INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of the
WCA Hospital Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of WCA Hospital Retirement Plan (the Plan), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by PNC Bank, NA, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions on behalf of the Plan. The Plan Administrator has obtained certifications from the custodian as of December 31, 2012 and 2011, and for the years then ended, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As described in Note 11 to the financial statements, the 2011 financial statements have been restated for an additional employer contribution deposited to the plan subsequent to the year ended December 31, 2011. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental Schedule of Assets Held (At End of Year) and Schedule of Reportable Transactions as of or for the year ended December 31, 2012 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purposes of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1. DESCRIPTION OF PLAN

The following is a brief description of the WCA Hospital (the Company) Retirement Plan (the Plan) and is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: WCA Hospital Retirement Plan (the Plan) is a noncontributory defined benefit pension plan that covers substantially all employees of The Woman's Christian Association of Jamestown, NY (Plan Sponsor) hired through December 31, 2004, the effective date for which benefits and participation under the plan were essentially frozen and provides for retirement and death benefits.

Administration: The WCA Hospital Pension Investment Committee is solely responsible for the general administration of the Plan and carrying out the Plan provisions. The Pension Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Directors. The custodian of the Plan's assets is PNC Bank, N.A. Hallett Associates, Inc. serves as the actuary.

Pension benefits: Normal retirement age for the Plan is 65 years. Benefits are based on years of service and annual compensation. The normal benefit form is a monthly annuity payable for life. The Plan permits early retirement between the ages 55 to 64 with 10 years of service. The standard form of benefit for an unmarried participant is a life annuity. The standard form of benefit for a married participant is a Qualified Joint one-half Survivor Annuity. If the value of a participant's account is less than $5,000, a lump sum payment is permitted by the Plan.

Vesting: Participants became 100% vested after five years of service.

Funding Policy: As described in the plan, it is the Company's intention to make contributions under the plan that meet or exceed the minimum funding requirements as defined in Section 412 of the Internal Revenue Code and ERISA. These contributions will be determined based upon actuarial valuations and recommendations made by the actuary under accepted actuarial principles. The Plan has met the funding requirements of ERISA in 2012 and 2011.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to employee service rendered through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their compensation during their years of credited service. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Plan elected to accept the relief offered by the Preservation of Access to Medicare Beneficiaries and Pension Relief Act of 2010, specifically the relief provided under Sec. 201 (a)(1)(O)(ii) 2 Plus 7 Amortization Schedule for the 2011 plan year.

Payment of Benefits: Benefits are recorded when paid.

Administrative Expenses: Direct costs of administering the Plan are borne by the Plan. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Recently Issued Accounting Pronouncements: In May 2011, the FASB issued Update 2011-04, "Fair Value Measurement." The Update established common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. generally accepted accounting principles and International Financial Reporting Standards. The amendments in this Update are to be applied prospectively during annual periods beginning after December 15, 2011. Other than requiring additional disclosures, the adoption of this Update did not have a material impact on the Plan's financial statements.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Event: These financial statements have not been updated for subsequent events occurring after October 14, 2013, which is the date these financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standard Board (FASB) *Accounting Standards Codification* (ASC) 820: *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to valuation methodology are unobservable and significant to the overall fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Cash reserve fund: Valued at amortized cost, which approximates fair value and is classified as a level 1 investment.

Shares of registered investment companies: Valued at net asset value (NAV) of shares held at year end. The NAV is the closing price reported on the active market on which the securities are traded. Mutual funds are classified as Level 1.

Common collective trust: This investment is a public investment security valued using the NAV. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments, which are traded on an active market or have observable inputs. The common collective trust is classified as a Level 2 investment. The following represents the investment strategy of the common collective trust:

Colchester Global Bond Fund: This common collective trust has an investment objective of achieving favorable income- oriented returns from a globally diversified portfolio of primarily debt or debt-like securities and the preservation and enhancement of principal. As of December 31, 2012 and 2011 there were no unfunded commitments. Redemptions are available on a monthly basis with at least 10 days notice.

Limited partnerships and related investments: These investments are measured primarily on a NAV basis, are available, and are classified as Level 3 if they are subject to certain restrictive provisions relating to redemptions from the investment. At December 31, 2012 and 2011, notice periods for limited partnerships generally range from one day to illiquid, according to the provisions of the respective investment agreements.

