NOTE A - DESCRIPTION OF THE PLAN

The following description of The SAVE Program for Employees of Viskase Companies, Inc. (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide deferred compensation benefits to eligible employees. Under the Plan, all of the employees of Viskase Companies, Inc. (Employer or the Company) who have met the eligibility requirements may elect to participate in the Plan. Employees who are covered by a collective bargaining agreement will be eligible only if their participation is provided for in the agreement. The Plan was amended and restated effective January 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participation

Regular full-time employees may become Plan members (Participants) upon employment.

Contributions

Effective January 1, 2007, employees are automatically enrolled in the Plan at 6%. An employee may choose to make contributions to the Plan of 1% to 6% of their regular pay (Eligible Earnings) as a basic deduction contribution on a before-tax or after-tax basis. Participants who contribute the maximum 6% as a basic deduction contribution may contribute up to an additional 10% of Eligible Earnings as a supplemental deduction contribution on a before-tax or after-tax basis. Participants are allowed to change the amount of their basic deduction contribution and their supplemental deduction contribution once per month. Eligible Participants may elect to make catch-up contributions to the Plan, as defined in the Plan document.

In addition, Participants covered under a collective bargaining agreement will receive Employer matching contributions to the Plan that are equal to 50% of the Participant's contributions up to 6% of Eligible Earnings. Participants' before-tax and after-tax contributions in excess of 6% of the Participant's Eligible Earnings are not eligible to receive Employer matching contributions.

Eligible employees, who are part of a collective bargaining agreement, will receive an Employer fixed contribution. The amount of such Employer fixed contribution shall be equal to 3% of Eligible Earnings. Non-collective bargaining Participants receive an Employer matching contribution that is equal to 100% of the Participant's contribution up to 3%, and 50% of the Participant's contribution for the next 2%.

Participants are eligible for a Company variable contribution, a discretionary profit-sharing contribution of up to 3% of Eligible Earnings. There was no discretionary Company variable contribution for the year ended December 31, 2012. Eligible employees not covered under a collective bargaining agreement will receive the Company retiree contribution, a fixed annual retirement contribution of $1,000.

Vesting

Participant contributions plus the earnings thereon are fully vested. If a Participant voluntarily terminates before completing three years of credited service, contributions made by the Employer and earnings thereon are forfeited. If a Participant attains age 65 or becomes permanently and totally disabled, dies or is terminated

by the Employer for reasons other than cause, the full value of the Employer contribution account is immediately vested.

Effective January 1, 2007, a Participant's vested interest in his or her qualified non-elective, qualified match and safe harbor matching contribution accounts shall be at all times 100% vested. A Participant's vested interest in his or her Company fixed, Company variable and regular matching contribution accounts shall be 0% until the Participant has completed three years of vesting service. Then, his or her vested interest shall be 100%. A Participant's vested interest in his or her Company retiree contribution account shall be 0% until the Participant has completed five years of vested service. After that time, the Participant's vested interest will be 100%. Aside from the above, if a Participant is employed by the Company or a related company on his or her retirement date, date of his or her disability, or date he or she dies, or he or she is terminated from the Company for reasons other than cause, his or her vested interest shall be 100% in his or her Employer accounts.

Payment of Benefits

On termination of service, Participants with account balances in excess of $5,000 may elect to either receive a single-sum amount or defer payment until the April 1 following the year the Participant reaches age 70-1/2. Participants who terminate employment with account balances less than or equal to $5,000 receive a single-sum payment. Participants may choose to make a direct rollover into another qualified plan or into an Individual Retirement Account (IRA). Spouse beneficiaries may make a direct rollover into an IRA. Non-spouse beneficiaries may not make a direct rollover into an IRA. Participants may elect to receive installment payments under the Plan. Payment to any Participant must be made no later than the April 1 following the year the Participant reaches age 70-1/2, even if he or she has not retired. The Plan permits Participants to make withdrawals while they are employed. The Plan sets out the limits and priority of any withdrawal. The Plan permits hardship withdrawals of before-tax contributions in accordance with Internal Revenue Code (IRC) requirements.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of a Participant's account balance. The loans are secured by the balance in the Participant's account and bear interest at a rate commensurate with the interest rate charged by area banking institutions for loans made under similar circumstances. The period for loan repayment cannot exceed five years from the date of the loan, unless the loan is for the purchase of a principal residence, in which case the repayment period cannot exceed 10 years. Principal and interest are paid ratably through payroll deductions.

