NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2012

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of Bestway Enterprises, Inc. 401(k) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all employees of the Company who have six months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the plan. Contributions are limited, in total, by certain provisions of the Internal Revenue Code, which are subject to change from time to time. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various funds held by registered investment companies and collective trust funds as investment options for participants. To date, the Company has elected to make no contributions on behalf of the Plan.

PARTICIPANT ACCOUNTS AND VESTING

Each participant's account is credited with the participant's contribution and Plan earnings and is charged with the proportionate share of administrative expenses. Allocations are based on the participant's earnings or account balances. All amounts credited to a participant's account are 100% vested and the benefit to which a participant is entitled is the balance in the participant's account.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their accounts a minimum of $1,000 to maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined periodically by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

PAYMENT OF BENEFITS

Normal retirement age is 55. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a rollover into another qualified plan, or other payment options, including annuities.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

Fully benefit-responsive investment contracts held directly by the Plan or included in the underlying investments of collective investment funds in which the Plan holds an interest are presented at fair value. However, contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts. In addition, any material difference between the fair value of these investments and their contract value is presented as a separate adjustment line in the statements of net assets available for benefits.

The Stable Value collective investment fund holds guaranteed investment contracts ("GIC"), synthetic GICs and cash and cash equivalents. All defined contribution retirement plan trusts invested in the collective investment fund have a proportionate undivided interest in all assets of the fund. The investment objective of the fund is stability of principal and high current income. The average yield for the Stable Value Fund investment contract based on actual earnings was 2.31% for 2012.

FAIR VALUE MEASUREMENTS

The Plan follows the provisions of an accounting standard, which pertains to certain statement of net assets items measured at fair value on a recurring basis and defines fair value, establishes a framework for measuring fair value and expands disclosures about such measurements.

The standard defines fair value as the exit price or the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

This accounting standard establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FAIR VALUE MEASUREMENTS (Continued)

- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

  Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

  Common stocks and corporate bonds: Valued at the closing price reported on the active market on which the individual securities are traded.

  Mutual funds: Valued at the quoted net asset value of shares held by the Plan at year end.

  Collective trust funds: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The fair value of the Plan's interest in the Stable Value Fund is based upon the net asset value of such fund reflecting all investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund, and are deemed Level 2 inputs.

  Registered investment company: Registered investment companies are stated at fair value, based on their published net asset value. These registered investment companies are publicly traded and are considered to have readily determinable fair values.

  Real property holdings: The fair value of the underlying real estate is estimated using discounted cash flow valuation models that utilize public real estate market data inputs such as transaction prices, market rents, vacancy levels, leasing absorption, market cap rates and discount rates. In addition, each property is appraised annually by an independent appraiser.

  Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

BASIS OF ACCOUNTING

The financial statements are presented on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. See Note 8 regarding the accrual basis of accounting.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

NOTE 3 – RELATED PARTY TRANSACTIONS

Certain investments of the Plan are managed by State Street. State Street is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transactions rules.

NOTE 4 – ADMINISTRATIVE EXPENSES

Administrative expenses include fees paid to Principal Financial Group and ADP for administering the plan and the cost of the annual preparation of Form 5500.

During 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $170,863, while in 2011 they depreciated in value by $1,350.

NOTE 6 – REFUNDABLE CONTRIBUTIONS

For the years 2012 and 2011, resulting from the Plan not discriminating in favor of highly compensated employees, certain participants' contribution percentage of compensation were limited. Contributions exceeding such limitation were for $2,074 and $-0- for 2012 and 2011, respectively.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Trustee (Principal Financial Group) by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2008.

NOTE 8 – DELINQUENT FILER VOLUNTARY COMPLIANCE PROGRAM

In May 2010, the Plan filed the 2008 Form 5500 under the Delinquent Filer Voluntary Compliance Program. As of the date of this audit report, this issue has been referred to the Employee Benefits Security Administration's Office of the Chief Accountant for further review. The Office of the Chief Accountant will make the final decision as to whether any penalties should be assessed. The Plan Sponsor has agreed to cover any penalties that may be assessed.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

Schedule H, Form 5500, has been prepared on the cash basis of accounting wherein income or revenues are reported when collected and expenses reported when paid. The financial statements are presented on the accrual basis of accounting (generally accepted accounting principles) wherein income or revenues are reported when earned rather than collected and expenses reported when incurred rather than when paid. The following is a reconciliation of net assets available for benefits per Form 5500 and the financial statements at December 31:

	2012	2011
Net assets - available for benefits per the Form 5500	$ 2,583,936	$ 2,597,790
Employer corrective contributions receivable	-	-
Refundable deferrals	(2,074)	-
Net assets - available for benefits per the financial statements	$ 2,581,862	$ 2,597,790

NOTE 10 – PLAN TERMINATION

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would receive their account balance in a manner of their choosing such as cash, rollover to another plan, annuity, etc.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 12 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 4, 2013, which is the date the financial statements were available to be issued.