Investments in venture capital/private equity partnerships and hedge funds are classified as Level 3 in the fair value hierarchy as they are based on the presence of significant unobservable inputs. These securities are estimated using current information obtained from the general partner or investment manager for the respective funds. Investments in venture capital/private equity partnerships are generally estimated using partner's capital balances.

Investments in venture capital/private equity partnerships are generally made through limited partnerships. Under the terms of such agreements, the Plan may be required to provide additional funding when capital or liquidity calls are made by fund managers. These partnerships may have a limited existence, and they may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, or other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. The Plan cannot anticipate such changes because they generally arise from unforeseeable events, but should they occur they could reduce liquidity or originally anticipated investment returns. Accordingly, the timing and amount of future capital or liquidity calls in any particular future year are uncertain. Such investments generally may not provide redemption options for investors and, subsequent to final closing, do not permit subscriptions by new or existing investors. The following represents investment strategies of limited partnership investments:

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

IR&M Core Bond Fund, LLC: The Fund's investment objective is to outperform the Barclays Capital U.S. Aggregate Bond Index. The Fund seeks to achieve its objective through investing in fixed income securities including, but not limited to, U.S. dollar denominated bonds (high yields permitted) and other financial instruments which provide exposure to various fixed income characteristics.

AEW Global Property Securities Fund, L.P.: The Fund's objective is to generate net returns in excess of the UBS Global Real Estate Investor Index through the creation and active management of a portfolio of publicly traded equity securities issued by real estate investment trusts and other publicly held real estate companies primarily in North America, Europe, Australia, and Asia.

Hedge funds: These investments are measured primarily on a NAV basis, are available, and are classified as Level 3 if they are subject to certain restrictive provisions relating to redemptions from the investment. At December 31, 2012 and 2011, notice periods for hedge funds are quarterly, according to the provisions of the respective investment agreements. Investments in hedge funds have numerous provisions which may restrict the redemptive nature of the investment. Subject to the expiration of the "lock-up" period, the investor has the ability to liquidate its investments periodically as defined by the provisions of the respective investment fund agreements. Investments in hedge funds are generally estimated using NAVs. In cases where the investee has provided its investors with a NAV per share or partner capital balances that have been calculated in accordance with the AICPA Audit and Accounting Guide, *Investment Companies*, the Plan has estimated its fair value by using the NAV provided by the investee as of December 31st.

In addition, certain investments in hedge funds are subject to redemption "gate" or redemption suspension provisions as defined in the respective investment funds' agreements. The investment manager of the investment funds may restrict or suspend redemption requests for various reasons, including, but not limited to, insufficient liquidity at the investment fund to satisfy redemption requests or to preserve the interests of the shareholders not redeeming from the investment funds. At December 31, 2012 and 2011, no redemption gates or suspension provisions have been imposed on the Plan's investments in hedge funds of funds. Investment strategies are as follows:

Aetos Capital Multi-Strategy Arbitrage Fund, LLC: The Fund seeks to produce an attractive absolute return on invested capital, largely independent of the various benchmarks associated with traditional asset classes, by allocating its assets among a select group of portfolio managers that utilize a variety of arbitrage strategies.

Aetos Capital Distressed Investment Strategies Fund, LLC: The Fund seeks to produce an attractive absolute return on invested capital, largely independent of the various benchmarks associated with traditional asset classes, by allocating its assets among a select group of portfolio managers across a variety of distressed investment strategies.

Aetos Capital Long/Short Strategies Fund, LLC: The Fund seeks to produce an attractive absolute return on invested capital, largely independent of the various benchmarks associated with traditional asset classes, by allocating its assets among a select group of portfolio managers across a variety of long/short strategies.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table presents the fair values and classification of the Plan's investments measured on a recurring basis as of December 31, 2012 and 2011:

*Did not represent 5% or more of plan net assets in the respective year.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $4,478,580 (depreciated in value by $1,288,835 - 2011) as follows:

	2012	2011
Shares of registered investment companies	$ 3,218,211	$ (1,598,210)
Limited partnerships and similar investments	1,260,369	309,375
Total appreciation (depreciation)	$ 4,478,580	$ (1,288,835)

NOTE 5. ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits, as computed by consulting actuaries from Hallett Associates, Inc., is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuations as of December 31, 2012 and 2011 are:

Actuarial cost method	Projected Unit Credit
Assumed rate of return on investments	5.54% - 7.52% - January 1, 2012 2.94% - 6.46% - January 1, 2011
Salary increases	N/A
Retirement	Age 55 – 61 – 5% Age 62 – 64 – 25% Age 65 – 100%
Mortality basis	RP2000 Combined Mortality Table – 1/1/12 IRS 2011 Static Mortality – 1/1/11
Employer turnover	100% of Sarason's T-7 withdrawal table
Disability	1978 Society of Actuaries study of long-term disability insurance experience
Expenses	Prior years administrative costs plus anticipated PBGC premiums.

