Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT AUDITORS

To the Verizon Employee Benefits Committee:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Verizon Management Pension Plan, Verizon Pension Plan for Mid-Atlantic and South Associates, Verizon Pension Plan for Associates, GTE Florida Incorporated Plan for Hourly-Paid Employees' Pensions and GTE Southwest Incorporated Plan for Hourly-Paid Employees' Pensions, which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 1, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2012 and 2011, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Compliance of Form and Content with Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2012 and 2011

1. Description of the Plans

The following description of the Verizon Management Pension Plan (the “VMPP”), Verizon Pension Plan for Mid-Atlantic and South Associates (the “Mid-Atlantic Plan”), Verizon Pension Plan for Associates (the “VPPA”), GTE Florida Incorporated Plan for Hourly-Paid Employees’ Pensions (the “Florida Plan”), and GTE Southwest Incorporated Plan for Hourly-Paid Employees’ Pensions (the “Southwest Plan”), (collectively, the “Plans”), provides only general information on the Plans’ provisions. Participants should refer to their respective Summary Plan Description (the “SPD”) and actual Plan Document for a more complete description of the Plans’ provisions.

General

The Plans are sponsored by Verizon Communications Inc. (“Verizon”) or one of its subsidiary companies (the “Companies” or “Plan sponsors”) and provide pension benefits as set forth in the respective Plan documents. The assets of the Plans are included in the Bell Atlantic Master Trust (the “Master Trust”) maintained by Bank of New York Mellon (the “Trustee”). The Verizon Employee Benefits Committee is the administrator of the Plans.

Plan Mergers

In September 2011, the Pension Plan for Employees of MCI Communications (the “MCI Plan”) merged into the VMPP. As a result of the merger, net assets of \$299 million were transferred to the VMPP in October 2011. The net assets transferred are included in the Statement of Changes in Net Assets Available for Benefits under “Transfers from/(to) successor trustee.”

Pension Benefits

The Plans are trustee, noncontributory, defined benefit plans, which cover many of the employees and former employees of the sponsoring Companies. Pension benefits are based on compensation and service or on service only, as defined by the applicable Plan.

The Plans provide vesting for participants with five years of eligible vesting service or upon attainment of normal retirement age. Eligible employees, as defined in the respective plan document, have the opportunity to elect a lump-sum payment option as a form of retirement benefit payment, subject to the terms of each such Plan. Benefit payments to participants are recorded upon distribution.

Between October 28, 2012 and October 1, 2013, the Plan sponsors approved plan amendments affecting the VMPP, the Mid-Atlantic Plan, the VPPA and the Southwest Plan, whereby new employees hired on or after the effective date of the applicable amendment are not eligible to participate and earn pension benefits under the Plans.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2012 and 2011

1. Description of the Plans *(continued)*

Funding Policy

The Companies contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the Employee Retirement Income Security Act (“ERISA”) minimum funding requirements. The Plans have met the ERISA minimum funding requirements for the years ended December 31, 2012 and 2011.

In accordance with the Pension Protection Act of 2006, all plans are required to use the Unit Credit Cost Method to determine the minimum contributions to the ongoing plan.

Pension Annuitization

On October 17, 2012, Verizon entered into a definitive purchase agreement with The Prudential Insurance Company of America and Prudential Financial, Inc. (collectively “Prudential”), pursuant to which the VMPP could purchase a single premium group annuity contract from Prudential.

On December 10, 2012, upon issuance of the group annuity contract by Prudential, Prudential irrevocably assumed the obligation to make future annuity payments to approximately 41,000 Verizon management retirees who began receiving pension payments from the VMPP prior to January 1, 2010. The amount of each retiree’s annuity payment equals the amount of such individual’s pension benefit. In addition, the group annuity contract replicates the same rights to future payments, such as survivor benefits, that the retiree was receiving from VMPP. The net assets transferred to Prudential of approximately \$8.4 billion are reflected in the Statement of Changes in Net Assets Available for Benefits under “Transfers (to)/from successor trustee,” net of other adjustments for the period.

