit employees and non-management nonunion employees who are employed by participating employers of the Plan sponsor, subject to certain exclusions as defined in the Plan document. Upon formation of the Plan on May 1, 2012, no employee hired or rehired by a participating employer is eligible to enroll in the Plan but is eligible instead to enroll in the YP Holdings LLC Retirement Savings Plan.

The Compensation Committee (the Committee) is responsible for the general administration of the Plan. Fidelity Management Trust Company is the trustee and record keeper of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute from 2% – 30%, or any dollar amount in \$5.00 increments, of pretax or after-tax annual compensation, as defined in the Plan document. Deferrals are limited based on a participant's weekly compensation rate. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

1. Description of Plan (continued)

The Company provides a matching contribution of 80% of a participant's basic deferral contribution. Additional discretionary non-elective contributions may be made at the discretion of the Company's Board of Managers. There were no discretionary non-elective contributions during 2012. All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. The Company's contributions are invested in the same manner as that of the participant's elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100 percent vested after three years of credited service. Accelerated vesting can occur upon certain circumstances.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five year period, the forfeited contributions are reinstated. Forfeited balances of terminated participants' nonvested accounts may be used to pay administrative expenses or to reduce future Company contributions. Unallocated forfeited balances as of December 31, 2012, totaled \$25,500, and no forfeitures were used during 2012 to reduce Company contributions or pay administrative expenses.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their accounts a minimum amount of \$1,000 up to a maximum equal to the lesser of the following:

- \$50,000, reduced by the excess, if any, of a) the highest outstanding loan balance for all loans to the participant from all YP plans within the preceding 12-month period and b) the outstanding balance on the date the loan is to be made
- 50% of their vested account balance, excluding such participant's dividend account
- 50% of the participant's vested accrued benefit under all qualified plans of YP
- 100% of the participant's vested account balance, excluding such participant's LESOP shares sub-accounts and dividend account

The maximum loan term is five years or may be up to ten years for the purchase of a primary residence. A participant may not have more than two loans outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions. If the loan is not repaid, it will automatically be treated as a distribution to the participant. Interest rates on loans outstanding during 2012 ranged from 4.25% – 10.50%.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive either a lump-sum payment or may elect installment payments on an annual basis. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan document. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Expenses paid by the Plan include fees related to the administration and operation of the Plan. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Any other administrative expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100 percent vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for further discussion and disclosures related to fair value measurements.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Fidelity Managed Income Portfolio (MIP Fund) invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statement of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for non-public entities, as defined in ASC 820. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows at December 31, 2012:

BlackRock Bond Fund	\$ 8,925,965
BlackRock Global Equity Index Fund	4,561,916
BlackRock EAFE Equity Index Fund T	6,069,692
BlackRock Equity Index Fund T	17,799,616
BlackRock Extended Equity Market Fund K	12,272,193
Fidelity Managed Income Portfolio (at fair value)	14,991,626

During 2012, the Plan's investments (including investments purchased, sold as well as held during the year) appreciated in fair value as follows:

Mutual funds	\$ 4,067,157
AT&T stock	701,649
	<u>\$ 4,768,806</u>

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

3. Investments (continued)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants and the adjustment from fair value to contract value for fully benefit-responsive investment contracts held by a collective Trust at December 31, 2012, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the period from May 1, 2012 (inception) through December 31, 2012, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds are valued at quoted redemption values that represent the net asset values (NAV) of units held at year-end and are classified as Level 2 investments. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The MIP Fund is a collective trust fund, however because it invests in underlying GICS (see Note 2), it reports fair value based on the underlying assets as determined by the issuer of the MIP Fund. Net asset value for the MIP fund represents contract value. At December 31, 2012, the underlying assets had a fair value of \$14,991,626 and a contract value of \$14,562,606.

6. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Related-Party Transactions

The Plan holds units of common/collective trust funds managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

8. Tax Status

The Plan intends to apply for a determination letter from the Internal Revenue Service (IRS) stating that the Plan is qualified under Section 401(a) of the Code. The Plan administrator believes that the Plan has been designed to comply with and is operating in accordance with the applicable requirements of the Code and therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administration has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements

December 31, 2012

1. Description of Plan

The following description of the YP Holdings LLC Savings & Security Plan I (the Plan) provides general information about the Plan's provisions. YP Holdings LLC (YP or the Company) is the Plan sponsor. The Plan has detailed provisions covering participant eligibility, participant contributions, participant withdrawals, participant loans, employer contributions and related vesting of employer contributions and Plan expenses. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions, including participant eligibility, participant allotments from pay and related vesting of contributions. Copies of the Plan document and summary plan description may be obtained from the plan sponsor.