In the valuation there was a change on the discount rate used to calculate the rate of return on investments from 4.25% per year, net of expenses in 2011 to 3.80% per year, net of expenses in 2012. The change resulted in a decrease in accumulated plan benefits during the year ended December 31, 2012 by $6,214,157 (increased by $5,593,818 - 2011). Other changes in actuarial assumptions did not have a material effect on the actuarial present value of accumulated plan benefits. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2012 and 2011. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 6. PLAN TERMINATION

In the event the plan terminates, the net assets of the plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

NOTE 6. PLAN TERMINATION (CONTINUED)

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the plan are insured by the PBGC if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the plan are guaranteed at the level in effect on the date of the plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2012 that ceiling is $4,653 per month ($4,500 – 2011). That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the plan terminate at some future time will depend on the sufficiency, at that time, of the plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7. INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated April 10, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions. Currently, an audit of the year ended December 31, 2011 is in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 9. INFORMATION CERTIFIED BY THE CUSTODIAN

The following financial information relating to a Plan's assets at December 31, 2012 and 2011, as well as income and transactions for the years then ended have been derived from information provided by PNC Bank, N.A., the custodian of the Plan, has been certified by them as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

Dividends	**$ 309,291**	$ 525,473
Net appreciation (depreciation) in fair value of investments	**$ 4,478,580**	$ (1,288,835)

NOTE 10. RELATED PARTY TRANSACTIONS

Certain Plan investments and shares of registered investment companies are managed by Prime Bucholz & Associates, Inc. PNC Bank, N.A. provides certain administrative services to the plan. Certain fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Administrative, audit, and advisory expenses paid to related parties amounted to $146,139 for the year ended December 31, 2012 and were not covered by revenue sharing ($157,386 - 2011).

NOTE 11. PRIOR PERIOD ADJUSTMENT

During the year ended December 31, 2012 the Plan Sponsor made a contribution to the Plan in the amount of $636,000 which was part of the required minimum contribution as determined by the actuary for the plan year ended December 31, 2011. This contribution was not recorded as a contribution for the plan year ended December 31, 2011. Accordingly, a prior period adjustment of $636,000 was recorded as an increase to employer contributions on the Statement of Changes in Net Assets Available for Benefits and an increase to the contribution receivable balance on the Statement of Net Assets Available for Benefits as of and for the plan year ended December 31, 2011.

This correction has been accounted for retrospectively and as such, certain 2011 figures have been restated as depicted below.

	Previously Stated 2011	Adjustment 2011	Restated 2011
Contributions	$ 1,400,000	$ 636,000	$ 2,036,000
Employer contribution receivable	$ 350,000	$ 636,000	$ 986,000

7. Methods

a. Asset Valuation Method

Asset gains or losses are determined each year by calculating the difference between the expected market value (based on the funding rate of interest) and the actual market value of the assets on the valuation date. These gains or losses are then recognized over a 3-year period at 33.33% per year, with the actuarial value of assets subject to a minimum of 90% and a maximum of 110% of the market value

b. Actuarial Cost Method

As described in IRC Section 430 and mandated by the Pension Protection Act of 2006, including the relief offered by the Preservation of Access to Medicare Beneficiaries and Pension Relief Act of 2010, specifically the relief provided under Sec. 201(a)(1)(D)(ii) 2 Plus 7 Amortization Schedule was elected for the 2010 and 2011 plan year

8. Changes in Actuarial Assumptions or Cost Methods

The funding interest rates and mortality table were updated as mandated by the Pension Protection Act of 2006. The interest rates were further adjusted to recognize the changes brought about by the Moving Ahead for Progress in the 21st Century Act ("MAP-21")

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