Verizon contributed approximately \$1.7 billion to the VMPP between October 1, 2012 and December 31, 2012 in connection with the transaction.

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts disclosed in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Information Certified by the Trustee

With the exception of the Fair Value Hierarchy table in Note 5, all investment information disclosed in the financial statements and footnotes, including investments held at December 31, 2012 and 2011 and the Plans' allocable share of the Master Trust investment activities for the years ended December 31, 2012 and 2011, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

2. Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting. We have reclassified certain prior year amounts to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires the Plans' administrator to make significant estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the financial statements, and income and expenses during the reporting period. Actual results may differ from those estimates.

Administrative Expenses

Administrative fees are charged directly to the Plans as incurred or allocated to the Plans based on their pro rata share of Master Trust assets. Administrative expenses related to the Master Trust are allocated to the Plan and reflected in the Master Trust investment activities.

Plan Transfers

The Plan sponsors are permitted to transfer benefit obligations, subject to the provisions of ERISA, for certain participants who transfer employment between certain Companies that sponsor different pension plans. The Statements of Net Assets Available for Benefits of the Plans at December 31, 2012 include net assets that were transferred in and out of the plans due to participant transfers during the 2011 plan year. Participant transfers during the 2010 plan year are included in the Statements of Changes in Net Assets Available for Benefits, as applicable, for the year ended December 31, 2011. The actual amount transferred is adjusted with trust earnings to the date of transfer.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2012 and 2011

2. Basis of Presentation and Summary of Significant Accounting Policies *(continued)*

Investment Valuation and Income Recognition

As described in Note 1, the Plans hold an interest in the Master Trust. The Plans interest in the Master Trust and investments held in the Master Trust are recorded at fair value.

Fair value of financial and non-financial assets and liabilities is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The three-tier hierarchy for inputs used in measuring fair value, which prioritizes the inputs used in the methodologies of measuring fair value for assets and liabilities, is as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3 – No observable pricing inputs in the market

Financial assets and financial liabilities are classified in their entirety based on the lowest level of inputs that is significant to the fair value measurements. The Plan sponsors' assessment of the significance of a particular input to the fair value measurements requires judgment, and may affect the valuation of the assets and liabilities being measured and their placement within the fair value hierarchy.

Purchases and sales of investments in the Master Trust are reflected as of the trade date. Realized gains and losses on sales of investments are determined on the basis of average cost. Dividend income is recorded on the ex-dividend date. Interest earned on investments in the Master Trust is recorded on the accrual basis. Net appreciation/depreciation recorded by the Master Trust includes gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

Management evaluated subsequent events through October 15, 2013, the date the financial statements were available to be issued.

Recently Adopted Accounting Standards

During 2012, the Plans adopted the accounting standard update regarding fair value measurement. This update was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. This standard update also changes certain fair value measurement principles and enhances the disclosure requirements, particularly for Level 3 fair value measurements. The adoption of this standard did not have a significant impact on the Plan's financial statements.

VERIZON CORPORATE SERVICES GROUP INC. ET AL PENSION PLANS

Notes to Financial Statements

December 31, 2012 and 2011

3. Plan Termination

Except as limited by plan terms, any plan may be terminated at any time by action of the Board of Directors of the sponsoring Companies. All hourly and union plans are subject to collective bargaining obligations.

Upon termination of any plan, distribution of the assets to provide for pension benefits will be made under the terms of an applicable plan and generally in the following order:

- (A) To provide for payment of pensions which were being paid to retired employees or beneficiaries on the date three years prior to the date of termination, and for employees or beneficiaries who would have been receiving benefits three years prior to the date of termination if the employee had retired prior to such earlier date and if the employee's pension had commenced as of the beginning of such three-year period;
- (B) To provide for that portion of the pensions, which is guaranteed by the Pension Benefit Guaranty Corporation;
- (C) To provide for pensions to the extent that they are non-forfeitable; and
- (D) To provide for pensions accrued as of the date of termination.

To the extent that net assets available for benefits exceed the amounts described above, such excess will be allocated as set forth in the applicable Plan Document.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future payments that are attributable under the Plans' provisions to the service employees have rendered to date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated vested employees or their beneficiaries, and (b) present employees or their beneficiaries.

