Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Advanced Dermatology 401(k) Plan which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule appearing on page 14, as of December 31, 2012 is required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis, and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Advanced Dermatology 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description and other publications previously submitted to them for more complete information.

General
The Plan was a prototype 401(k) defined contribution plan of Nationwide Trust Company, FSB ("Nationwide"), the trustee of the Plan's investment assets. Effective November 5, 2010, the Plan was restated to a volume submitter defined contribution plan with Fidelity Managamnet Trust Company ("Fidelity").

The Plan was established July 1, 1993 covering all eligible employees of Advanced Dermatology, P.C. and effective October 21, 2009 the employees of Advanced Dermatology of NJ, P.C. (collectively the "Employer"), who have completed three consecutive full calendar months of employment and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Participants may elect to voluntarily contribute to the Plan from 1 to 100 percent (in full percentage points) of their "before-tax" earnings, up to a maximum in accordance with Section 415 (c) of the Internal Revenue Code (the "IRC") and adjusted annually for inflation thereafter. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. As of January 1, 2008 the Plan accepts Roth elective deferrals made on behalf of participants. The Employer may elect to contribute a matching contribution or a discretionary contribution. For the years ended December 31, 2012 and 2011, the Employer has made no contributions.

Participants Accounts
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Employer's matching contribution, and allocations of (1) Employer's discretionary contributions and (2) Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants immediately vest 100% in their voluntary contributions and earnings thereon. Employer discretionary contributions will vest on the basis of the participant's number of years of service. A participant is vested in their allocated discretionary contribution account with a six-year graded vesting schedule.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or a longer repayment period allowed by the administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 1 - Description of Plan (continued)

Payment of Benefits
On termination of services due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments not to exceed the life expectancy of the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures
Forfeitures of non-vested accounts are used to reduce plan expenses or reallocated as additional Employer contributions. For both the years ended December 31, 2012 and 2011, there were no forfeitures.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Employer as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements in net assets available for benefits. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract (a stable value fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the Fund), a pooled separate account of Fidelity Management Trust Company (Fidelity"), is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem their investment in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrued basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2012 and 2011. Delinquent participant loans are reclassified as benefit payments based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Subsequent Events
The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 2, 2013, the date the financial statements were available to be issued.

Note 3 - Investments

Other than the fair value of the fund and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedules, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation (depreciation) n the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity (the trustee of the plan). The contract value of the stable value fund was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2012 and 2011.

Note 3 – Investments (continued)

Investments that represent 5 percent or more of the Plan's net assets as of December 31, 2012 and 2011 are separately identified below:

	December 31, 2012	December 31, 2011
Mutual Funds		
FA Freedom 2020 A 55,075 and 50,401 units, respectively	$ 688,991	$ 578,603
FA Freedom 2030 A 43,912 and 40,421 units, respectively	556,362	462,418
FA Freedom 2040 A 17,981 and 15,930 units, respectively	230,163	181,924
FA Freedom 2025 A 43,723 and 41,048 units, respectively	528,607	449,472
FA Freedom 2035 A 50,274 and 45,752 units, respectively	602,784	490,008
Common/Collective Trust		
FA Stable Value 297,472 and 260,434 shares, respectively	297,472	269,022

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) for the years ended December 31, 2012 and 2011 by $275,564 and $(156,100) respectively, as follows:

	2012	2011
Mutual funds	$ 270,836	$ (167,369)
Common/collective trusts	4,728	11,269
	$ 275,564	$ (156,100)

Note 4 - Fair Value Measurements

The framework for measuring fair value establishes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the hierarchy and those investments included in each are as follows:

Note 4 - Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the assets or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table set forth by level, within the fair value hierarchy, the Plan's recurring investments at fair value as of December 31, 2012 and 2011:

Fair Value of Investments in Entities that Use NAV

The following table summarizes the investments measured at fair value based on NAV per shares as of December 31, 2012 and 2011, respectively.

Note 4 - Fair Value Measurements (continued)

December 31, 2012

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

FA Stable Value	$269,022	n/a	Daily	30 Days

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Fidelity which maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 5 – Valuation of Stable Value Fund (continued)

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012	2011
Based on actual earnings	1.11%	1.26%
Based on interest rate credited to participants	1.69%	1.74%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 7 - Tax Status

The plan administrator has been provided with a letter dated August 7, 2001 by the Internal Revenue Service ("IRS"), which indicated that the prototype plan adopted by the Employer is qualified and the underlying trust is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). As of November 5, 2010, the Plan adopted the Fidelity Volume Submitter Plan. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Related Party Transactions

The investments owned by the Plan are managed by Fidelity the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees Incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

Note 9 - Related Party Transactions (continued)

As described in Note 2, the Plan made direct payments to the third party administrator of $1,190 and $613 for the years ended December 31, 2012 and 2011 respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 10 – Reclassifications

Certain amounts in the prior year presented have been reclassified to conform to the current period financial statement presentation. These reclassifications reduced previously reported net increase in net assets available for benefits for the year ended December 31, 2011 by $8,588.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per the financial statements	$ 3,511,147	$ 2,939,040
Adjustment from contract value to fair value	9,963	8,588
Net assets available for benefits per Form 5500	$ 3,521,110	$ 2,947,628

The following is a reconciliation of net increase (decrease) in net assets per the financial statements to the Form 5500 for the years ended December 31, 2012 and 2011:

	2012	2011
Total increase in net assets per the financial statements	$ 572,107	$ 203,826
Adjustment from contract value to fair value for investment contracts at beginning of year	(8,588)	-
Adjustment from contract value of fair value for investment contracts at end of year	9,963	8,588
Total increase in net assets per the form 5500	$ 573,482	$ 212,414

Advanced Dermatology 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Advanced Dermatology 401(k) Plan which comprise the statements of net assets available for benefits as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2012 and 2011, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule appearing on page 14, as of December 31, 2012 is required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis, and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Advanced Dermatology 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description and other publications previously submitted to them for more complete information.