Forfeitures

Forfeitures of a terminated Participant are required to be held by the Plan pending the Participant's possible return to employment and reinstatement in the Plan. If reinstatement does not occur by the end of the year following the year during which the Participant terminated employment, such forfeitures are reallocated to Participants on a pro rata basis and is recorded as an offset to employer contributions in the statement of changes in net assets available for benefits. Approximately $180,000 of forfeitures was used to fund Employer contributions in 2012. For the years ended December 31, 2012 and 2011, the balance of the forfeiture account was approximately $3,000 and $144,000, respectively

Administrative Expenses

Certain transactional charges are charged to the Plan in accordance with Plan provisions. All other expenses of maintaining the Plan are paid by the Company.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for benefit-responsive investment contracts because contract value is the amount Participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits at December 31, 2012 and 2011, present the fair value of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Adoption of New Accounting Guidance

In May 2011, the Financial Accounting Standards Board (FASB) issued guidance clarifying how to measure and disclose fair value. This guidance amends the application of existing fair value measurement requirements, while other amendments change a particular principle in existing fair value measurement guidance. In addition, this guidance requires additional fair value disclosures, although certain of these new disclosures will not be required for non-public entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The adoption of the amended guidance did not have a material impact on the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market Participants at the measurement date. See note D for a discussion of fair value measurements.

Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Realized and unrealized appreciation is recorded in the accompanying statement of changes in net assets available for benefits as net appreciation in fair value of mutual funds.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent Participant loans are reclassified as distributions based on the terms of the Plan document.

Benefit Payments

Benefit payments are recorded when paid.

NOTE C - INVESTMENTS

The fair market value of investments that represent 5% or more of the Plan's net assets as of December 31, 2012 and 2011, are as follows:

	2012	2011
Collective trust fund		
T. Rowe Price Stable Value Fund	$24,838,709*	$25,433,625*
Mutual funds		
T. Rowe Price Dividend Growth Fund	3,658,589	3,254,097

* Fair value of the T. Rowe Price Stable Value Fund is $25,906,534 and $26,352,665 at December 31, 2012 and 2011, respectively.

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance that establishes a framework for measuring fair value under current accounting pronouncements that require or permit fair value measurement and enhances disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

FASB guidance establishes a three-tiered hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management uses the following methods and significant assumptions to estimate fair value of investments:

Mutual funds - Valued at the net asset value of shares held by the Plan at year-end, which is obtained from an active market.

Collective trust - Valued at the net asset value, which is based on the Plan's interest in the collective trust based on information reported by the investment advisor.

Investments valued at net asset value as a practical expedient as of December 31, 2012 and 2011, consisted of the T. Rowe Price Stable Value Fund. This fund seeks to preserve principal investment while earning interest income. The fund will try to maintain a stable $1 unit price, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate. The fund invests in investment contracts (wrap contracts) issued by

insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity.

The net asset value of the fund is determined using the market value, or fair value if market data is unavailable, of the underlying securities. The fund allows for daily liquidity with no additional days' notice required for redemption for Participant-directed transactions. Were the Plan to initiate a full redemption of the fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust for up to 12 months in order to ensure that securities liquidations will be carried out in an orderly manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE E - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from Participants, as shown in the statements of net assets available for benefits as of December 31, 2012 and 2011.

- Investment income and interest income on notes receivable from Participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2012.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2012.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated January 13, 2011, that the Plan and related trust, as then designed, are in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is designed and is currently being operated in accordance with the applicable sections of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2009.

NOTE G - RELATED-PARTY TRANSACTIONS

Certain Plan investments were managed by T. Rowe Price Trust Company or an affiliate of T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Plan accounts will become fully vested in the Employer contribution portion of their accounts.

NOTE J - SUBSEQUENT EVENTS

The Plan evaluates subsequent events occurring between the most recent balance sheet date and the date that the financial statements are available to be issued in order to determine whether the subsequent events are to be recorded in and/or disclosed in the Plan's financial statements and notes.