The Plans' actuary determines the actuarial present value of accumulated plan benefits by applying actuarial assumptions to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2012 and 2011, for the actuarial present value of accumulated plan benefits are as follows:

- (A) The present values were based on a 4.94% discount rate for 2012 and a 5.75% discount rate for 2011.
- (B) The assumed retirement age is based on normal rates of retirement, which are based on past experience and expectations of future retirements.
- (C) The mortality tables used for the January 1, 2012 present values are as follows:

4. Actuarial Present Value of Accumulated Plan Benefits *(continued)*

These actuarial assumptions are based on the assumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Investment in Master Trust

Master Trust

The Master Trust holds both defined benefit and defined contribution assets. Assets in the Master Trust are either pooled between defined benefit plans and defined contribution plans or specific to defined benefit plans, or specific to the defined contribution plans.

On a monthly basis, investments, investment income and expenses are allocated to the Plans in accordance with their proportionate interest in the defined benefit portion of the Master Trust.

Valuation of Investments

Investments in securities traded on national and foreign securities exchanges are valued by the Trustee at the last reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices. Over-the-counter securities, government obligations, corporate bonds and international bonds are valued at the bid prices or the average of the bid and ask prices on the last business day of the year from published sources or, if not available, from other sources considered reliable such as multiple broker quotes. Commingled funds not traded on national exchanges are priced by the Trustee, at net asset value, based on statements received from the investment manager. Commingled funds held by third-party custodians appointed by the fund managers are priced by the respective custodian or fund administrator at net asset value. The fund's custodian provides the investment manager with a net asset value and the investment manager has the responsibility for providing this information to the custodian of the respective plan. Commingled funds are classified by the asset class of the underlying holdings.

5. Investment in Master Trust *(continued)*Valuation of Investments *(continued)*

The following table summarizes redemption restrictions for investments of the Master Trust for which fair value is estimated using net asset value per share:

Asset Type	Unfunded Commitments	Liquidation Period	Redemption Frequency	Redemption Notice	Redemption Restrictions
Commingled funds					
U.S. equity securities	Not applicable	Daily	Daily	None	None
International equity securities	Not applicable	Twice a month	Twice a month	Trade date less 2	None
U.S. fixed income securities	Not applicable	Daily	Daily	None	None
International fixed income securities	Not applicable	Daily	Daily	None	None
Other commingled funds	Not applicable	Daily	Daily	None	None
Hedge funds	None	1 year	Quarterly	5-90 days	None

The investment manager of the entity values venture capital, corporate finance, and natural resource limited partnership investments. Real estate investments are valued at amounts based upon appraisal reports prepared by either independent real estate appraisers or the investment manager using discounted cash flows or market comparable data. Loans secured by mortgages are carried at the lesser of the unpaid balance or appraised value of the underlying properties. The values assigned to these investments are based upon available and current market information and do not necessarily represent amounts which might ultimately be realized. Because of the inherent uncertainty of valuation, estimated fair values might differ significantly from the values that would have been used had a ready market for the securities existed. These differences could be material. Forward currency contracts, futures, and options are valued by the Trustee at the exchange rates and market prices prevailing on the last business day of the year. Both exchange rates and market prices are readily available from published sources. These securities are classified by the asset class of the underlying holdings.

Hedge funds are recorded by the Trustee, at net asset value, based on statements received from the investment manager. These funds are priced in accordance with the terms of their corresponding offering or private placement memoranda.

Investment Activities from Master Trust

Historically, the portfolio strategy emphasized a long-term equity orientation, significant global diversification, and the use of both public and private investments. In an effort to reduce the risk of the portfolio strategy and better align assets with liabilities, the strategy is shifting to one that is more liability driven, where cash flows from investments better match projected benefit payments but result in lower asset returns. The intention is to reduce the likelihood that assets will decline at a time when liabilities increase (referred to as liability hedging), with the goal to reduce the risk of underfunding to the plan and its participants and beneficiaries. Both active and passive management approaches are used depending on perceived market efficiencies and various other factors. The diversification and risk control processes serve to minimize the concentration of risk.