General

In connection with the sale of AT&T Inc.'s (AT&T) Advertising Solutions and Interactive businesses to YP, the fair value of approximately \$68,874,000 of participant accounts and balances were transferred in June 2012 from the AT&T Savings and Security Plan to the YP Holdings LLC Savings & Security Plan I.

The Plan is a defined contribution plan covering substantially all bargaining unit employees and non-management nonunion employees who are employed by participating employers of the Plan sponsor, subject to certain exclusions as defined in the Plan document. Upon formation of the Plan on May 1, 2012, no employee hired or rehired by a participating employer is eligible to enroll in the Plan but is eligible instead to enroll in the YP Holdings LLC Retirement Savings Plan.

The Compensation Committee (the Committee) is responsible for the general administration of the Plan. Fidelity Management Trust Company is the trustee and record keeper of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year, participants may contribute from 2% – 30%, or any dollar amount in \$5.00 increments, of pretax or after-tax annual compensation, as defined in the Plan document. Deferrals are limited based on a participant's weekly compensation rate. Participants may also contribute amounts representing distributions from other qualified plans (rollovers). Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

1. Description of Plan (continued)

The Company provides a matching contribution of 80% of a participant's basic deferral contribution. Additional discretionary non-elective contributions may be made at the discretion of the Company's Board of Managers. There were no discretionary non-elective contributions during 2012. All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Participants direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. The Company's contributions are invested in the same manner as that of the participant's elective contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100 percent vested after three years of credited service. Accelerated vesting can occur upon certain circumstances.

Forfeitures

Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five year period, the forfeited contributions are reinstated. Forfeited balances of terminated participants' nonvested accounts may be used to pay administrative expenses or to reduce future Company contributions. Unallocated forfeited balances as of December 31, 2012, totaled \$25,500, and no forfeitures were used during 2012 to reduce Company contributions or pay administrative expenses.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Participant Loans

Participants may borrow from their accounts a minimum amount of \$1,000 up to a maximum equal to the lesser of the following:

- \$50,000, reduced by the excess, if any, of a) the highest outstanding loan balance for all loans to the participant from all YP plans within the preceding 12-month period and b) the outstanding balance on the date the loan is to be made
- 50% of their vested account balance, excluding such participant's dividend account
- 50% of the participant's vested accrued benefit under all qualified plans of YP
- 100% of the participant's vested account balance, excluding such participant's LESOP shares sub-accounts and dividend account

The maximum loan term is five years or may be up to ten years for the purchase of a primary residence. A participant may not have more than two loans outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates at the date of issuance as determined by the Plan administrator. Principal and interest are paid ratably through monthly payroll deductions. If the loan is not repaid, it will automatically be treated as a distribution to the participant. Interest rates on loans outstanding during 2012 ranged from 4.25% – 10.50%.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive either a lump-sum payment or may elect installment payments on an annual basis. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan document. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Expenses paid by the Plan include fees related to the administration and operation of the Plan. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Any other administrative expenses of the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100 percent vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrator determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for further discussion and disclosures related to fair value measurements.

YP Holdings LLC Savings & Security Plan I

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Fidelity Managed Income Portfolio (MIP Fund) invests in fully benefit-responsive investment contracts. This fund is recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statement of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the Plan.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS* (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures are not required for non-public entities, as defined in ASC 820. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of ASU 2011-04 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Investments

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows at December 31, 2012:

BlackRock Bond Fund	\$ 8,925,965
BlackRock Global Equity Index Fund	4,561,916
BlackRock EAFE Equity Index Fund T	6,069,692

3. Investments (continued)

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held, notes receivable from participants and the adjustment from fair value to contract value for fully benefit-responsive investment contracts held by a collective Trust at December 31, 2012, and net appreciation in fair value of investments, interest, dividends, and interest income on notes receivable from participants for the period from May 1, 2012 (inception) through December 31, 2012, was obtained or derived from information provided to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

4. Fair Value Measurements (continued)

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan.

Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds are valued at quoted redemption values that represent the net asset values (NAV) of units held at year-end and are classified as Level 2 investments. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

The MIP Fund is a collective trust fund, however because it invests in underlying GICS (see Note 2), it reports fair value based on the underlying assets as determined by the issuer of the MIP Fund. Net asset value for the MIP fund represents contract value. At December 31, 2012, the underlying assets had a fair value of \$14,991,626 and a contract value of \$14,562,606.

6. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. Related-Party Transactions

The Plan holds units of common/collective trust funds managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Tax Status

The Plan intends to apply for a determination letter from the Internal Revenue Service (IRS) stating that the Plan is qualified under Section 401(a) of the Code. The Plan administrator believes that the Plan has been designed to comply with and is operating in accordance with the applicable requirements of the Code and therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administration has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.
