NOTE 1. PLAN DESCRIPTION

The following description of Ennead Architects LLP 401(k) Plan and Trust (the "Plan") provides only general information. For a more complete description of the Plan's provisions, participants should refer to the Plan document.

General

The Plan, established on January 1, 1994, is a defined contribution plan covering all full-time employees of Ennead Architects LLP (the "Company" or "Sponsor") who have three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions in any calendar year may not exceed the limits under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415.

Employer Contributions

The Company may make discretionary profit-sharing contributions to the Plan to be allocated among eligible participants as defined in the Plan document. There were no profit-sharing contributions or forfeitures thereon for the years ended December 31, 2012 and 2011.

Participants' Accounts

Each participant's account is credited with the participant's contribution, the Company's profit-sharing contributions (if applicable), and Plan earnings, and charged with any administrative expenses specific to that participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Only one loan is permitted outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 5.0% at December 31, 2012, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Company profit-sharing contributions are subject to a six-year graduated vesting schedule. Any forfeitures of Company profit-sharing contributions will be used to pay administrative expenses, or reduce any Company contributions. There were no forfeitures or allocation of forfeitures for the years ended December 31, 2012 and 2011.

NOTE 1. PLAN DESCRIPTION (CONTINUED)

Participant Distributions

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant, subject to certain conditions, may request hardship withdrawals of all or a portion of their vested balance not to exceed the amount necessary to meet the financial need resulting from the hardship. Participants taking a hardship withdrawal may not make voluntary contributions to the Plan for six months.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements were prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recently Adopted Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-4, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amends FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement,* providing a consistent definition and measurement of fair value as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement, and expands the FASB ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective for the year beginning January 1, 2012. The adoption of ASU 2011-04 did not have a material effect on the Plan's financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income, including interest on notes receivable from participants is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Fair Value Measurements

FASB ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

If a participant fails to make a payment when the loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit a participant would otherwise be entitled to from the Plan.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits
Benefits are recorded when paid.

Other
Substantially all administrative expenses are paid by the Company.

Subsequent Events
In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through September 20, 2013, the date on which these financial statements were available to be issued.

NOTE 3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their employer contributions, if applicable.

NOTE 5. TAX STATUS

During 2012 and 2011, the Plan used a prototype plan document sponsored by Hartford Retirement Services LLC ("Hartford"). Hartford received an opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since the prototype plan document, sponsored by Hartford and used by the Plan, received its opinion letter from the IRS, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by federal taxing authorities. The Sponsor has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Sponsor believes the Plan is no longer subject to income tax examinations by taxing authorities for years prior to 2009.

NOTE 9. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investment options consist of shares of mutual funds and a common collective trust managed by the trustee. Accordingly, these transactions qualify as party-in-interest transactions.

The trustee earns fees through the administration of participant loans. These fees are paid by individual participants with outstanding loans. All other administrative expenses (i.e., administration, legal and accounting) are paid by the Company.

NOTE 10. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value are based on one or more of three valuation techniques identified in the tables below. The valuation techniques are as follows:

(a) *Market approach*. Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;

(b) *Cost approach*. Amount that would be required to replace the service capacity of an asset (replacement cost); and

(c) *Income approach*. Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing and excess earnings models).

NOTE 10. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables summarize the Plan's assets measured at fair value on a recurring basis, categorized by GAAP's valuation hierarchy as of December 31, 2012 and 2011:

During the years ended December 31, 2012 and 2011, there were no transfers between levels of the fair value hierarchy.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual Funds: are valued at quoted market prices, which represent the net asset value of the securities held in such funds.

Common Collective Trusts: are valued using the net asset value ("NAV"). The NAV of a common collective trust is based on the market values of the underlying securities in an active market. The beneficial interest of each participant is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

NOTE 10. FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 11. NET ASSET VALUE PER SHARE

The following tables set forth a summary of the Plan's investment with a reported NAV per share at December 31, 2012 and 2011:

	Fair Value Estimated Using Net Asset Value per Share December 31, 2012				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Fixed Fund (a)	$ 1,004,681	$ -	Daily	None	None

	Fair Value Estimated Using Net Asset Value per Share December 31, 2011				
Investment	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Fixed Fund (a)	$ 957,321	$ -	Daily	None	None

(a) The Fixed Fund primarily invests in a variety of investment contracts such as guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions, and other investment products (synthetic GICs and collective investment trusts) with similar characteristics. The Fixed Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time.

NOTE 12. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan's investment in SEI Trust Company ("SEI") holds benefit-responsive guaranteed investment contracts. SEI maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The GIC is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by SEI, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 12. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS (CONTINUED)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the contracts was estimated to be $1,004,681 and $957,321 as of December 31, 2012 and 2011, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. At December 31, 2012 and 2011, the average yield earned by the trust was 1.09% and 1.66%, respectively. The average yield earned with an adjustment to reflect the actual interest rate credited to participants was 1.72% and 1.17% at December 31, 2012 and 2011, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The GIC does not permit SEI to terminate the agreement prior to the scheduled maturity date.

NOTE 13. PROHIBITED TRANSACTIONS

During 2012 and 2011, the Sponsor inadvertently failed to remit deposits in the aggregate of $667,685 and $720,543, respectively, of participant deferrals and loan repayments within the required time frame as required by the Department of Labor ("DOL"). The DOL considers late remittances to be prohibited transactions. In 2013 the Sponsor received a "No Action Letter" from the DOL after the Sponsor self corrected the 2011 prohibited transactions. The Sponsor is currently in the process of self correcting the 2012 prohibited transactions and estimates the lost earnings to be reimbursed to the plan participants to approximate $400.

NOTE 14. SUBSEQUENT EVENTS

In July 2013, the Plan changed trustees and made certain modifications to its existing Plan document. In connection with the change in trustee, the Plan also began operating under a new prototype plan document, which the current Plan administrator and the Plan's tax counsel believe is designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.