While target allocation percentages will vary over time, the overall investment strategy is to achieve a mix of assets to meet projected benefit payments while taking into consideration risk and return. The initial target allocation for plan assets is designed so that 70% of the assets have the objective of achieving a return in excess of the growth in liabilities (comprised of public equities, private equities, real estate, hedge funds, high yield and emerging debt) and 30% of the assets are invested as liability hedging assets (typically longer duration fixed income). This allocation will shift as funded status improves to a higher allocation to liability hedging assets. Target policies will be revisited periodically to ensure they are in line with fund objectives.

Assets are monitored to assess the appropriate levels assigned within the fair value hierarchy. Changes in economic conditions, such as bankruptcy, default or delisting, may require the transfer of an asset from one fair value level to another. When such transfer occurs, it is recognized as of the end of the reporting period. Transfers from Level 3 to Level 2 for Commingled funds and US equity securities, which are included in the table below for year 2011, were the result of identifying observable prices for the underlying holdings, whereas transfers into Level 3 primarily reflect the absence of observable prices for U.S. equity securities.

6. Derivatives

In the normal course of operations, the Master Trust's assets and liabilities may include derivative financial instruments (futures, options and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Master Trust's involvement in such instruments but are not indicative of potential loss. The intent is to use derivative financial instruments as economic hedges to manage market volatility risk, foreign currency exchange rate risk or credit risk associated with the Master Trust's investment assets. The Master Trust's fiduciaries do not anticipate any material adverse effect on the Master Trust's financial position resulting from its involvement in these instruments.

The following table presents the effect of gains (losses) with respect to these derivative instruments, by type of derivative. The gains (losses) are on the Statements of Changes in Net Assets Available for Benefits included in the "Allocable share of Master Trust investment activities" (dollars in thousands):

Years Ended December 31,	2012	2011
Forward foreign currency exchange rate contracts	\$ (675)	\$ 8,640
Futures	2,038	4,911
Options	7,896	50,422
Swaps	(213)	201

Futures Contracts

The primary risk managed using futures contracts is the price risk associated with investments. Investment managers enter into various futures contracts to economically hedge investments in domestic securities. These contracts, which are considered derivatives under ASC 815, *Derivatives and Hedging*, are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into such a contract on behalf of the Plans, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded on a daily basis by the trustee as a realized gain or loss equal to the difference in the value of the contract between daily closing prices.

Option Contracts

The primary risk managed using option contracts is the price risk associated with investments. Purchased and written option contracts are agreements between two parties giving the owner, under a purchased option, the right, but not the obligation, to buy or sell a specified item at a fixed price (exercise or strike) during a specified period, and giving the seller the obligation to sell or buy a specified item at a fixed price. These option contracts are intended to economically hedge the Master Trust's investments in foreign and domestic securities. When the investment manager buys or writes an option contract, a nonrefundable fee (the premium) is paid or received by the Master Trust and is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses when the options expire. The difference between the premium and the amount paid or received on affecting a closing purchase or sale transaction is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss if sold or an adjustment to cost of the underlying investment if acquired upon exercise.

The following tables present the total number of written options held by the Master Trust (dollars in thousands):

Foreign Currency Contracts

The primary risk managed using foreign currency forward contracts is the foreign currency exchange rate risk associated with the Master Trust's investments denominated in foreign currencies. Forward foreign currency contracts are agreements to exchange foreign currencies at a specified future date and rate, the terms of which are not standardized on an exchange. The plans use foreign exchange transactions in certain cases to attempt to enhance the overall return of its investment portfolio by taking advantage of perceived opportunities in the market and in other cases to hedge the risk of currency fluctuations. All the Master Trust foreign currency contracts address the currency risk. Risk arises both from the possible inability of the counterparties to meet the terms of the contracts (credit risk) and from the movements in foreign currency exchange rates (market risk). The contracts are recorded at fair value on the date the contract is entered into, which is typically zero.