General
The Plan was a prototype 401(k) defined contribution plan of Nationwide Trust Company, FSB ("Nationwide"), the trustee of the Plan's investment assets. Effective November 5, 2010, the Plan was restated to a volume submitter defined contribution plan with Fidelity Managamnet Trust Company ("Fidelity").

The Plan was established July 1, 1993 covering all eligible employees of Advanced Dermatology, P.C. and effective October 21, 2009 the employees of Advanced Dermatology of NJ, P.C. (collectively the "Employer"), who have completed three consecutive full calendar months of employment and attained the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Participants may elect to voluntarily contribute to the Plan from 1 to 100 percent (in full percentage points) of their "before-tax" earnings, up to a maximum in accordance with Section 415 (c) of the Internal Revenue Code (the "IRC") and adjusted annually for inflation thereafter. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. As of January 1, 2008 the Plan accepts Roth elective deferrals made on behalf of participants. The Employer may elect to contribute a matching contribution or a discretionary contribution. For the years ended December 31, 2012 and 2011, the Employer has made no contributions.

Participants Accounts
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Employer's matching contribution, and allocations of (1) Employer's discretionary contributions and (2) Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants immediately vest 100% in their voluntary contributions and earnings thereon. Employer discretionary contributions will vest on the basis of the participant's number of years of service. A participant is vested in their allocated discretionary contribution account with a six-year graded vesting schedule.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years or a longer repayment period allowed by the administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 1 - Description of Plan (continued)

Payment of Benefits
On termination of services due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments not to exceed the life expectancy of the participant. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures
Forfeitures of non-vested accounts are used to reduce plan expenses or reallocated as additional Employer contributions. For both the years ended December 31, 2012 and 2011, there were no forfeitures.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Employer as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements in net assets available for benefits. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits present the fair value of the investment contract (a stable value fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the Fund), a pooled separate account of Fidelity Management Trust Company (Fidelity"), is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem their investment in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrued basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2012 and 2011. Delinquent participant loans are reclassified as benefit payments based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Subsequent Events
The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through October 2, 2013, the date the financial statements were available to be issued.

Note 3 - Investments

Other than the fair value of the fund and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedules, including investments and notes receivable from participants held at December 31, 2012 and 2011, and net appreciation (depreciation) n the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity (the trustee of the plan). The contract value of the stable value fund was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2012 and 2011.

Note 3 – Investments (continued)

Investments that represent 5 percent or more of the Plan's net assets as of December 31, 2012 and 2011 are separately identified below:

	December 31, 2012	December 31, 2011
Mutual Funds		
FA Freedom 2020 A 55,075 and 50,401 units, respectively	$ 688,991	$ 578,603
FA Freedom 2030 A 43,912 and 40,421 units, respectively	556,362	462,418
FA Freedom 2040 A 17,981 and 15,930 units, respectively	230,163	181,924
FA Freedom 2025 A 43,723 and 41,048 units, respectively	528,607	449,472
FA Freedom 2035 A 50,274 and 45,752 units, respectively	602,784	490,008
Common/Collective Trust		
FA Stable Value 297,472 and 260,434 shares, respectively	297,472	269,022

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) for the years ended December 31, 2012 and 2011 by $275,564 and $(156,100) respectively, as follows:

	2012	2011
Mutual funds	$ 270,836	$ (167,369)
Common/collective trusts	4,728	11,269
	$ 275,564	$ (156,100)

Note 4 - Fair Value Measurements

The framework for measuring fair value establishes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the hierarchy and those investments included in each are as follows:

Note 4 - Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the assets or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table set forth by level, within the fair value hierarchy, the Plan's recurring investments at fair value as of December 31, 2012 and 2011:

Fair Value of Investments in Entities that Use NAV

FA Stable Value	$269,022	n/a	Daily	30 Days

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Fidelity which maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 5 – Valuation of Stable Value Fund (continued)

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2012	2011
Based on actual earnings	1.11%	1.26%
Based on interest rate credited to participants	1.69%	1.74%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 7 - Tax Status

The plan administrator has been provided with a letter dated August 7, 2001 by the Internal Revenue Service ("IRS"), which indicated that the prototype plan adopted by the Employer is qualified and the underlying trust is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). As of November 5, 2010, the Plan adopted the Fidelity Volume Submitter Plan. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2012, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Related Party Transactions

The investments owned by the Plan are managed by Fidelity the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees Incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

Note 9 - Related Party Transactions (continued)

As described in Note 2, the Plan made direct payments to the third party administrator of $1,190 and $613 for the years ended December 31, 2012 and 2011 respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 10 – Reclassifications

Certain amounts in the prior year presented have been reclassified to conform to the current period financial statement presentation. These reclassifications reduced previously reported net increase in net assets available for benefits for the year ended December 31, 2011 by $8,588.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per the financial statements	$ 3,511,147	$ 2,939,040
Adjustment from contract value to fair value	9,963	8,588
Net assets available for benefits per Form 5500	$ 3,521,110	$ 2,947,628

The following is a reconciliation of net increase (decrease) in net assets per the financial statements to the Form 5500 for the years ended December 31, 2012 and 2011:

	2012	2011
Total increase in net assets per the financial statements	$ 572,107	$ 203,826
Adjustment from contract value to fair value for investment contracts at beginning of year	(8,588)	-
Adjustment from contract value of fair value for investment contracts at end of year	9,963	8,588
Total increase in net assets per the form 5500	$ 573,482	$ 212,414