The following table presents the contracts held by the Master Trust. The fair value presented in this table is presented in the Statements of Net Assets Available for Benefits under "Plan's interest in Master Trust" (dollars in thousands):

	2012		2011	
	Notional	Fair Value	Notional	Fair Value
Derivative Assets: Long US\$	\$ 925,946	\$ (1,137)	\$ 2,307,834	\$ 8,081

Cross Currency (non US\$)	122,180	17	199,874	3,651

Credit Derivatives

A credit derivative is a bilateral contract between a buyer and a seller under which the seller agrees to provide protection to the buyer against the credit risk of a particular entity ("reference entity" or "reference credit"). Credit derivatives generally require that the seller of credit protection make payments to the buyer upon the occurrence of predefined credit events. These triggering events may include the market standard of failure to pay on indebtedness, bankruptcy of the reference credit, debt restructuring, or the acceleration of indebtedness. The seller of such protection may not be required to make payments until a specified amount of losses has occurred with respect to the portfolio and/or may only be required to pay for losses up to a specified amount.

Credit derivatives are used primarily to help mitigate credit risk in the Master Trust's corporate bonds portfolio. Through these contracts, the Master Trust either purchases or writes protection on either a single name or a portfolio of reference credits. The credit derivatives written by the Master Trust include credit default swaps.

6. Derivatives (continued)

Credit Derivatives (continued)

A credit default swap is a contract in which, for a fee, a protection seller agrees to reimburse a protection buyer for any losses that occur due to a credit event on a reference entity. If there is no credit default event or settlement trigger, as defined by the specific derivative contract, then the protection seller makes no payments to the protection buyer and receives only the contractually specified fee. However, if a credit event occurs as defined in the specific derivative contract sold, the protection seller will be required to make a payment to the protection buyer.

The Master Trust evaluates the payment/performance risk of the credit derivatives to which it stands as a protection seller based on the credit rating which has been assigned to the underlying referenced credit. Where external ratings by nationally recognized statistical rating organizations (such as Moody's and Standard & Poor's) are used, investment grade ratings are considered to be Baa/BBB or above, while anything below is considered non-investment grade.

The following table presents the credit derivatives held by the Master Trust. The fair value of the derivatives presented in the table is located in the Statements of Net Assets Available for Benefits under "Plan's interest in Master Trust" (dollars in thousands):

6. Derivatives *(continued)*

Credit Derivatives *(continued)*

Credit risk associated with the Master Trust's derivatives is the risk that a derivative counterparty will not perform in accordance with the terms of the applicable derivative contract. To mitigate such risk, the Master Trust requires the use of master netting arrangements and collateral arrangements wherever practical. Credit derivatives, including credit default swaps (CDS) and total return swaps (TRS), derive their value from the credit risk on an underlying bond or other financial asset. As of December 31, 2012 and 2011, the Master Trust's maximum credit exposure (notional value of short position in CDS and TRS) was \$39.0 million and \$26.0 million, respectively. As of December 31, 2012 and 2011, the aggregate fair value of all credit derivative instruments was \$(1.7) million and \$(0.5) million, respectively.

7. Securities Lending

The Master Trust maintained a Securities Lending Agreement (the "Agreement") with the Trustee. The Agreement, dated as of March 23, 2000, includes domestic and international securities. The securities on loan may be sold, though they must be recalled. Securities on loan may not be re-pledged.

Securities on loan at December 31, 2012, approximated \$211 million. The collateral held by the trustee represents approximately 102.1% of the market value of securities on loans.

The Master Trust's exposure to credit loss is reduced as the Agreement provides full indemnity against broker default by the Trustee. In addition, the Agreement requires collateral from the borrowing brokers of an amount equal to 102% and 105% of the fair value of the securities loaned for loans of US securities and non-US securities, respectively. The collateral primarily consists of cash, which was invested in financial instruments that did not utilize derivatives as an investment vehicle.

The Master Trust's net earnings derived from the Agreement were approximately \$3.6 million and \$6.3 million for the years ended December 31, 2012 and December 31, 2011, respectively.

8. Income Tax Status

The Plans have received determination letters from the Internal Revenue Service (“IRS”) stating that the form or terms of the Plans are qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and therefore the related trust is exempt from taxation. The Florida plan, the Southwest plan, the VPPA, the VMPP and the Mid-Atlantic plan received favorable determination letters on July 25, 2011, April 25, 2012, May 6, 2013, April 8, 2013 and June 10, 2013, respectively. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualification. The Plans’ administrator believes the Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plans are qualified and the related trust is tax-exempt.

U.S. GAAP require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plans, and has concluded that as of December 31, 2012, there are no uncertain positions taken or expected to be taken. The Plans are subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The Plan administrator believes the Plans are no longer subject to income tax examinations for years prior to 2009.

9. Related Party Transactions

Verizon Investment Management Corp (“VIMCO”), an indirect, wholly owned subsidiary of Verizon Communications Inc., qualifies as a related party. VIMCO is the investment advisor for certain investment funds and received no compensation from the Plans other than reimbursement of certain expenses directly attributable to its investment advisory and investment management services rendered to the Plans.

The Companies are the sponsor of the Master Trust and the Plans whose assets are held in the Master Trust. The Companies employ the administrator of the various plans and members of the administrator's staff. The Companies received no compensation from the Plans other than reimbursement of certain expenses directly attributable to administrative services rendered to the Plans.

The Bank of New York Mellon, as Trustee of the Master Trust, rendered various trustee services to the Master Trust for which it was compensated in accordance with its agreements with the Companies and VIMCO. VIMCO, the Companies and the Bank of New York Mellon are all parties in interest (as the term is defined by ERISA) to the Master Trust and the Plans whose assets are held in the Master Trust. All of the related party transactions described in this section are exempt from the prohibited transaction rules pursuant to statutory or administrative exemptions.

10. Commitments and Contingencies

The Master Trust has outstanding investment commitments whereby the Master Trust has pledged private equity capital contributions of \$1.4 billion and real estate contributions of \$0.4 billion at December 31, 2012. Historically, pledged contributions are subject to drawdown over the term of the investment (generally 10 years). However, drawdowns could occur more rapidly on the basis of demonstrated need by the partnerships. Other investments held by the Master Trust will be liquidated to meet these capital commitments.

In November of 2012, a lawsuit was filed in Federal court in Dallas, Texas, relating to the Prudential annuity transaction pursuant to which approximately 41,000 pension annuitants in the VMPP were transferred to Prudential. The case challenges the validity of the Prudential annuity transaction and alleges several violations of ERISA. Verizon is vigorously defending the case. The Verizon defendants have filed a motion to dismiss the case, and that motion is fully briefed and pending before the district court.

In the ordinary course of business the Plans may be involved in various legal proceedings. Where it is determined, in consultation with counsel based on litigation and settlement risks, that a loss is probable and estimable in a given matter, the Companies establish an accrual. In none of the currently pending matters is the amount of accrual material. An estimate of the reasonably possible loss or range of loss in excess of the amounts already accrued cannot be made at this time due to various factors typical in contested proceedings, including (1) uncertain damage theories and demands; (2) a less than complete factual record; (3) uncertainty concerning legal theories and their resolution by courts or regulators; and (4) the unpredictable nature of the opposing party and its demands. The Plans' administrator does not expect that the ultimate resolution of any pending legal matter in future periods will have a material effect on the Plans financial condition, but it could have a material effect on its results of operations for a given reporting period.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	July 1, 1960. Restated December 31, 2009 with amendments through December 31, 2011
2010 Voluntary Separation Incentive Offer	The plan was amended during 2010 to offer unreduced benefits for certain service pension eligible associates who separated from service under the voluntary separation incentive offer.
2010 Spinoff	Effective June 30, 2010, the assets and liabilities of the associates transferred to Frontier Communications Corporation were spunoff from this Pension Plan.
Participation	Date of hire for all regular, hourly-paid employees
Normal Retirement Eligibility	The later of age 65 or the fifth anniversary of the date of hire
Amount	The benefit determined under (1) or (2), whichever is applicable (1) For employees who are not former Contel employees, the greater of (a) or (b): (a) 1.35% of Average Annual Compensation times Accredited Service (b) Minimum benefit shown in Table A based on years of Accredited Service and the hourly plan applicable to the employee (2) For former Contel employees, the greater of (a) or (b): (a) The benefit calculated under the Contel pension plan as of the date of transfer to the GTE hourly plan Plus

Schedule SB Attachment (Form 5500)—2012 Plan Year

GTE Florida Hourly

EIN: 59-0397520 PN: 001

The benefit equal to 1.35% of Average Annual Compensation times Accredited Service measured from the date of transfer to the GTE hourly plan (subject to the minimum benefit from Table A based on service from the date of transfer to the GTE hourly plan)

- (b) The benefit described in (1) above (including the minimum), using Accredited Service under the Contel pension plan plus Accredited Service under the GTE hourly pension plan

The pension determined under (1) or (2) above is offset by the annual amount payable from any other pension plan to which the company (or any other member of the controlled group) has contributed, but only to the extent that the benefit is attributable to employer contributions.

Early Retirement Eligibility

Employees are eligible for early retirement after attaining:

- (1) At least 15 years of Accredited Service and age plus Accredited Service (both unrounded) equal to or greater than 76 (Rule of 76), or
- (2) At least 30 years of Accredited Service (regardless of age)

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at termination of employment.

- (1) For employees who are not former Contel employees, the pay-related benefit is reduced 3% for each year retirement precedes age 55, up to a maximum reduction of 18%. There is no reduction if the participant has 30 years of Accredited Service.

Early retirement reductions, if applicable, are applied to the pay-related formula prior to comparing to the minimum benefit shown in Table A.

- (2) For former Contel employees, the benefit accrued under the Contel formula is reduced 4% for each year retirement precedes age 60. The benefit accrued under the GTE formula is reduced as described in (1) above.

Deferred Vested Retirement Eligibility

Five years of Vesting Service

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at termination of employment.

The minimum benefit for a deferred vested participant is equal to the applicable benefit from Table A based on Accredited Service projected to normal retirement then multiplied by the ratio of Vesting Service at termination of employment to projected Vesting Service at normal retirement. There is no minimum benefit for a deferred vested participant with less than 15 years of projected Accredited Service.

Participants with at least 15 years of Accredited Service at termination of employment may commence an actuarially reduced benefit as early as the date the Rule of 76 is met. Participants with at least ten years of Accredited Service at termination of employment may commence an actuarially reduced benefit as early as age 55. See Table B for actuarial reduction factors.

Disability Retirement Eligibility

15 years of Accredited Service and total and permanent disability

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at disability. There is no reduction for benefit commencement prior to normal retirement.

Preretirement Survivor's Benefit Eligibility

Five years of Vesting Service

Amount

The benefit that would have been payable had the participant been eligible for a service pension and terminated employment on the date of death, elected the 65% joint and survivor annuity and then died. There is no reduction for early commencement if the participant died while an active employee. Otherwise, the benefit is reduced under the provisions of the deferred vested retirement benefit.

Definitions

Monthly Compensation

Monthly base rate of pay. Monthly Compensation excludes overtime, differentials, premiums, and other similar types of payment, but includes bonuses and commissions on account of sales and team-oriented short-term incentives as specified by the employee benefits committee.

Average Annual Compensation

Monthly Compensation during the highest 60 consecutive months divided by five. If less than 60 months of Monthly Compensation, the average is based on the number of months available.

Accredited Service

One year for each calendar year the employee is credited with 2,080 hours. If the employee is credited with less than 2,080 hours during a calendar year, Accredited Service for the year is equal to the number of hours credited during the year divided by 2,080. For employees with in-service distributions, Accredited Service begins on the later of January 1, 2000 or the distribution election date.

Vesting Service

One year for each calendar year the employee is credited with 1,000 hours. If the employee is credited with less than 1,000 hours during a calendar year, Vesting Service for the year is equal to the number of hours credited during the year divided by 2,080.

The funding valuation reflects the following assumption change:

- The lump sum interest rate was lowered from 5.00% to 4.50%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall, as such approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

Effective Date	July 1, 1960. Restated December 31, 2009 with amendments through December 31, 2011
2010 Voluntary Separation Incentive Offer	The plan was amended during 2010 to offer unreduced benefits for certain service pension eligible associates who separated from service under the voluntary separation incentive offer.
2010 Spinoff	Effective June 30, 2010, the assets and liabilities of the associates transferred to Frontier Communications Corporation were spunoff from this Pension Plan.
Participation	Date of hire for all regular, hourly-paid employees
Normal Retirement Eligibility	The later of age 65 or the fifth anniversary of the date of hire
Amount	The benefit determined under (1) or (2), whichever is applicable (1) For employees who are not former Contel employees, the greater of (a) or (b): (a) 1.35% of Average Annual Compensation times Accredited Service (b) Minimum benefit shown in Table A based on years of Accredited Service and the hourly plan applicable to the employee (2) For former Contel employees, the greater of (a) or (b): (a) The benefit calculated under the Contel pension plan as of the date of transfer to the GTE hourly plan Plus

Schedule SB Attachment (Form 5500)—2012 Plan Year

The benefit equal to 1.35% of Average Annual Compensation times Accredited Service measured from the date of transfer to the GTE hourly plan (subject to the minimum benefit from Table A based on service from the date of transfer to the GTE hourly plan)

- (b) The benefit described in (1) above (including the minimum), using Accredited Service under the Contel pension plan plus Accredited Service under the GTE hourly pension plan

The pension determined under (1) or (2) above is offset by the annual amount payable from any other pension plan to which the company (or any other member of the controlled group) has contributed, but only to the extent that the benefit is attributable to employer contributions.

Early Retirement Eligibility

Employees are eligible for early retirement after attaining:

- (1) At least 15 years of Accredited Service and age plus Accredited Service (both unrounded) equal to or greater than 76 (Rule of 76), or
- (2) At least 30 years of Accredited Service (regardless of age)

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at termination of employment.

- (1) For employees who are not former Contel employees, the pay-related benefit is reduced 3% for each year retirement precedes age 55, up to a maximum reduction of 18%. There is no reduction if the participant has 30 years of Accredited Service.

Early retirement reductions, if applicable, are applied to the pay-related formula prior to comparing to the minimum benefit shown in Table A.

- (2) For former Contel employees, the benefit accrued under the Contel formula is reduced 4% for each year retirement precedes age 60. The benefit accrued under the GTE formula is reduced as described in (1) above.

Deferred Vested Retirement Eligibility

Five years of Vesting Service

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at termination of employment.

The minimum benefit for a deferred vested participant is equal to the applicable benefit from Table A based on Accredited Service projected to normal retirement then multiplied by the ratio of Vesting Service at termination of employment to projected Vesting Service at normal retirement. There is no minimum benefit for a deferred vested participant with less than 15 years of projected Accredited Service.

Participants with at least 15 years of Accredited Service at termination of employment may commence an actuarially reduced benefit as early as the date the Rule of 76 is met. Participants with at least ten years of Accredited Service at termination of employment may commence an actuarially reduced benefit as early as age 55. See Table B for actuarial reduction factors.

Disability Retirement Eligibility

15 years of Accredited Service and total and permanent disability

Amount

The benefit is computed in the same manner as the normal retirement benefit, but based on Average Annual Compensation and Accredited Service at disability. There is no reduction for benefit commencement prior to normal retirement.

Preretirement Survivor's Benefit Eligibility

Five years of Vesting Service

Amount

The benefit that would have been payable had the participant been eligible for a service pension and terminated employment on the date of death, elected the 65% joint and survivor annuity and then died. There is no reduction for early commencement if the participant died while an active employee. Otherwise, the benefit is reduced under the provisions of the deferred vested retirement benefit.

Potential Difference Between Electronic SB and Signed SB

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- The lump sum interest rate was lowered from 5.00% to 4.50%.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall, as such approval of the Commissioner is not required.
